**1/72 SCALE B-24D LIBERATOR
MANUFACTURER : HASEGAWA
MODEL BUILT BY : SCOTT WELLER**

**KIT DESCRIPTION
AND
BUILDING NOTES**

This is a new 1/72 scale kit from Hasegawa. The surface detail is very delicate and well executed. The interior detailing is a little on the sparse side, but in this scale you will have to look real close to notice it. The fit of this kit is excellent and the clear parts are very well done. The decals are very crisp and respond well to setting solution. The desert pink color is a mixture of Testors model master enamel tan with some white added. The neutral gray color is from Gunze.
