

This is the Monogram-Revell 1/48 scale B-25H/J series tape up review.

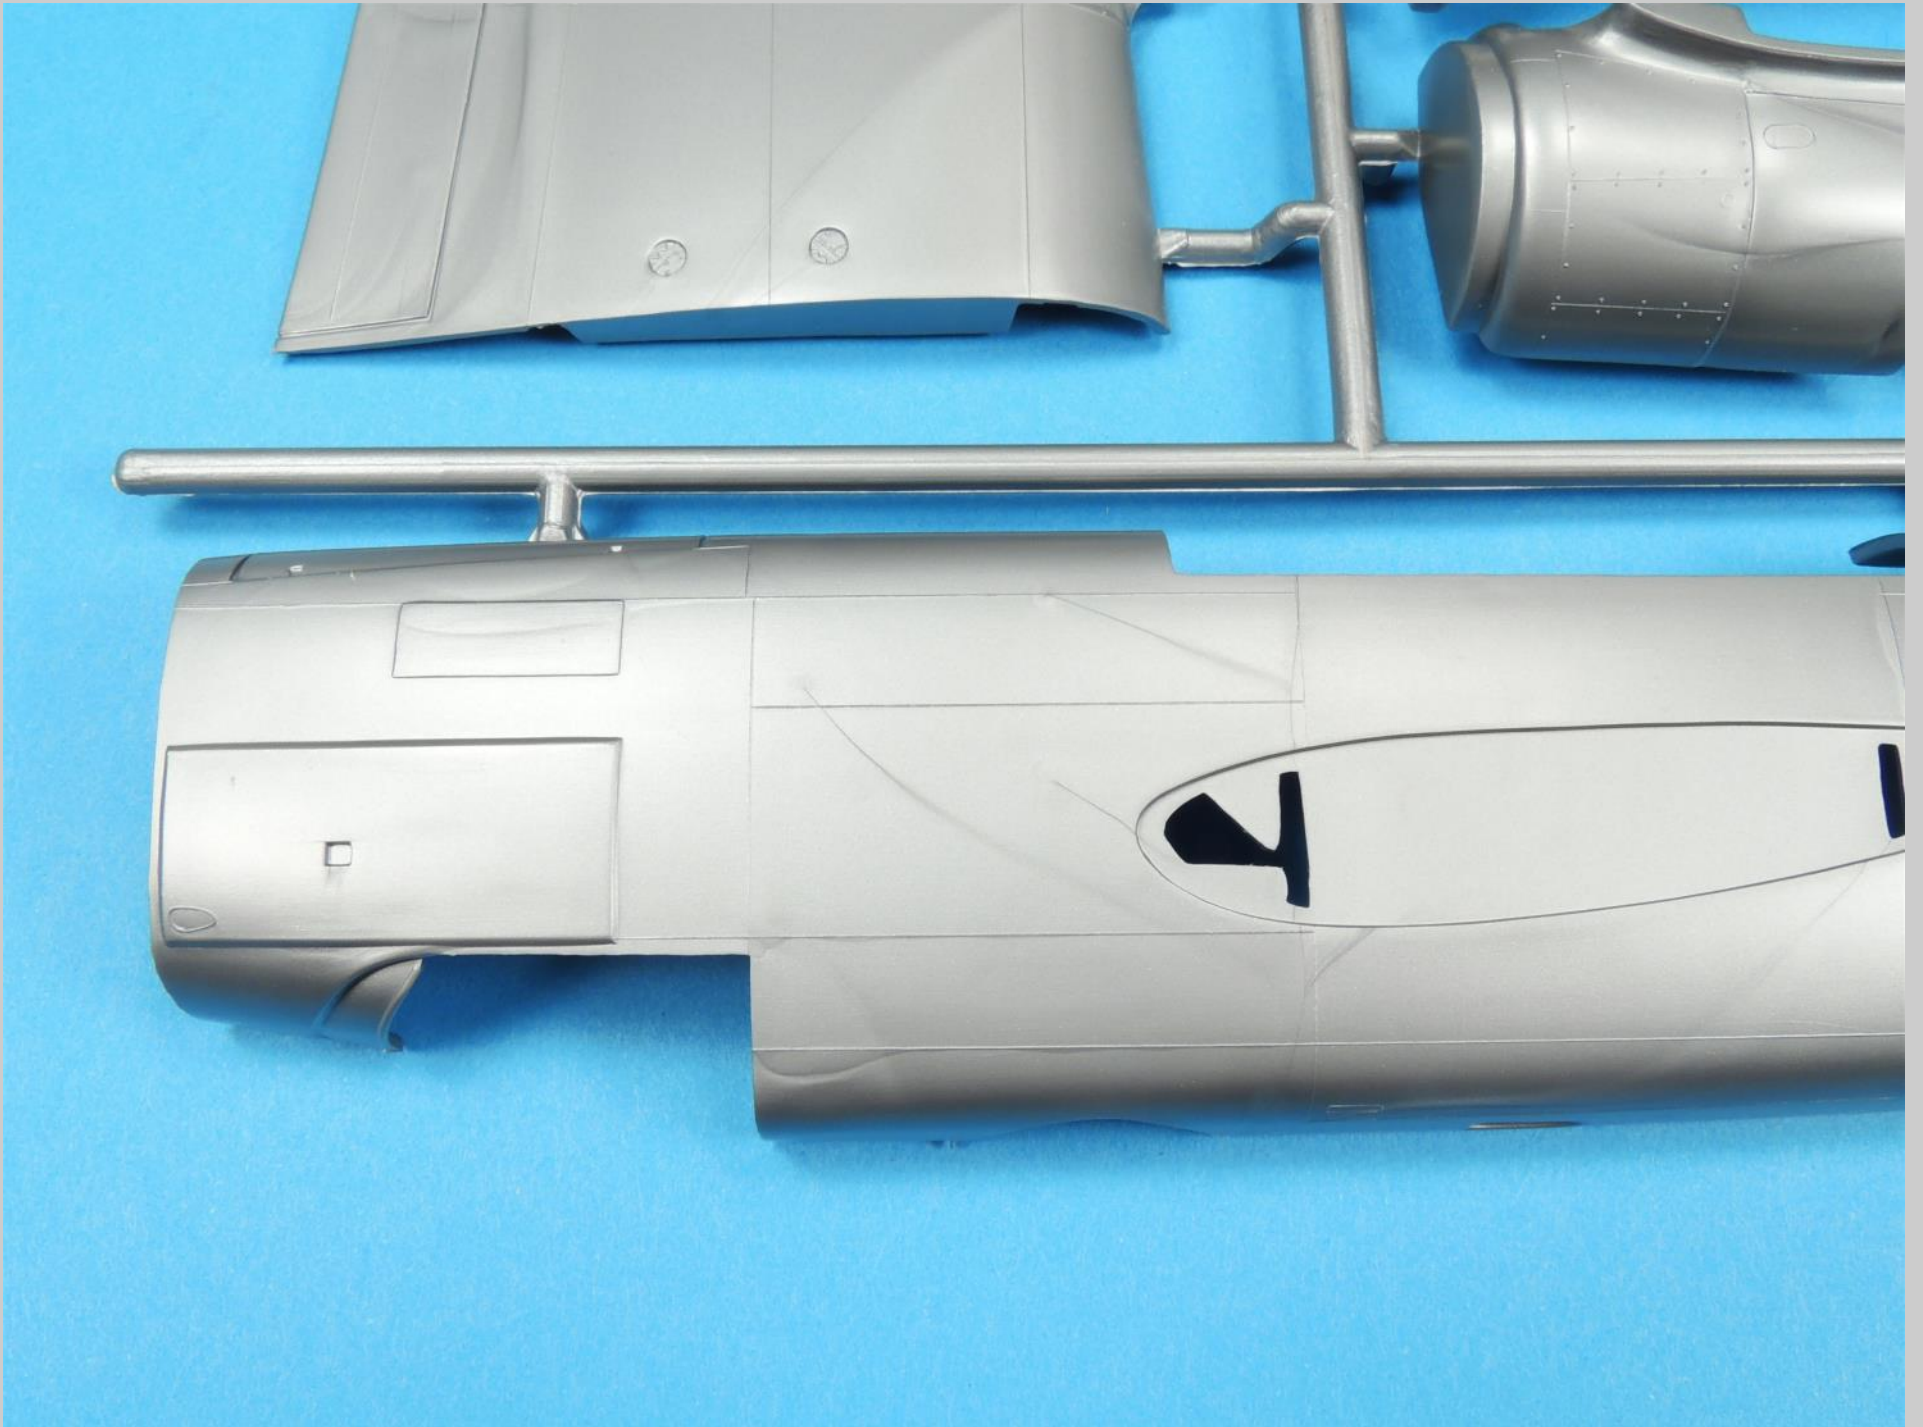

All the parts for this kit series have been scanned so that you can see the level of detail Monogram incorporated into the B-25H/J series. Revell has reissued this kit series with new decals and updated instructions. There are no notes associated with each picture.

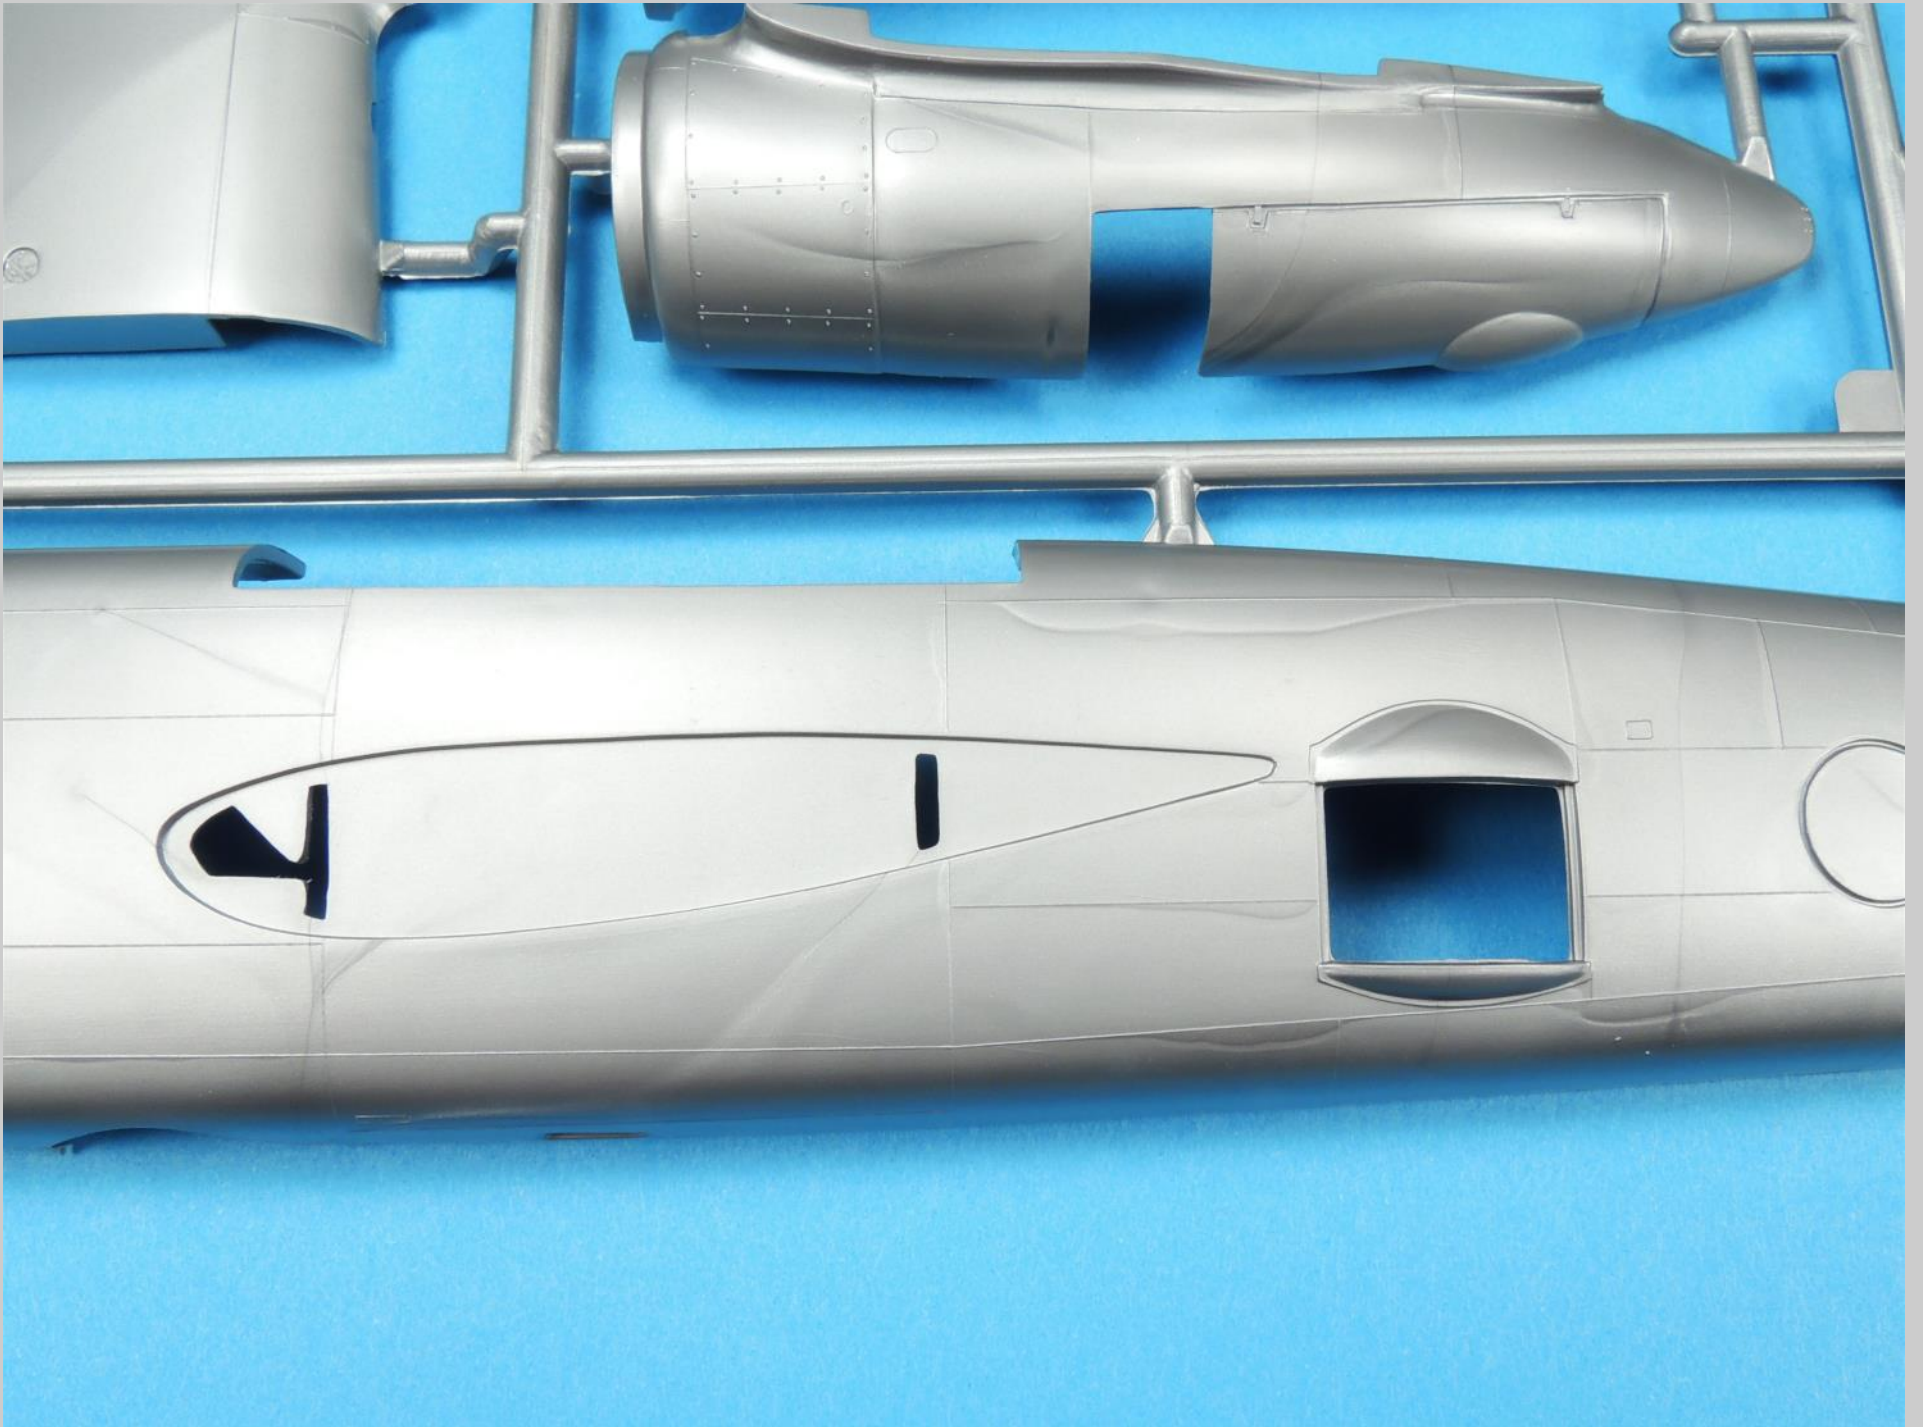

I am now posting tape ups in PDF format to coincide with my reviews on my YouTube channel:
"Scale Modeling with Mike Ashey".

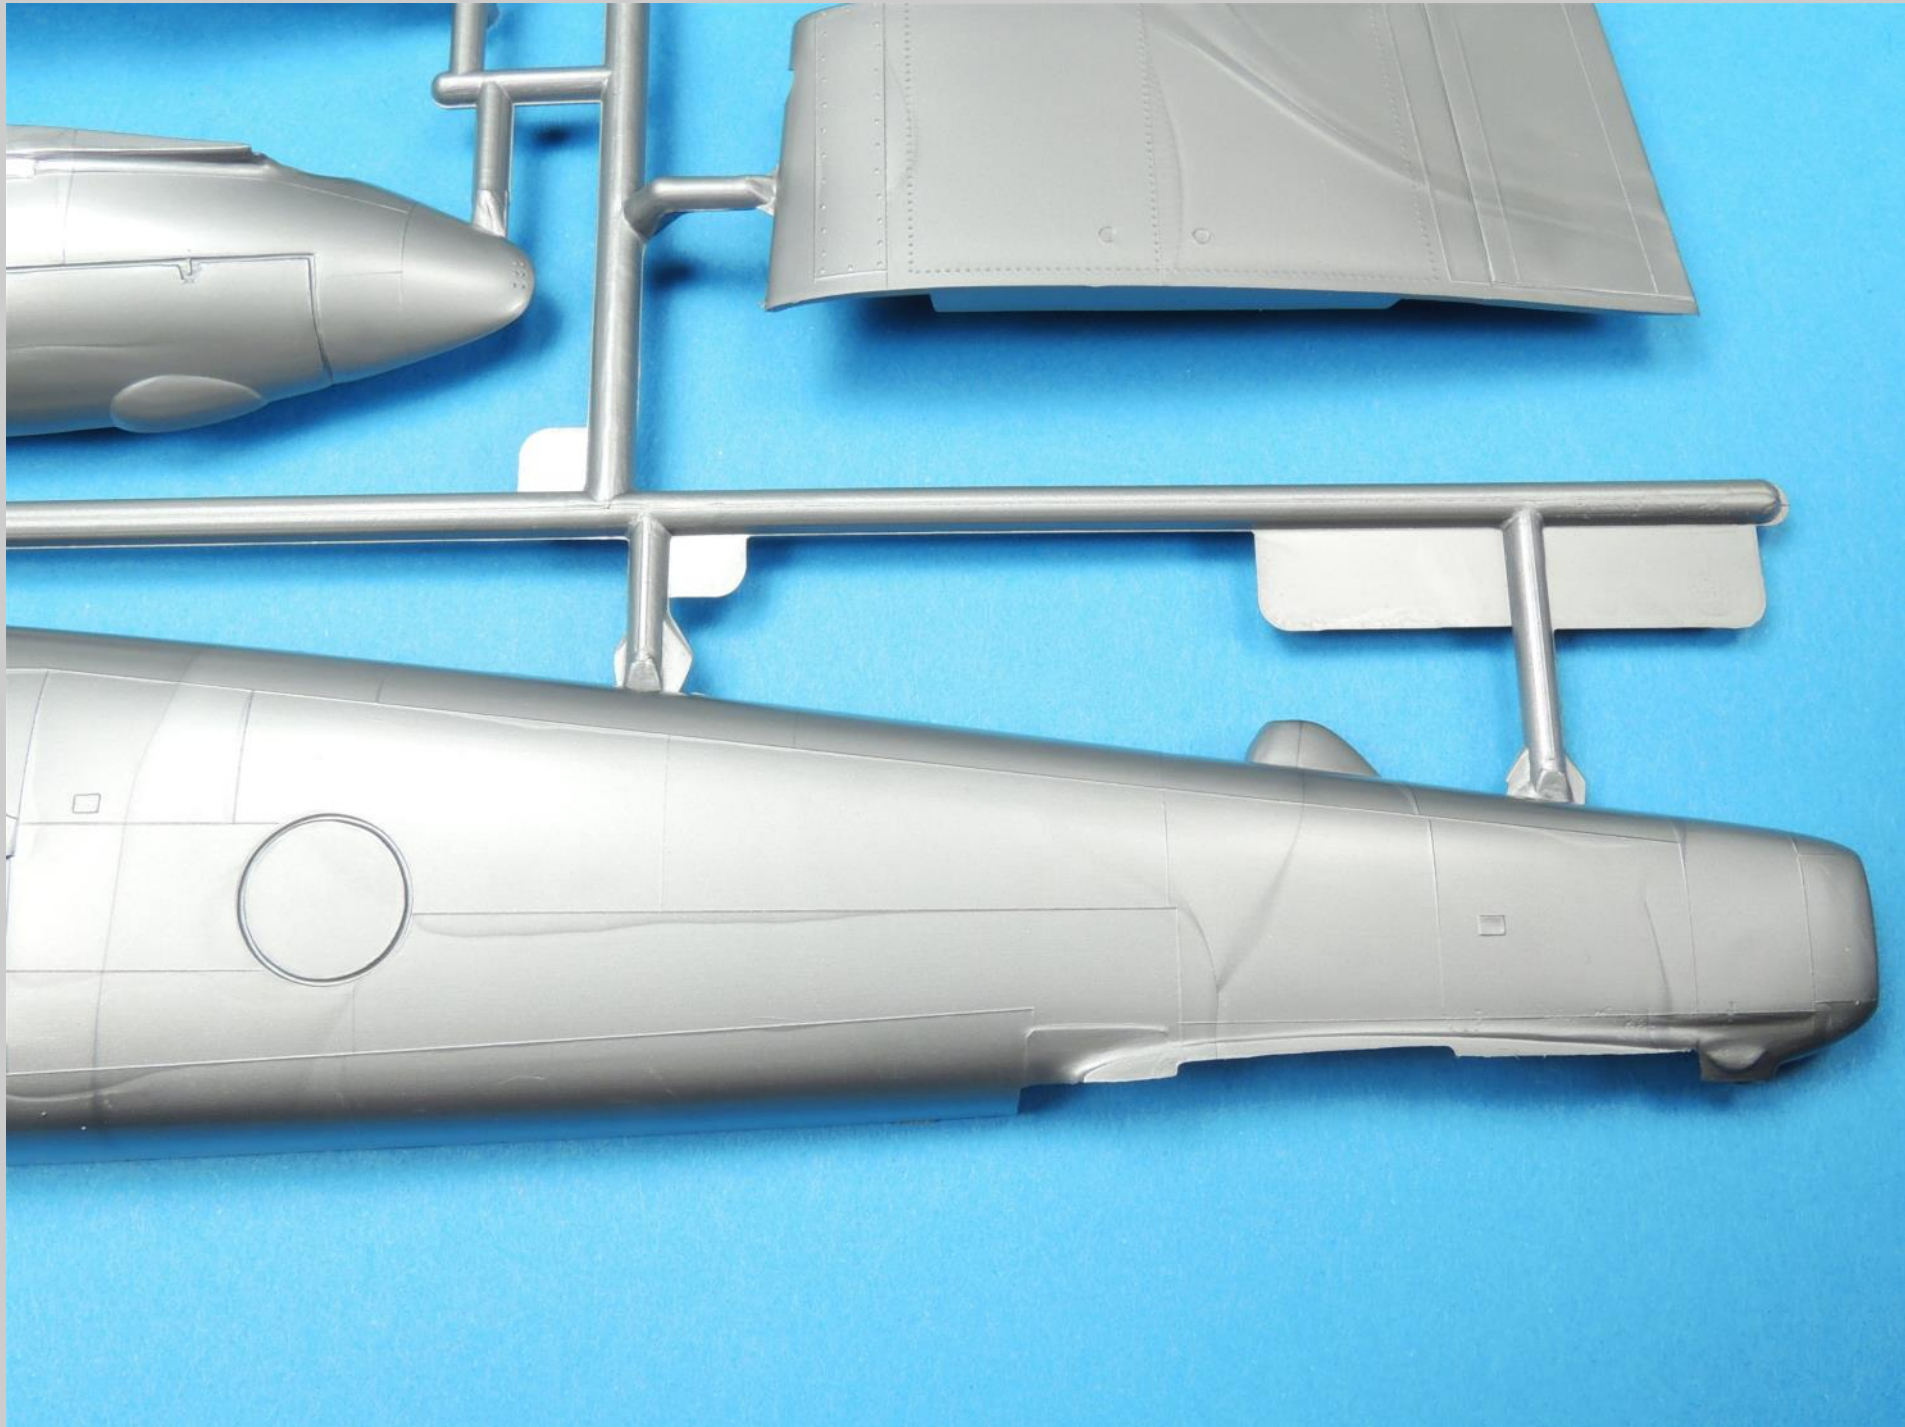

I recommend that you download this PDF, print it out and make notes from the YouTube video.

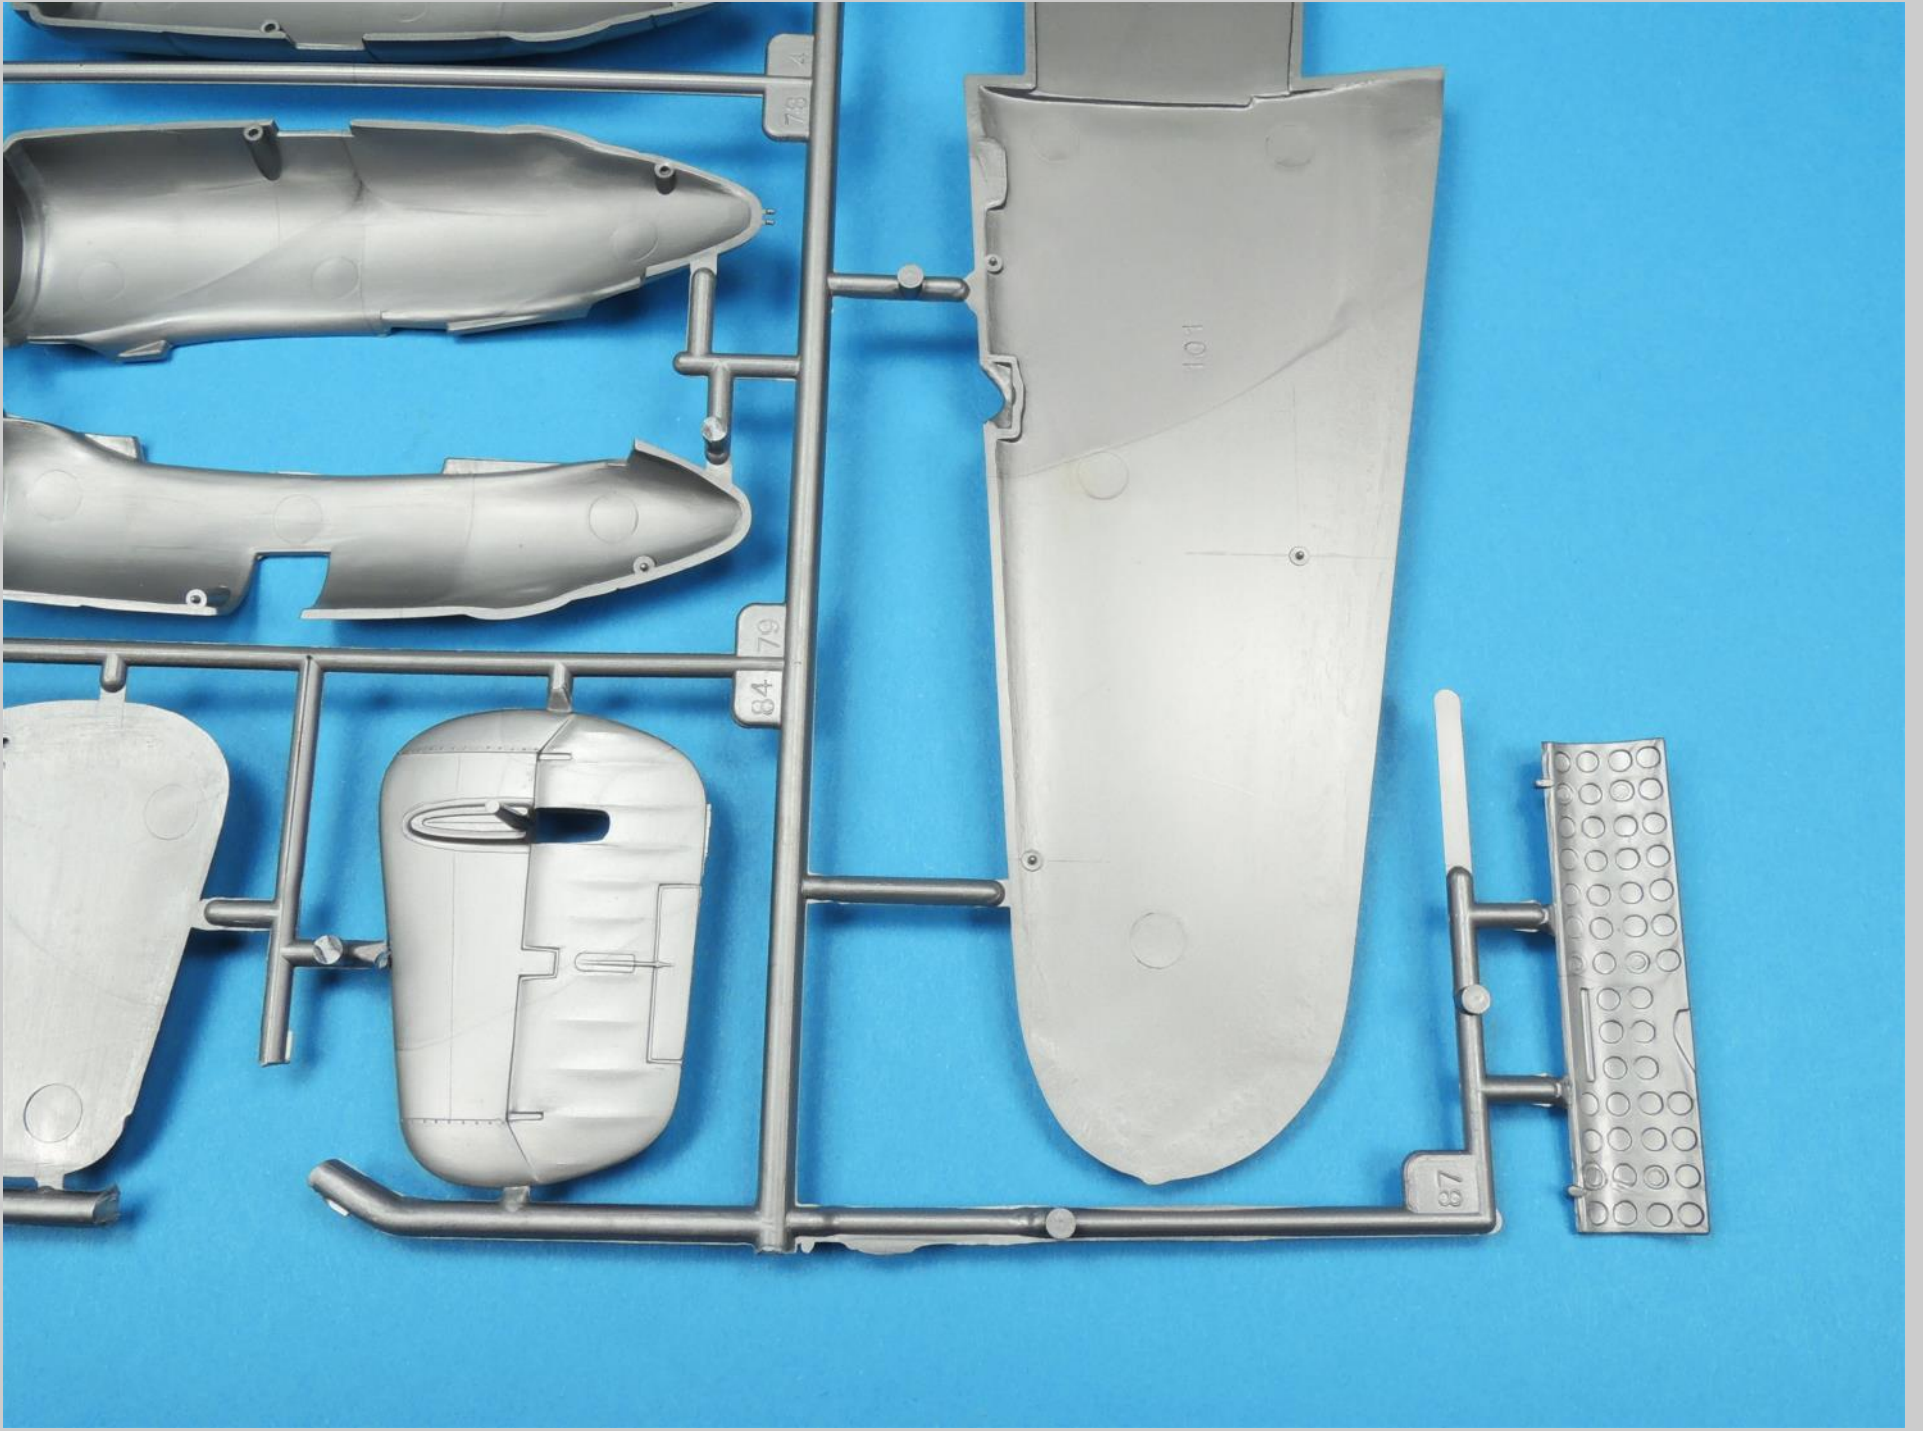

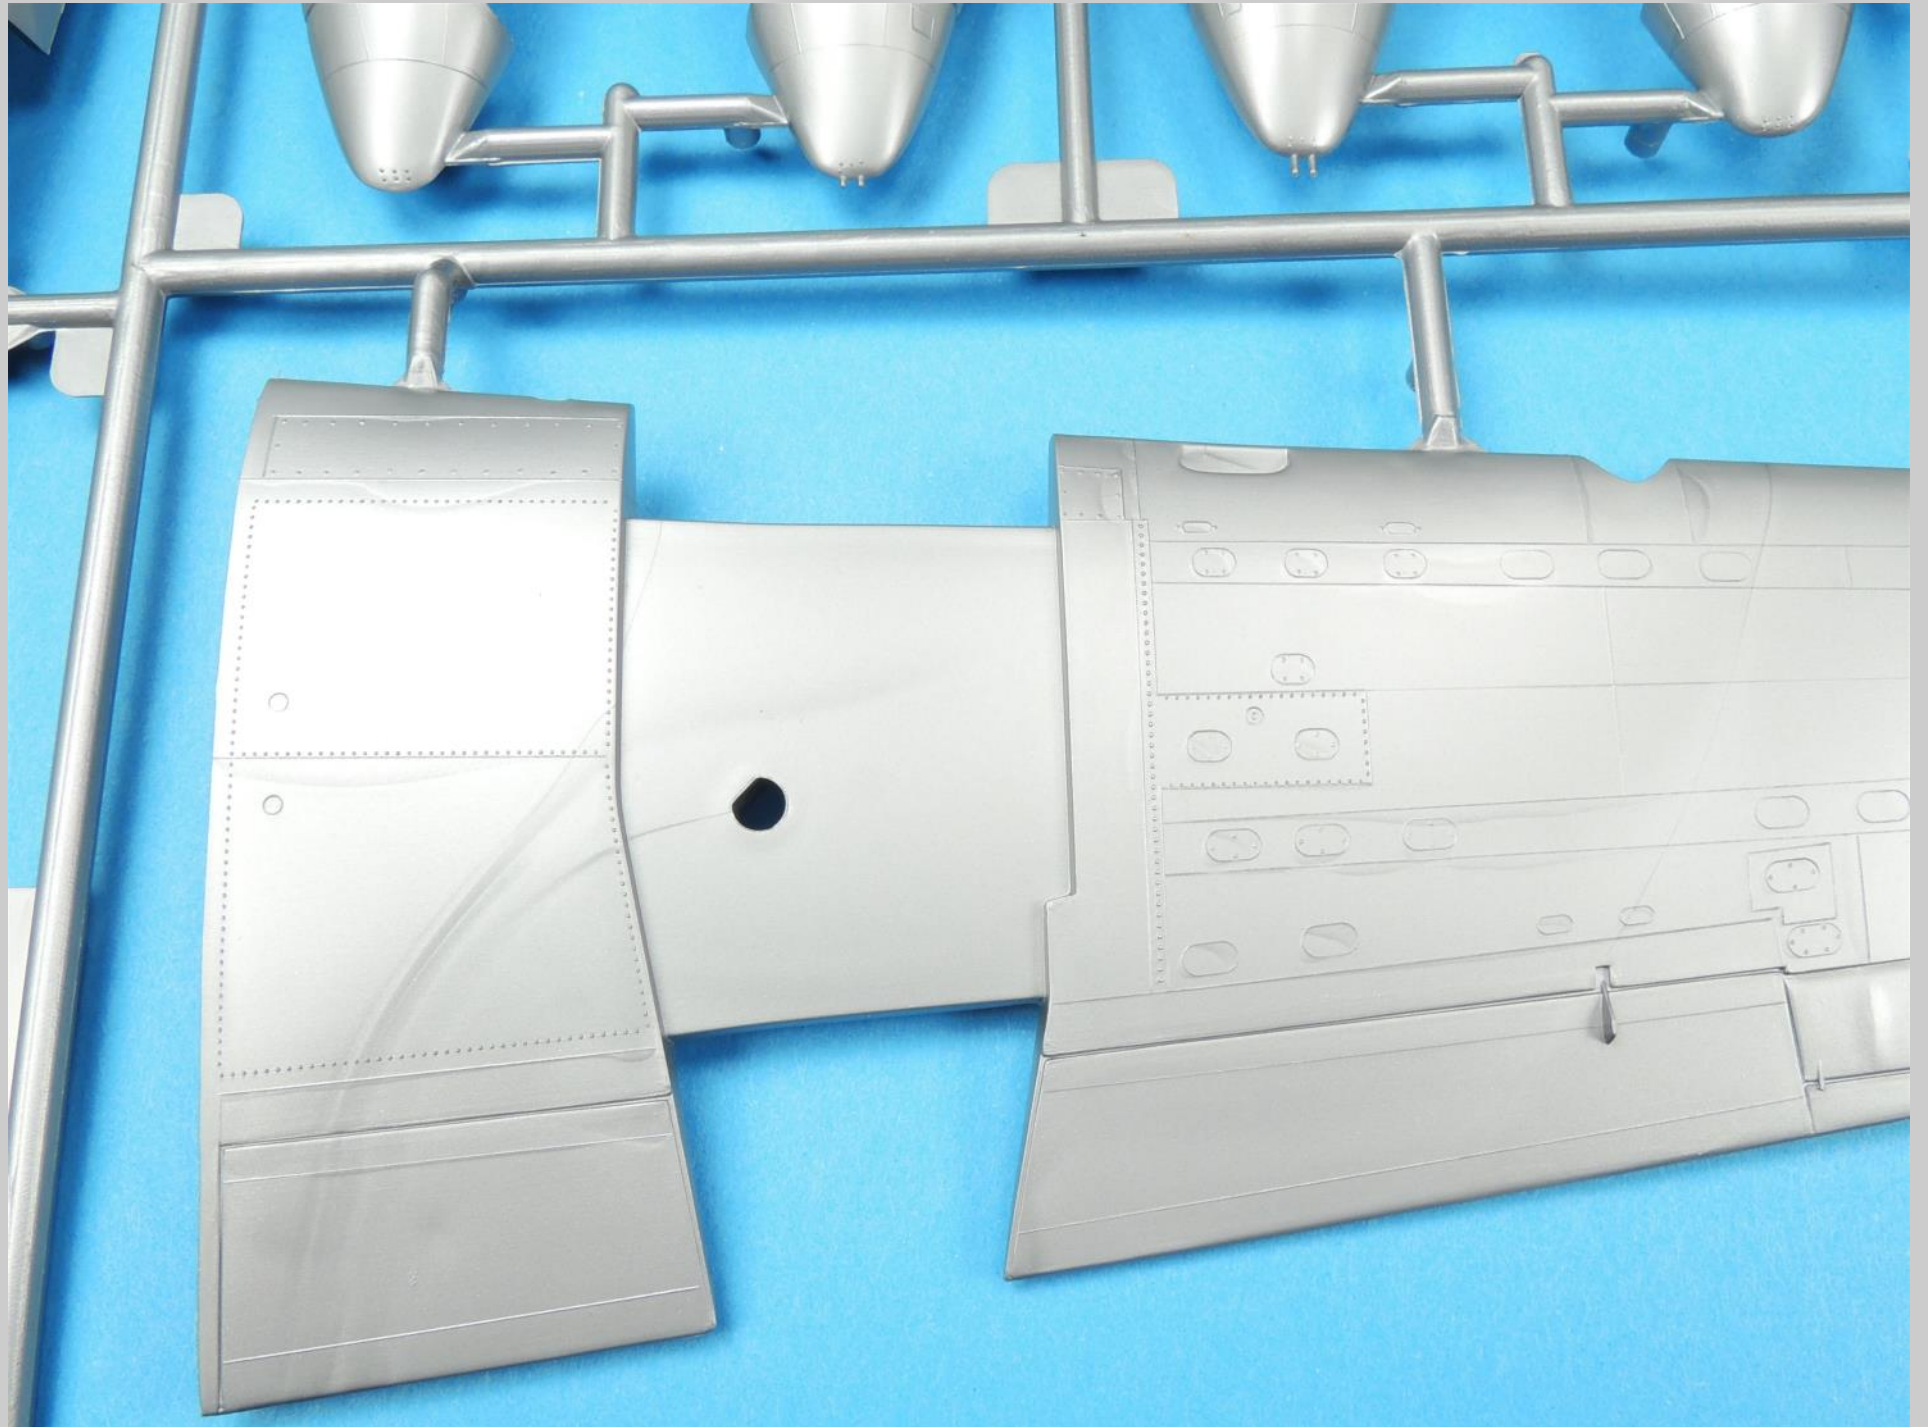

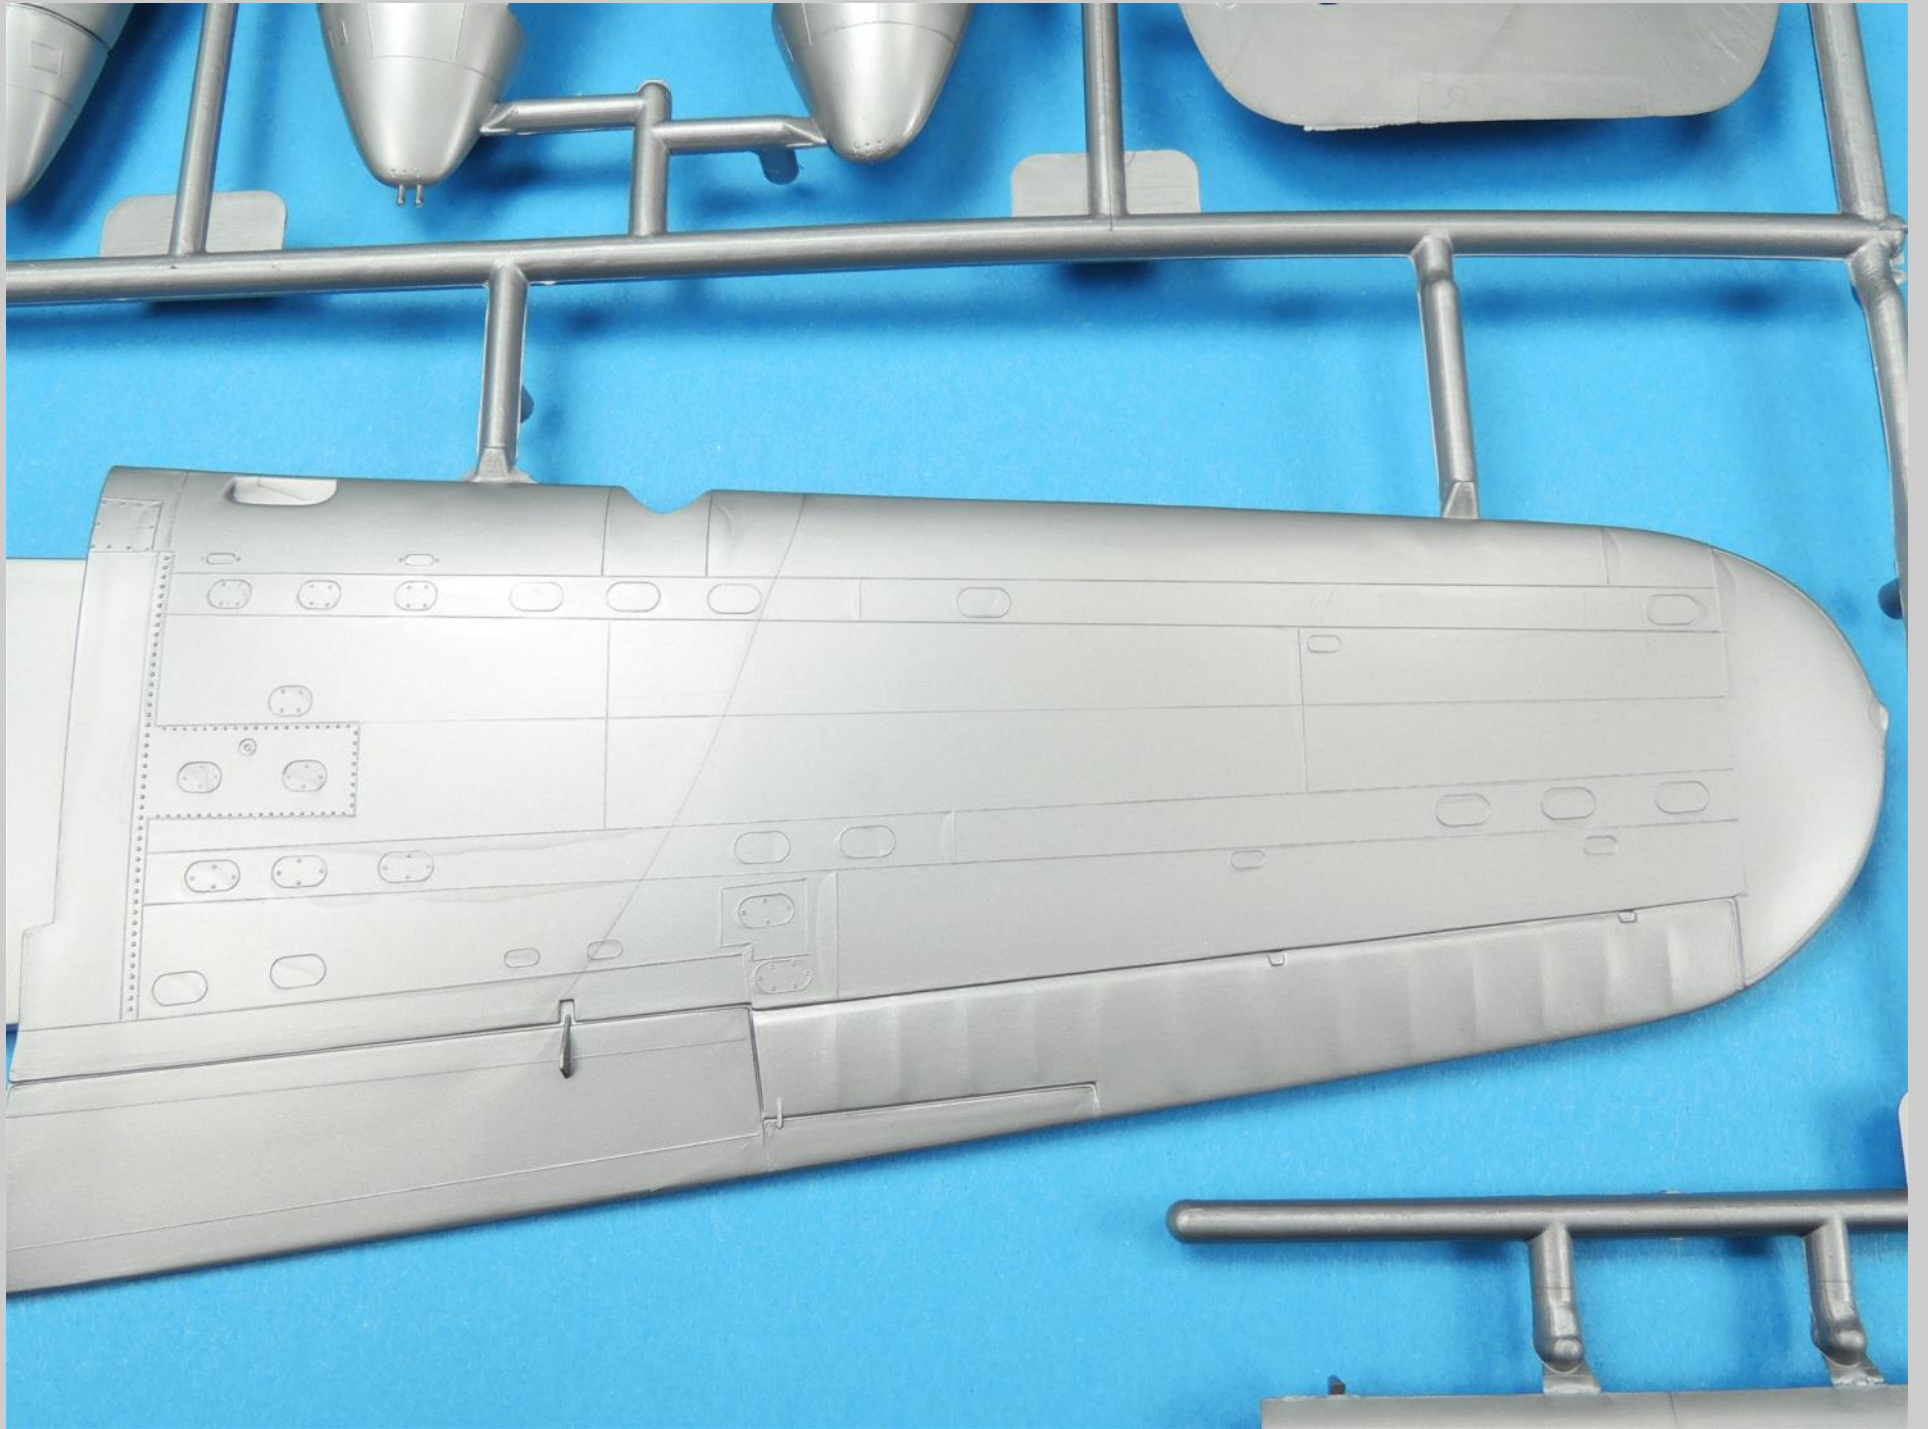

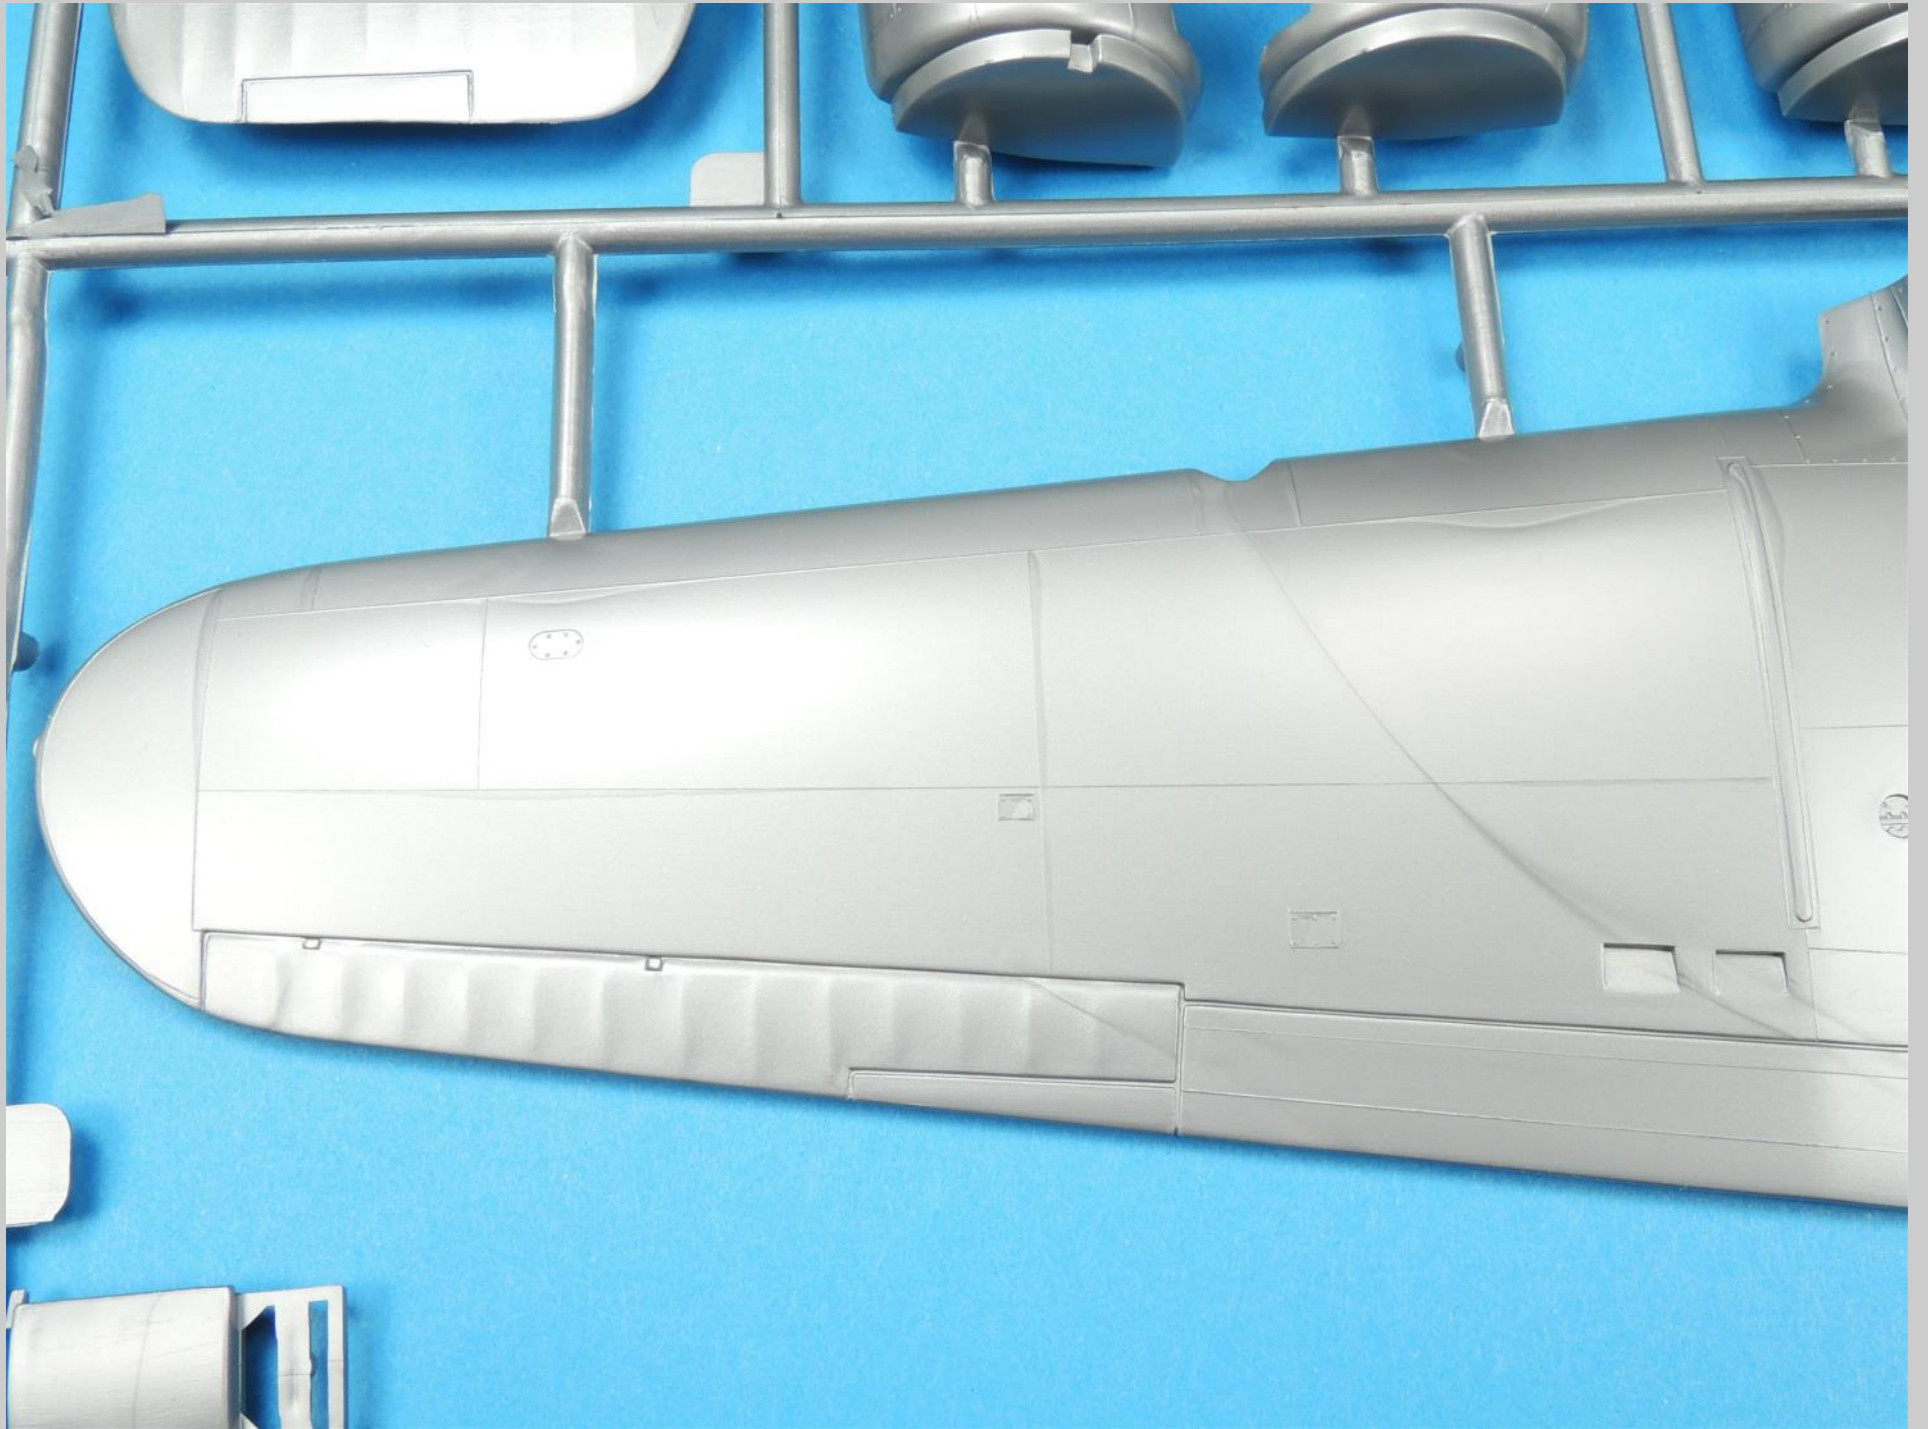

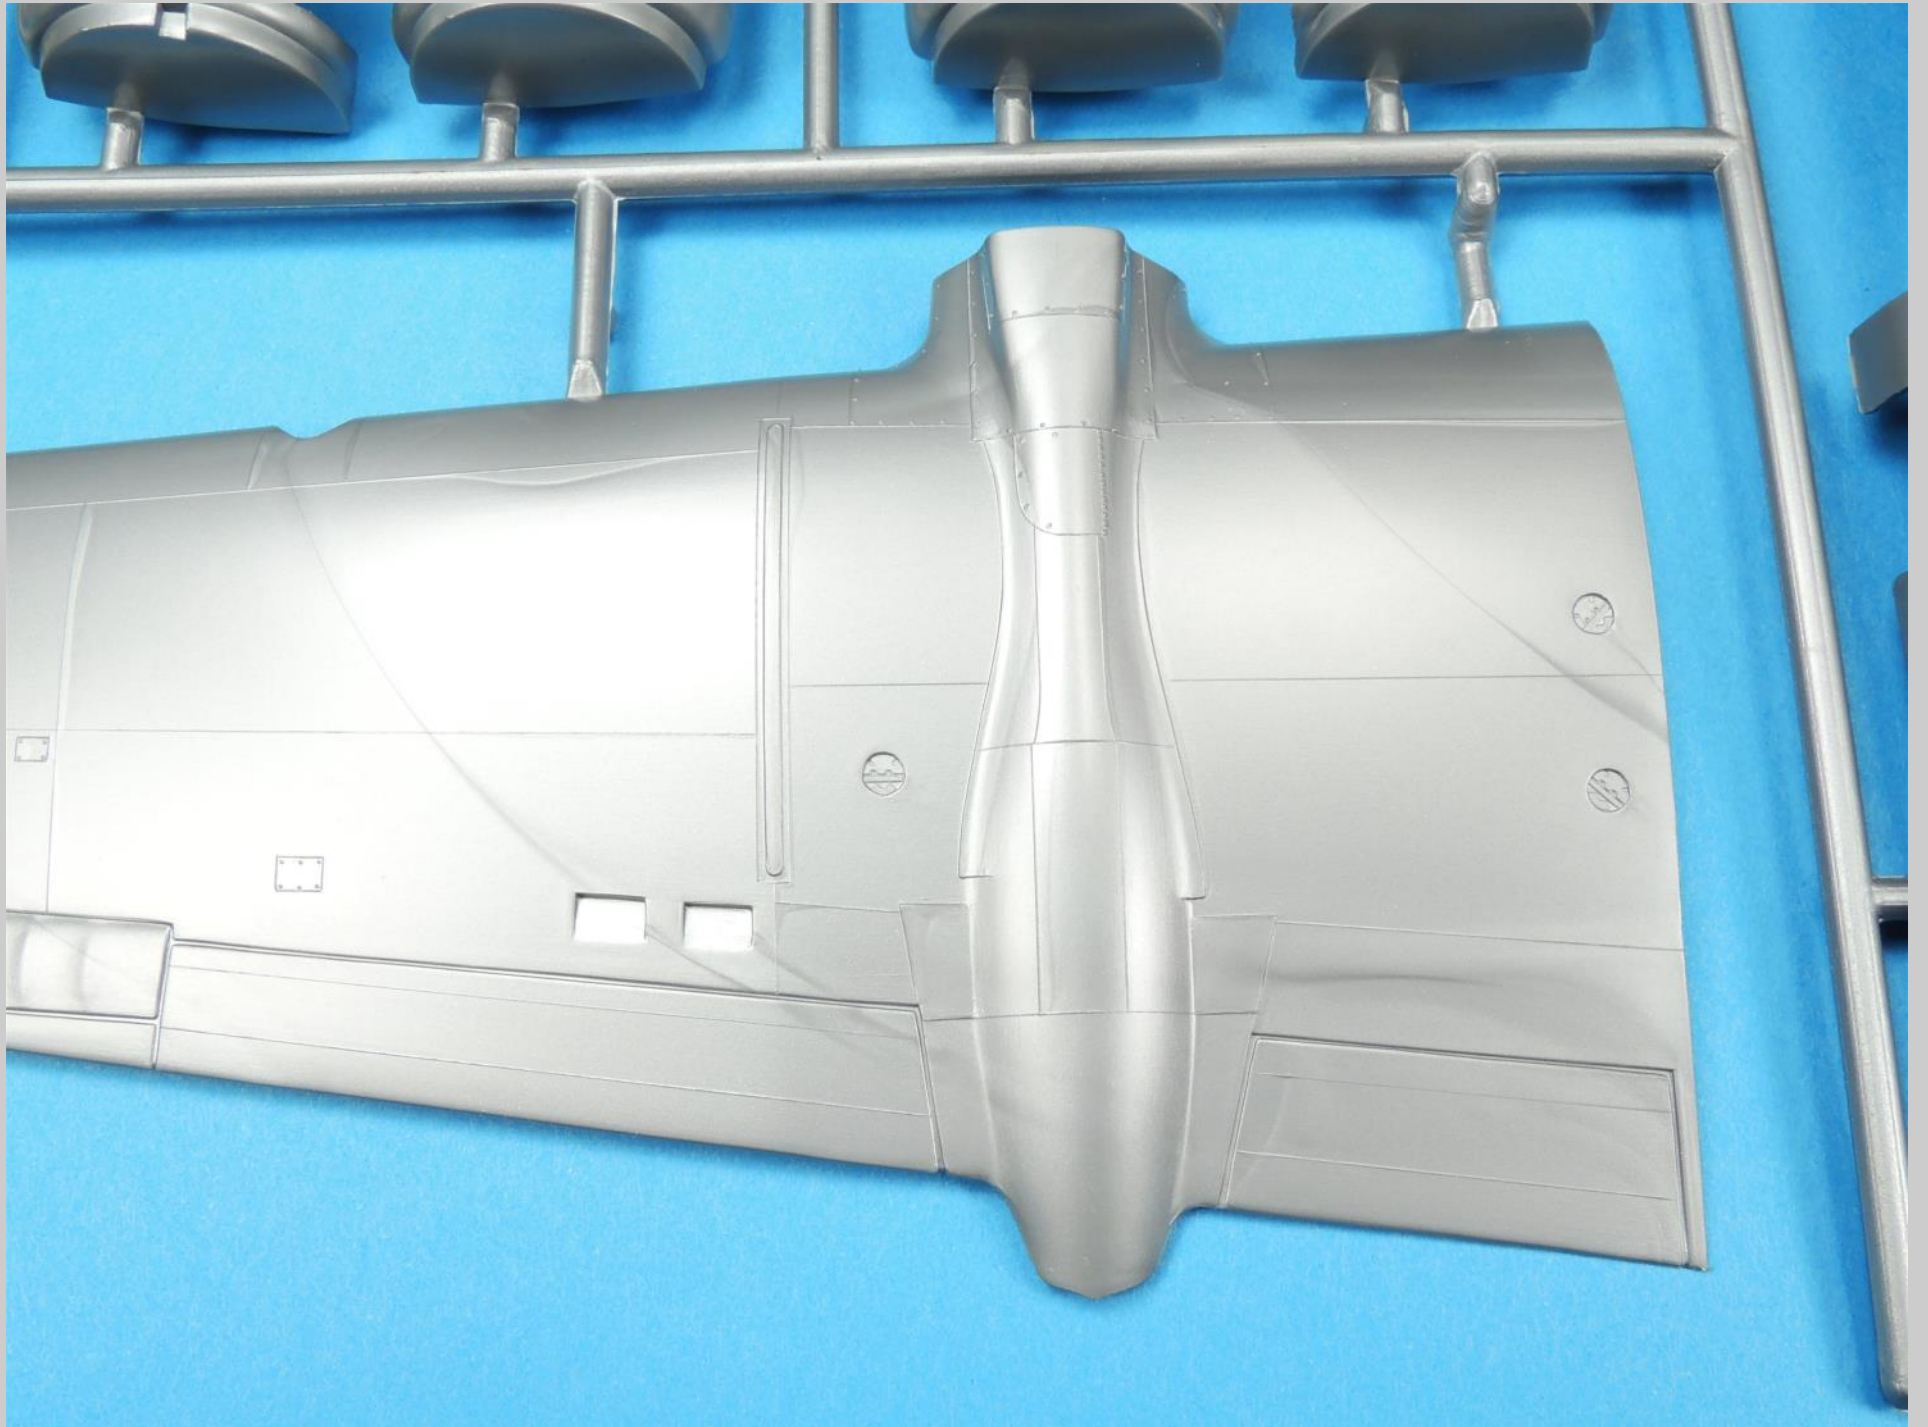

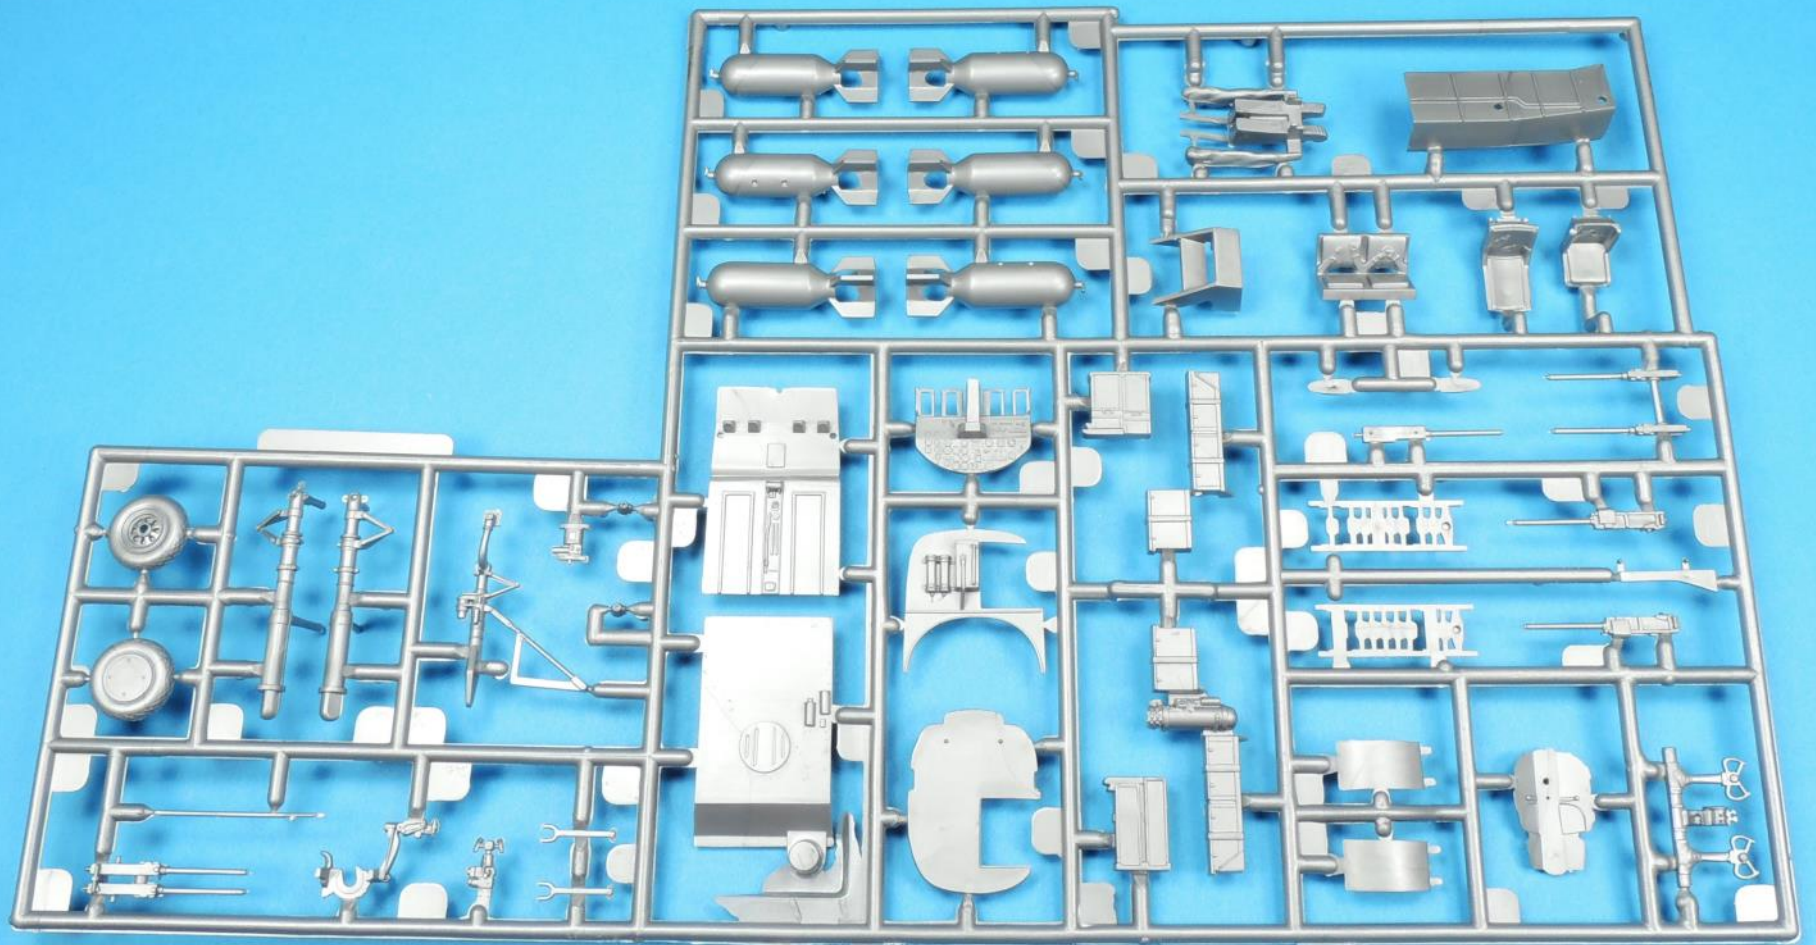

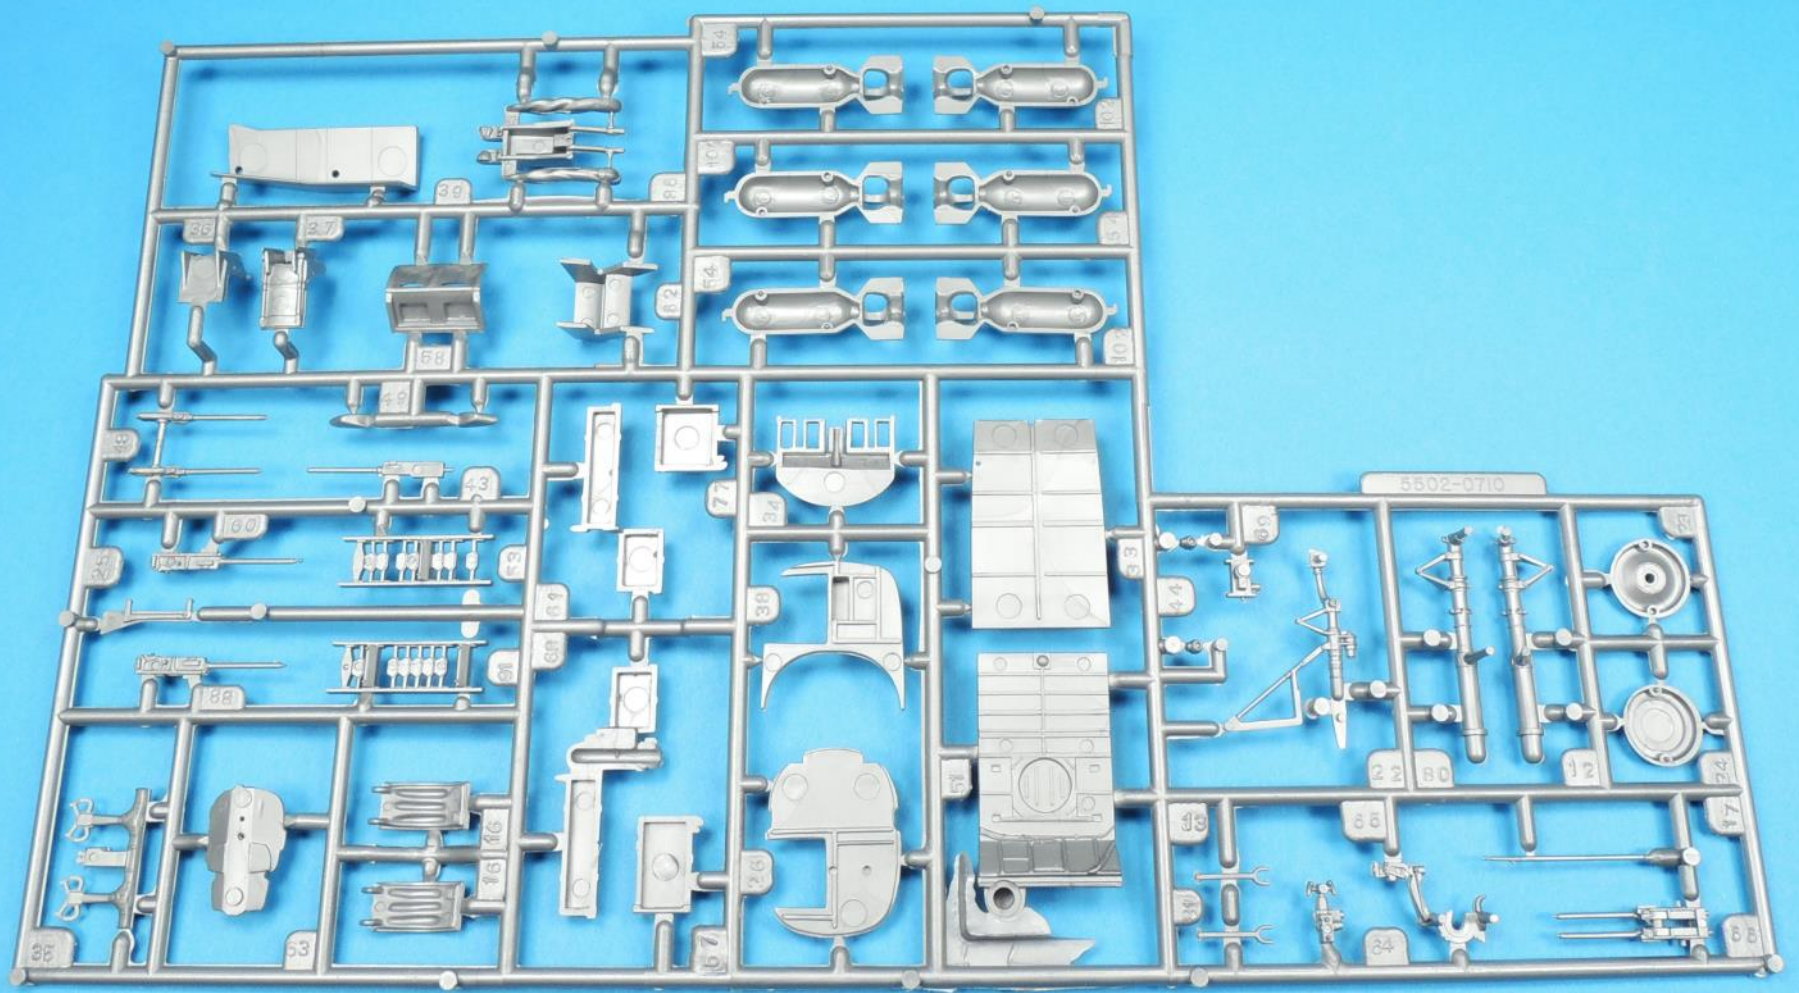

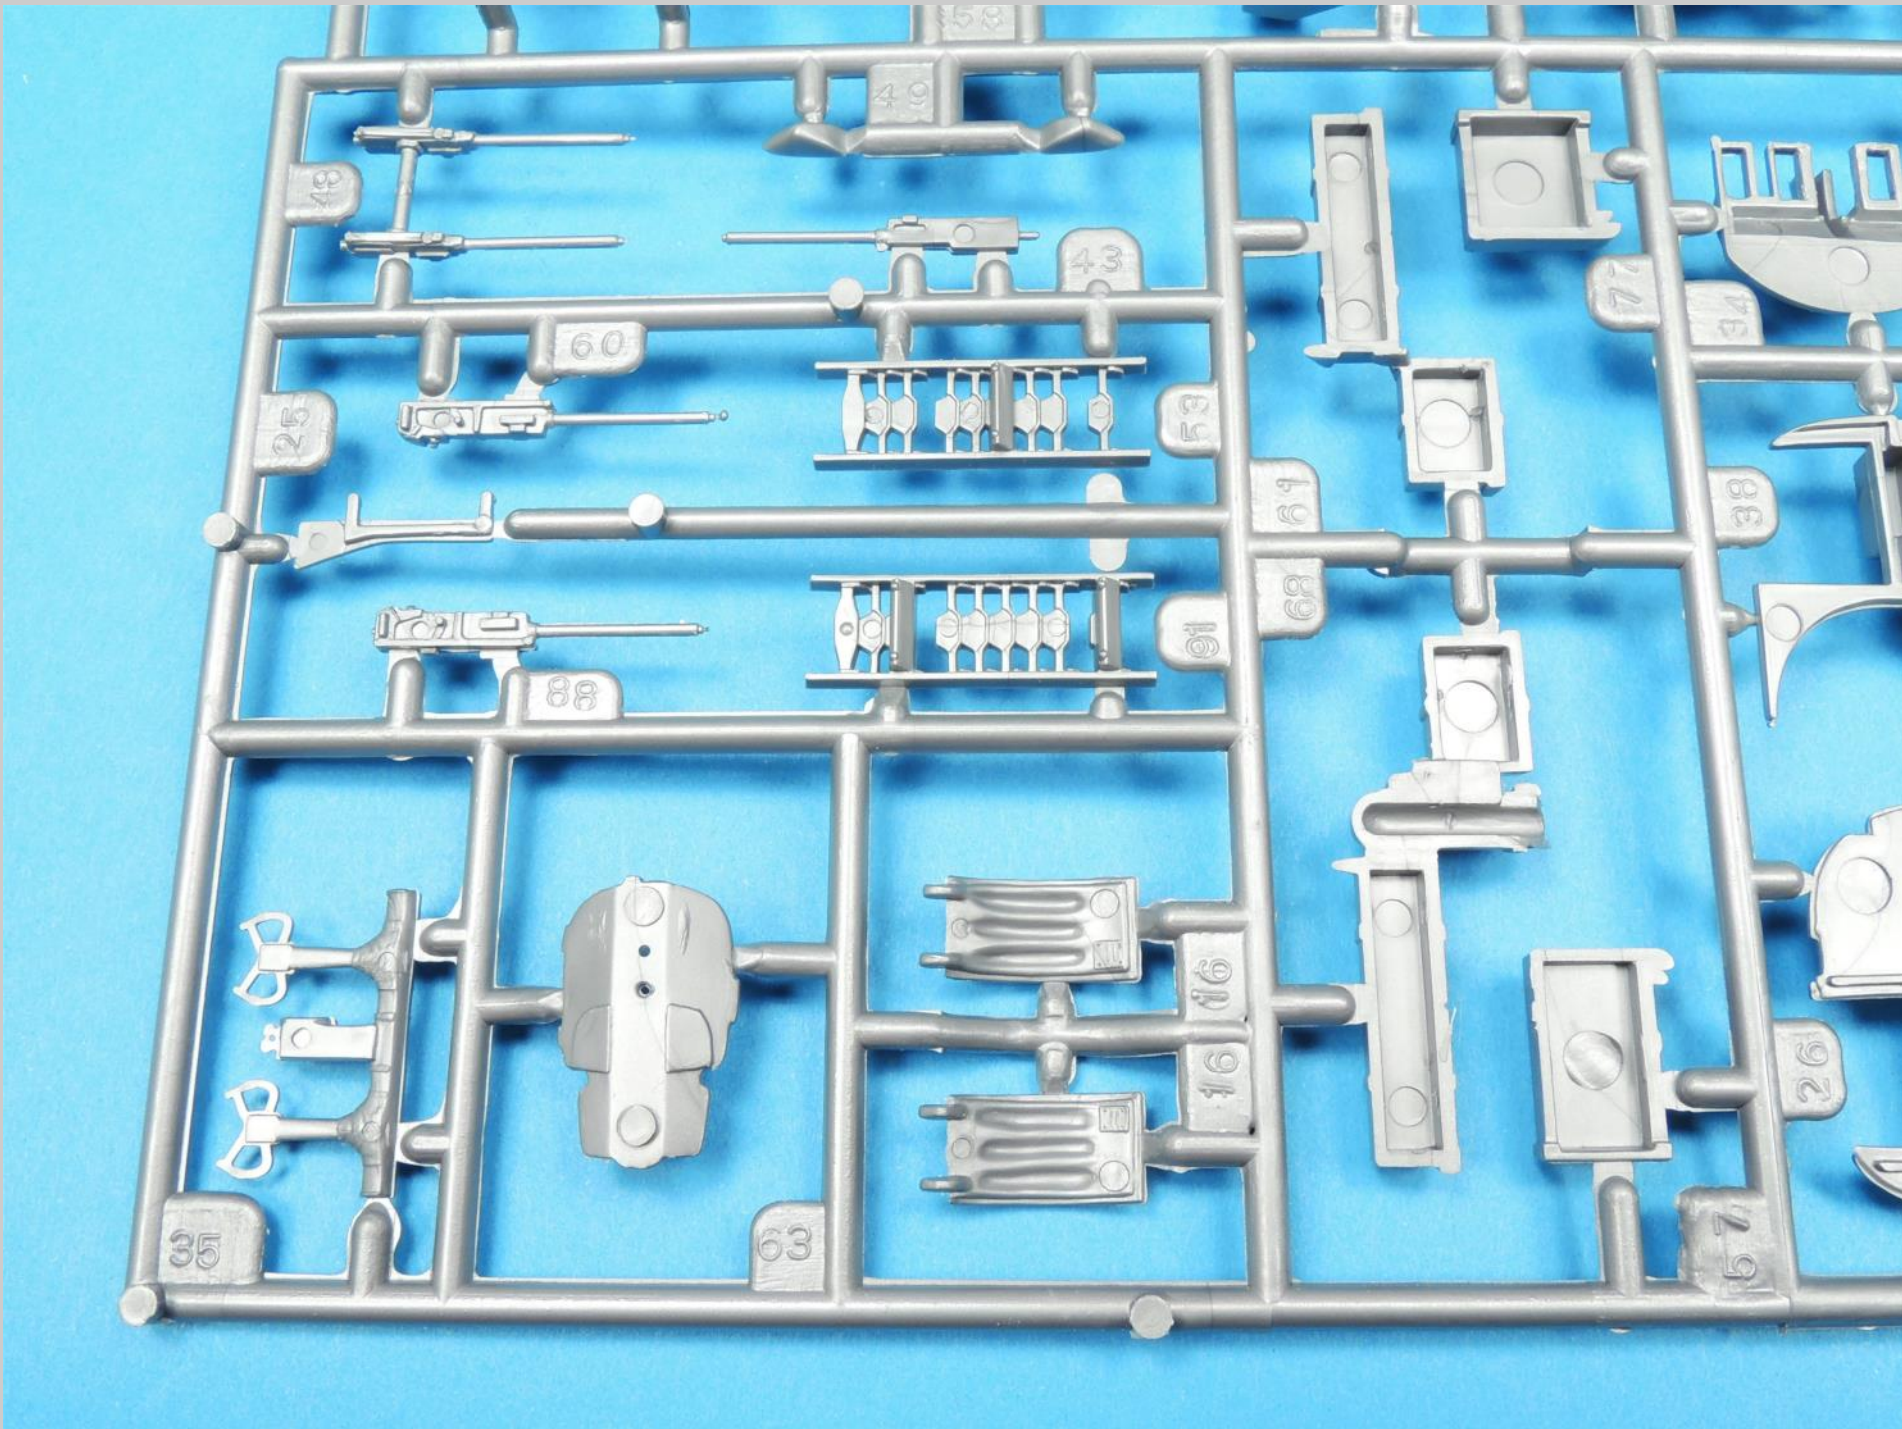

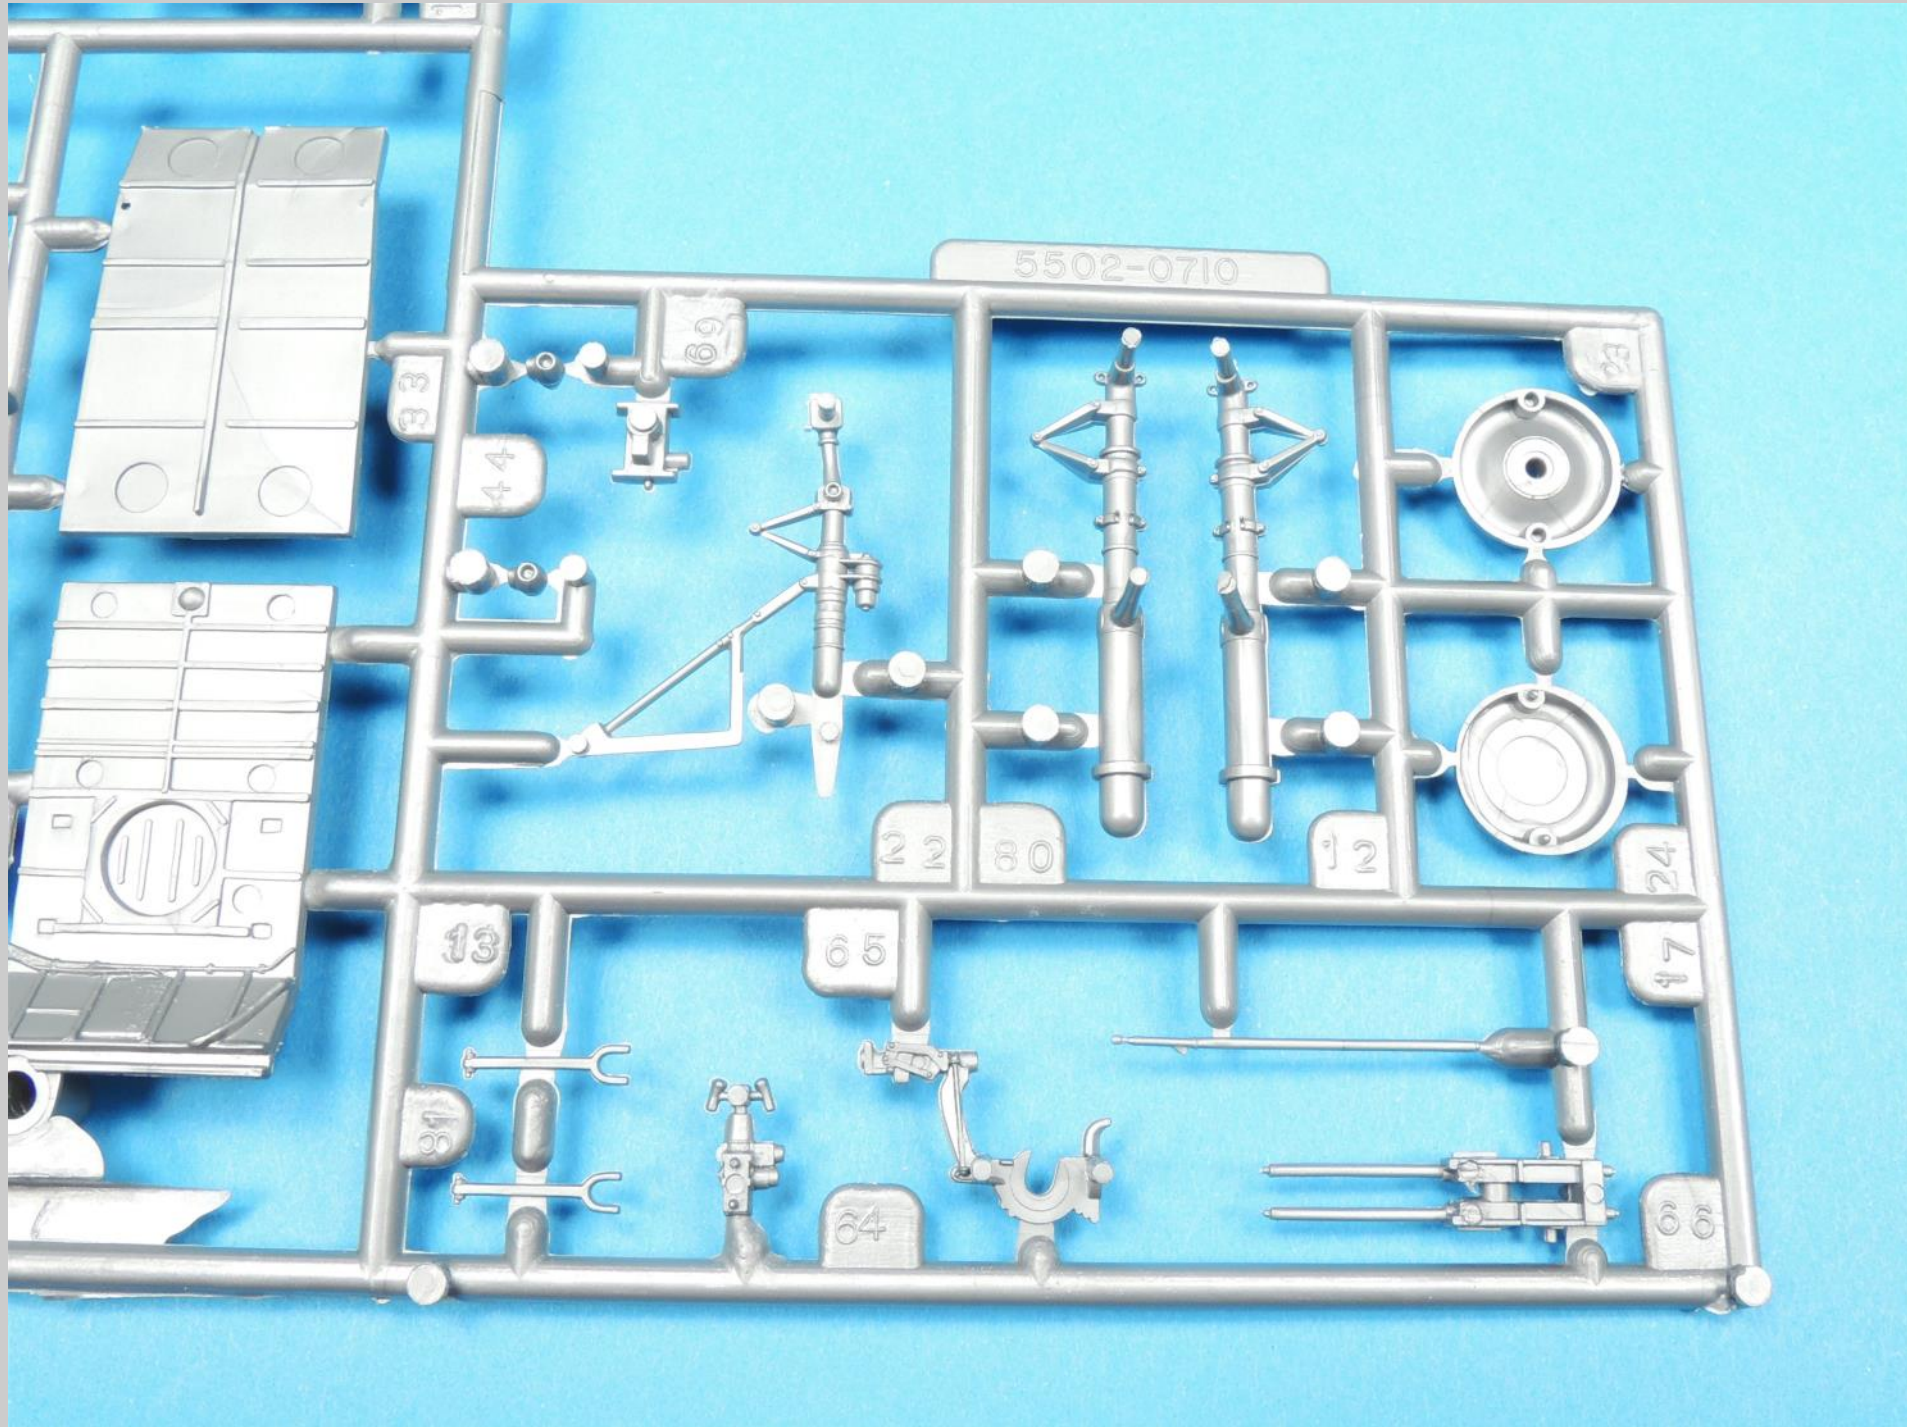

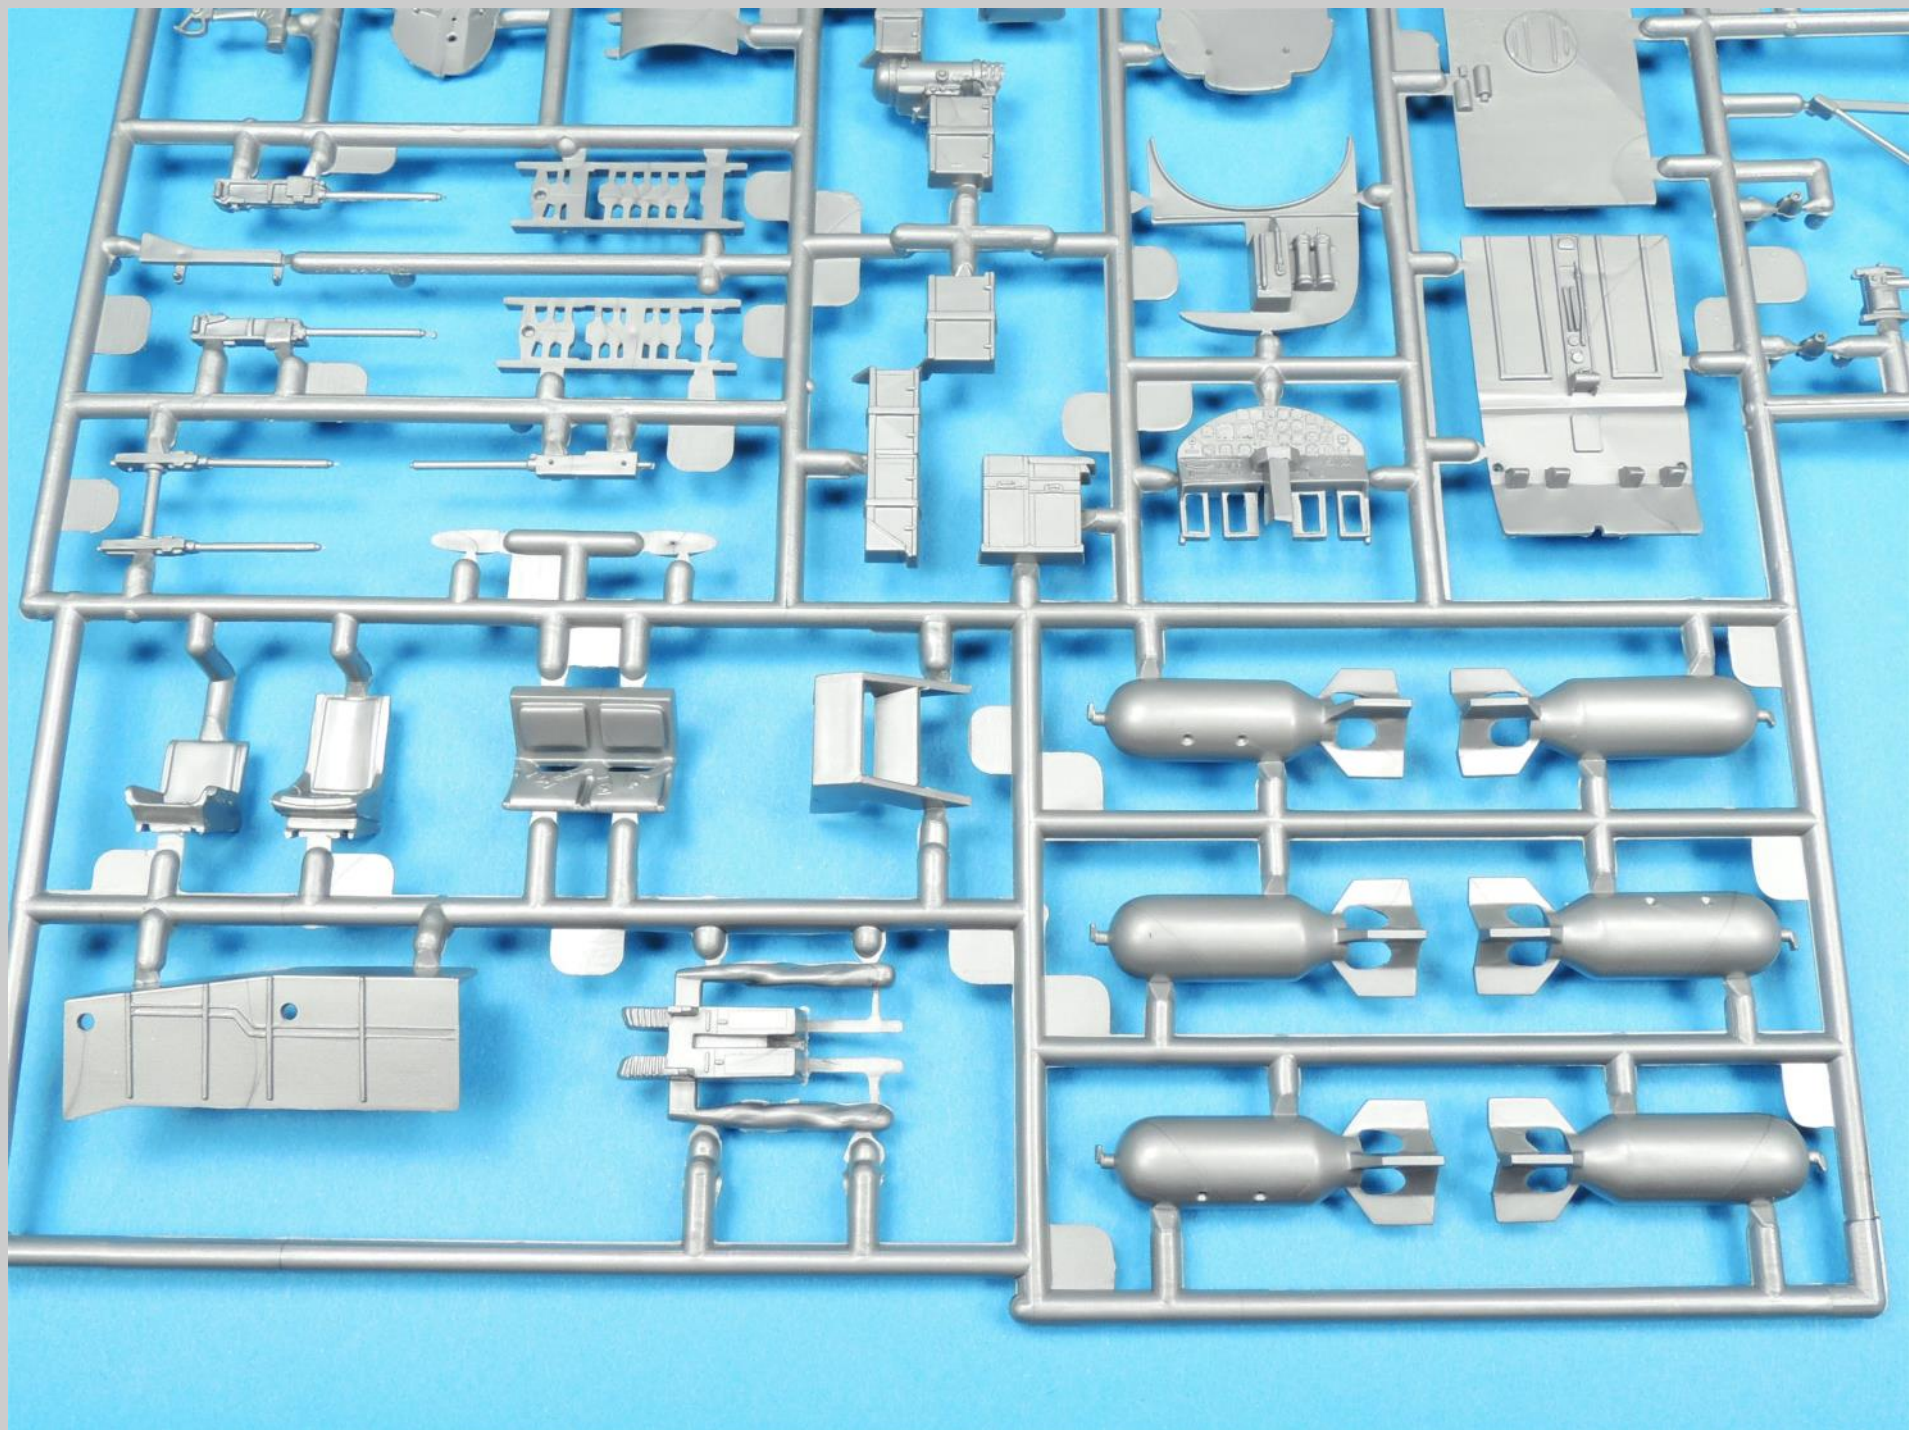

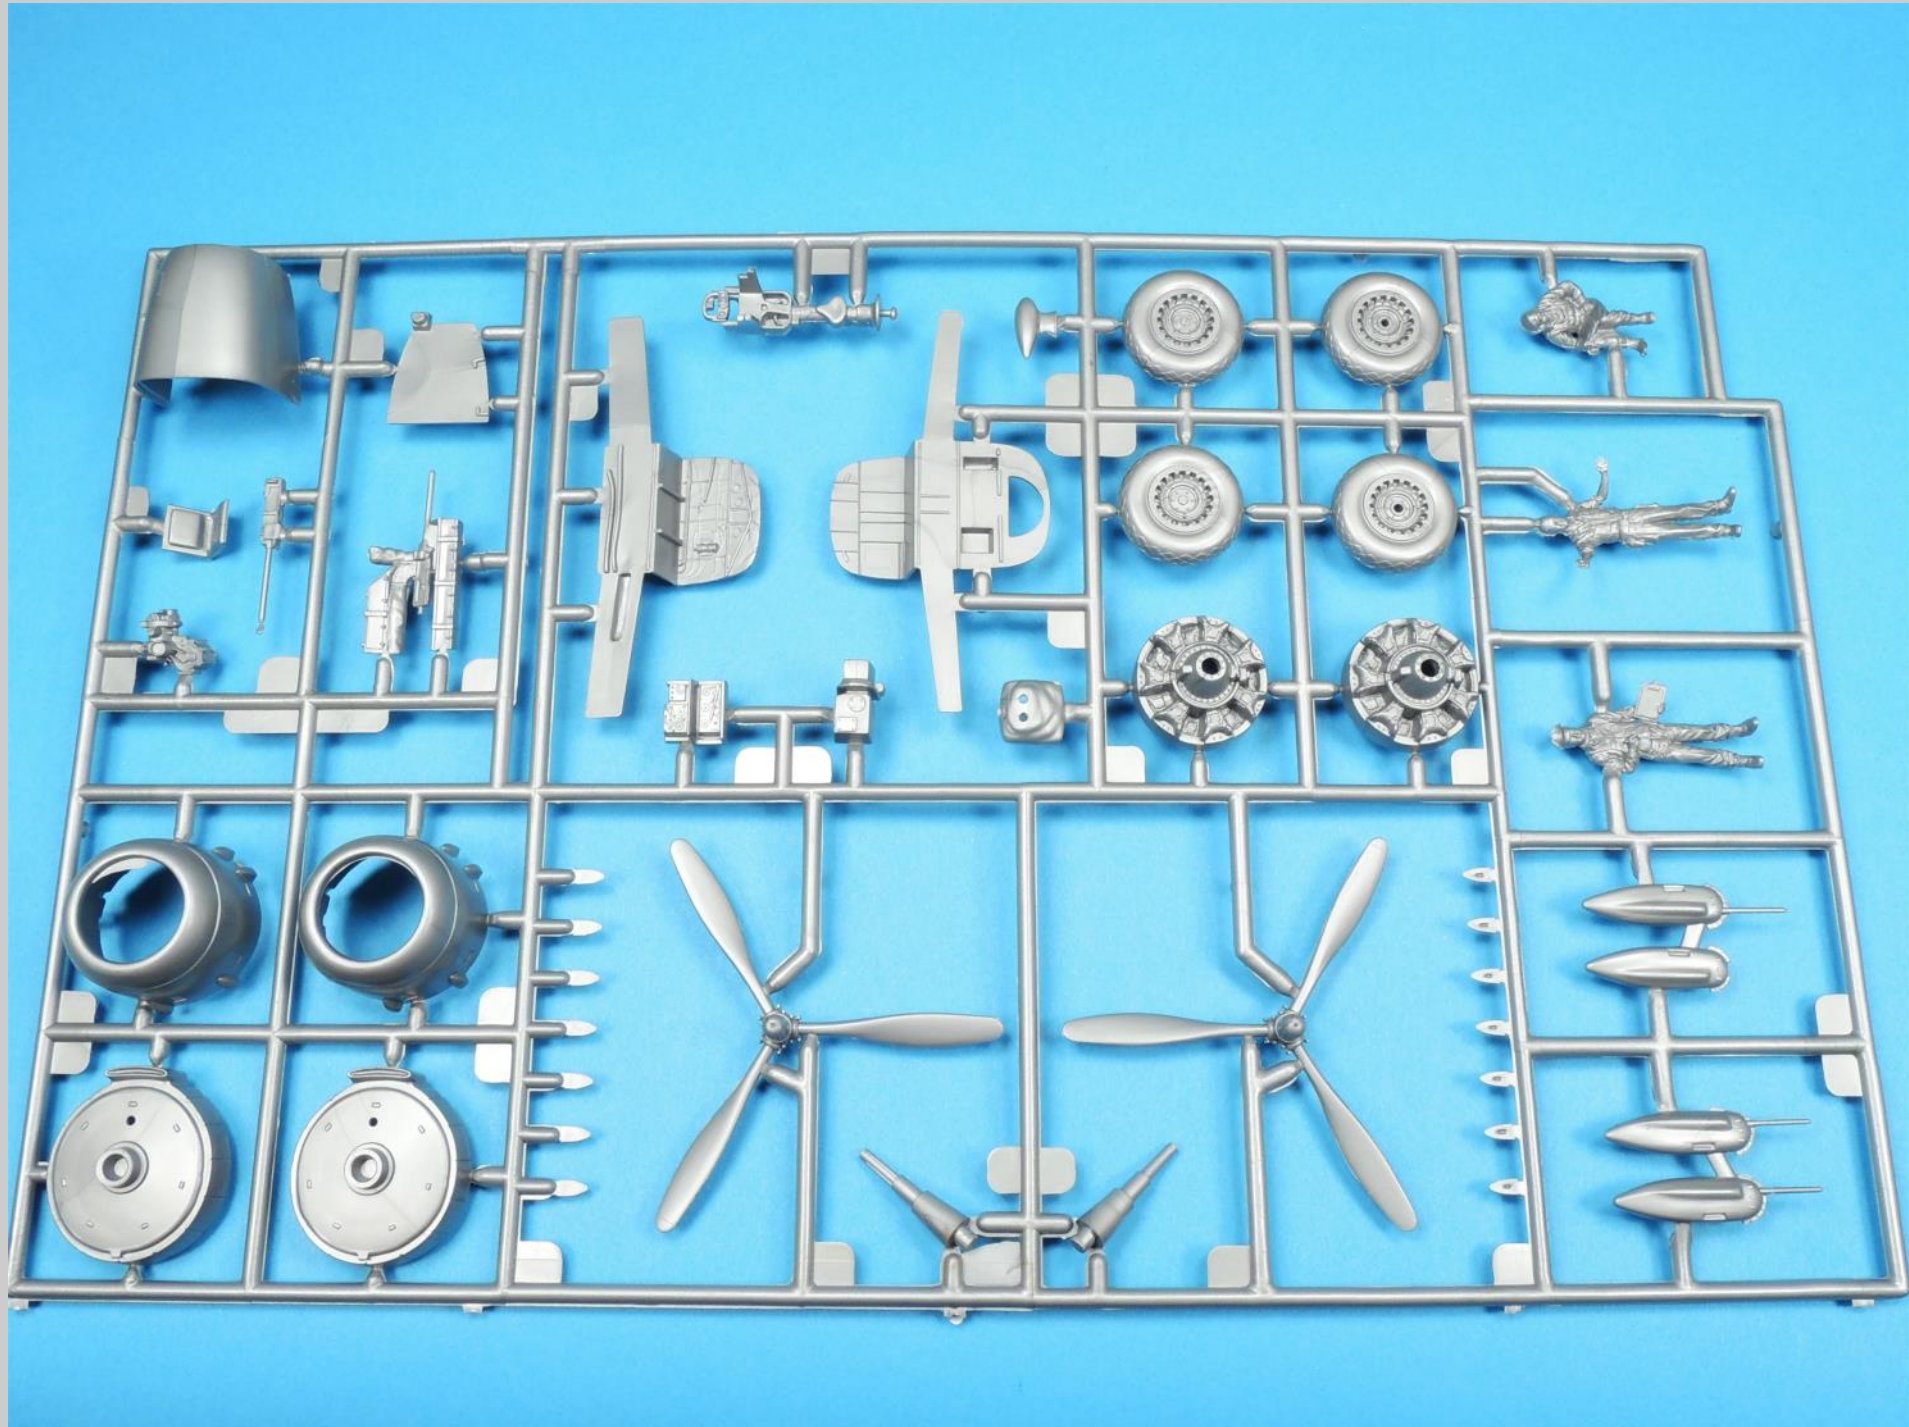

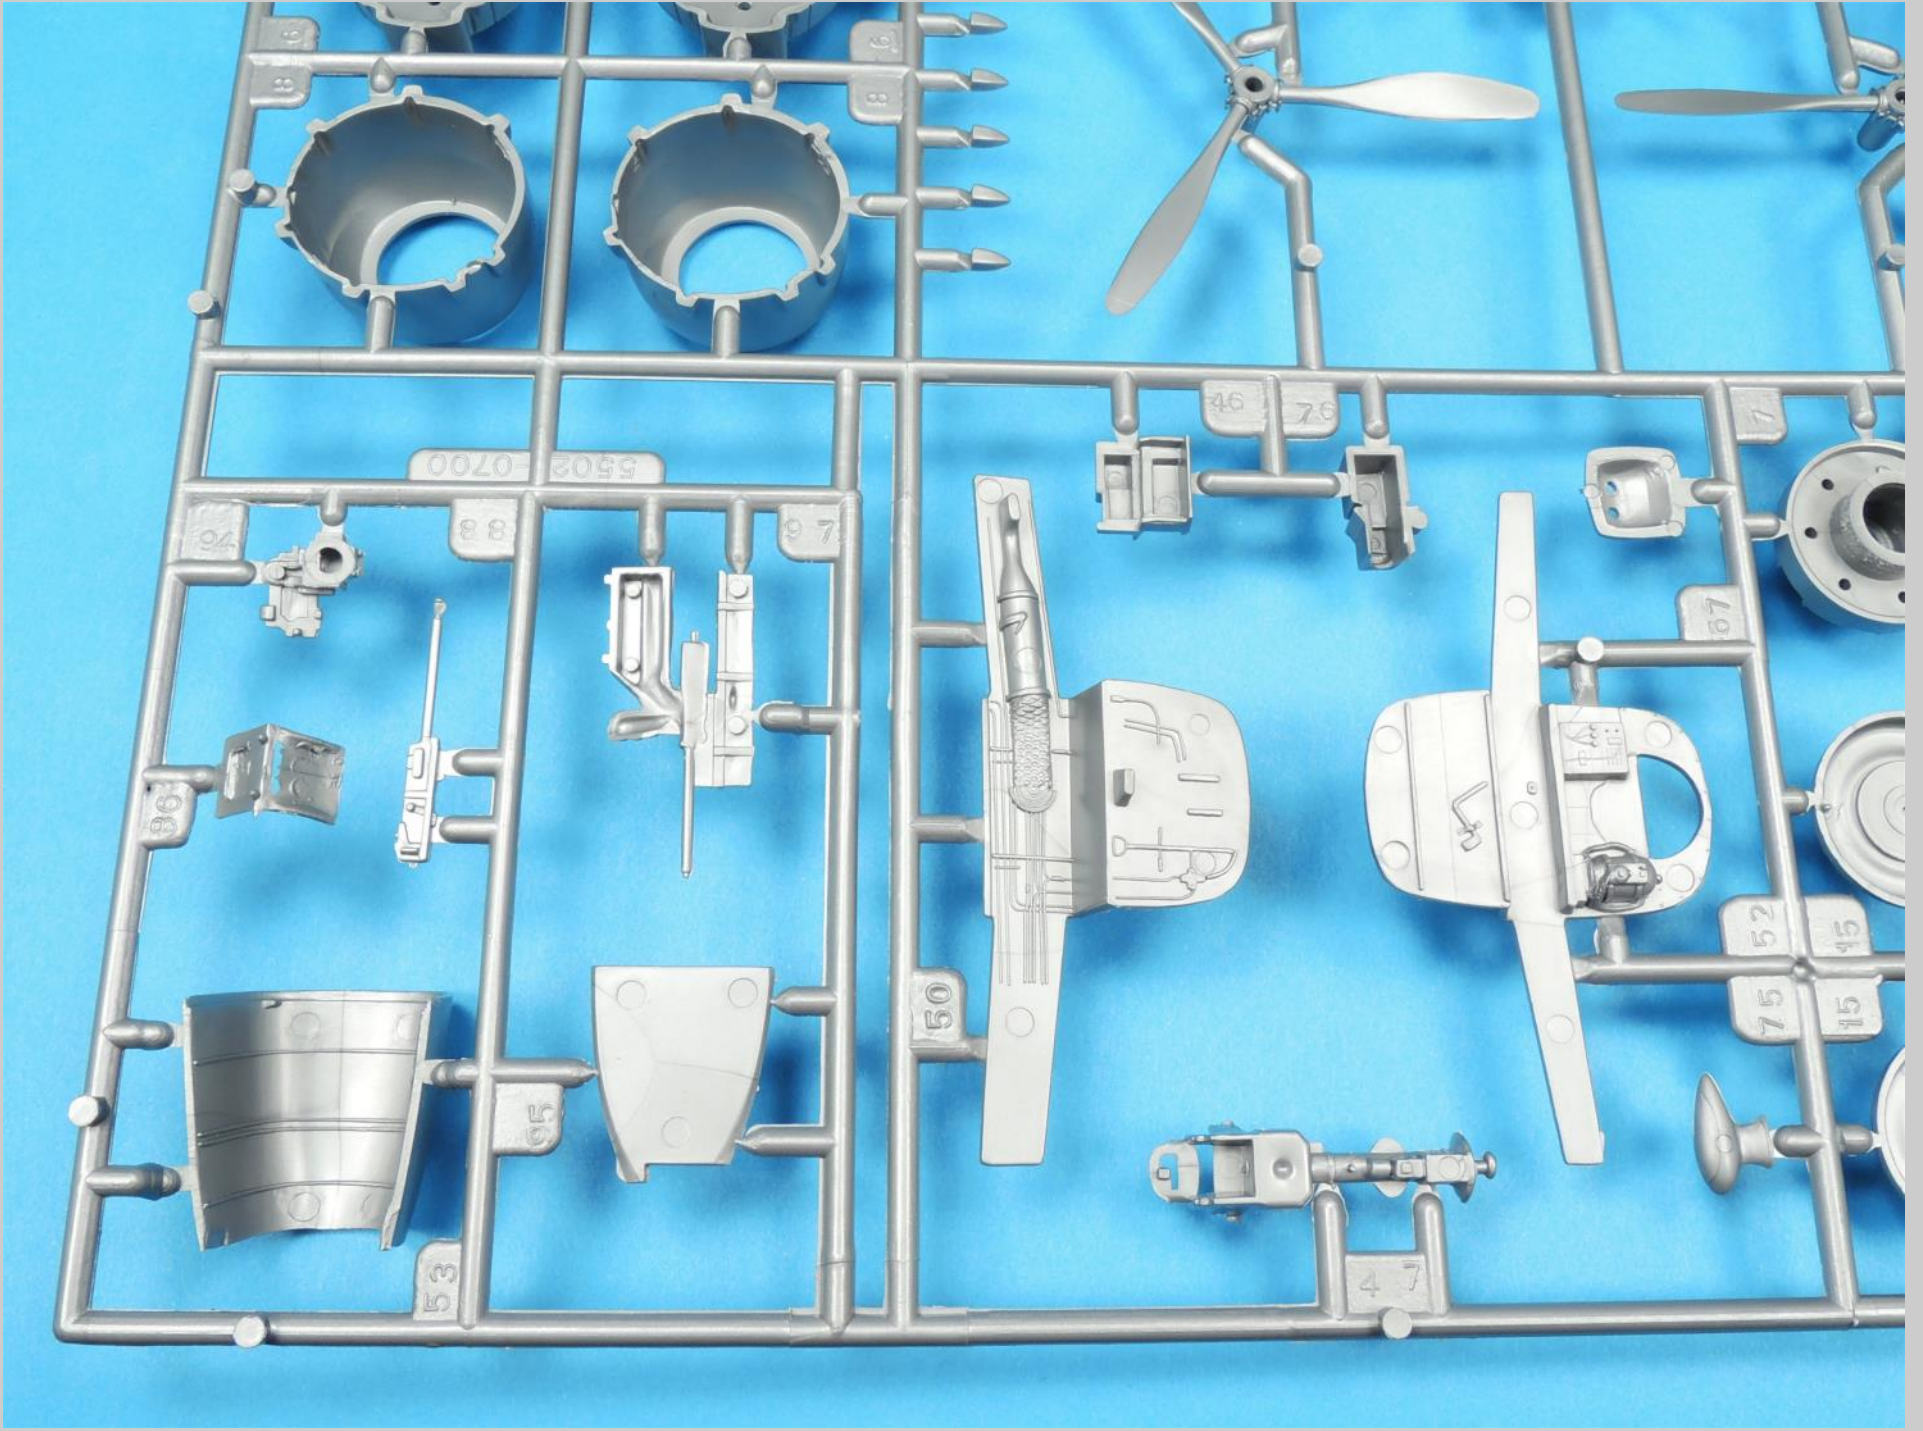

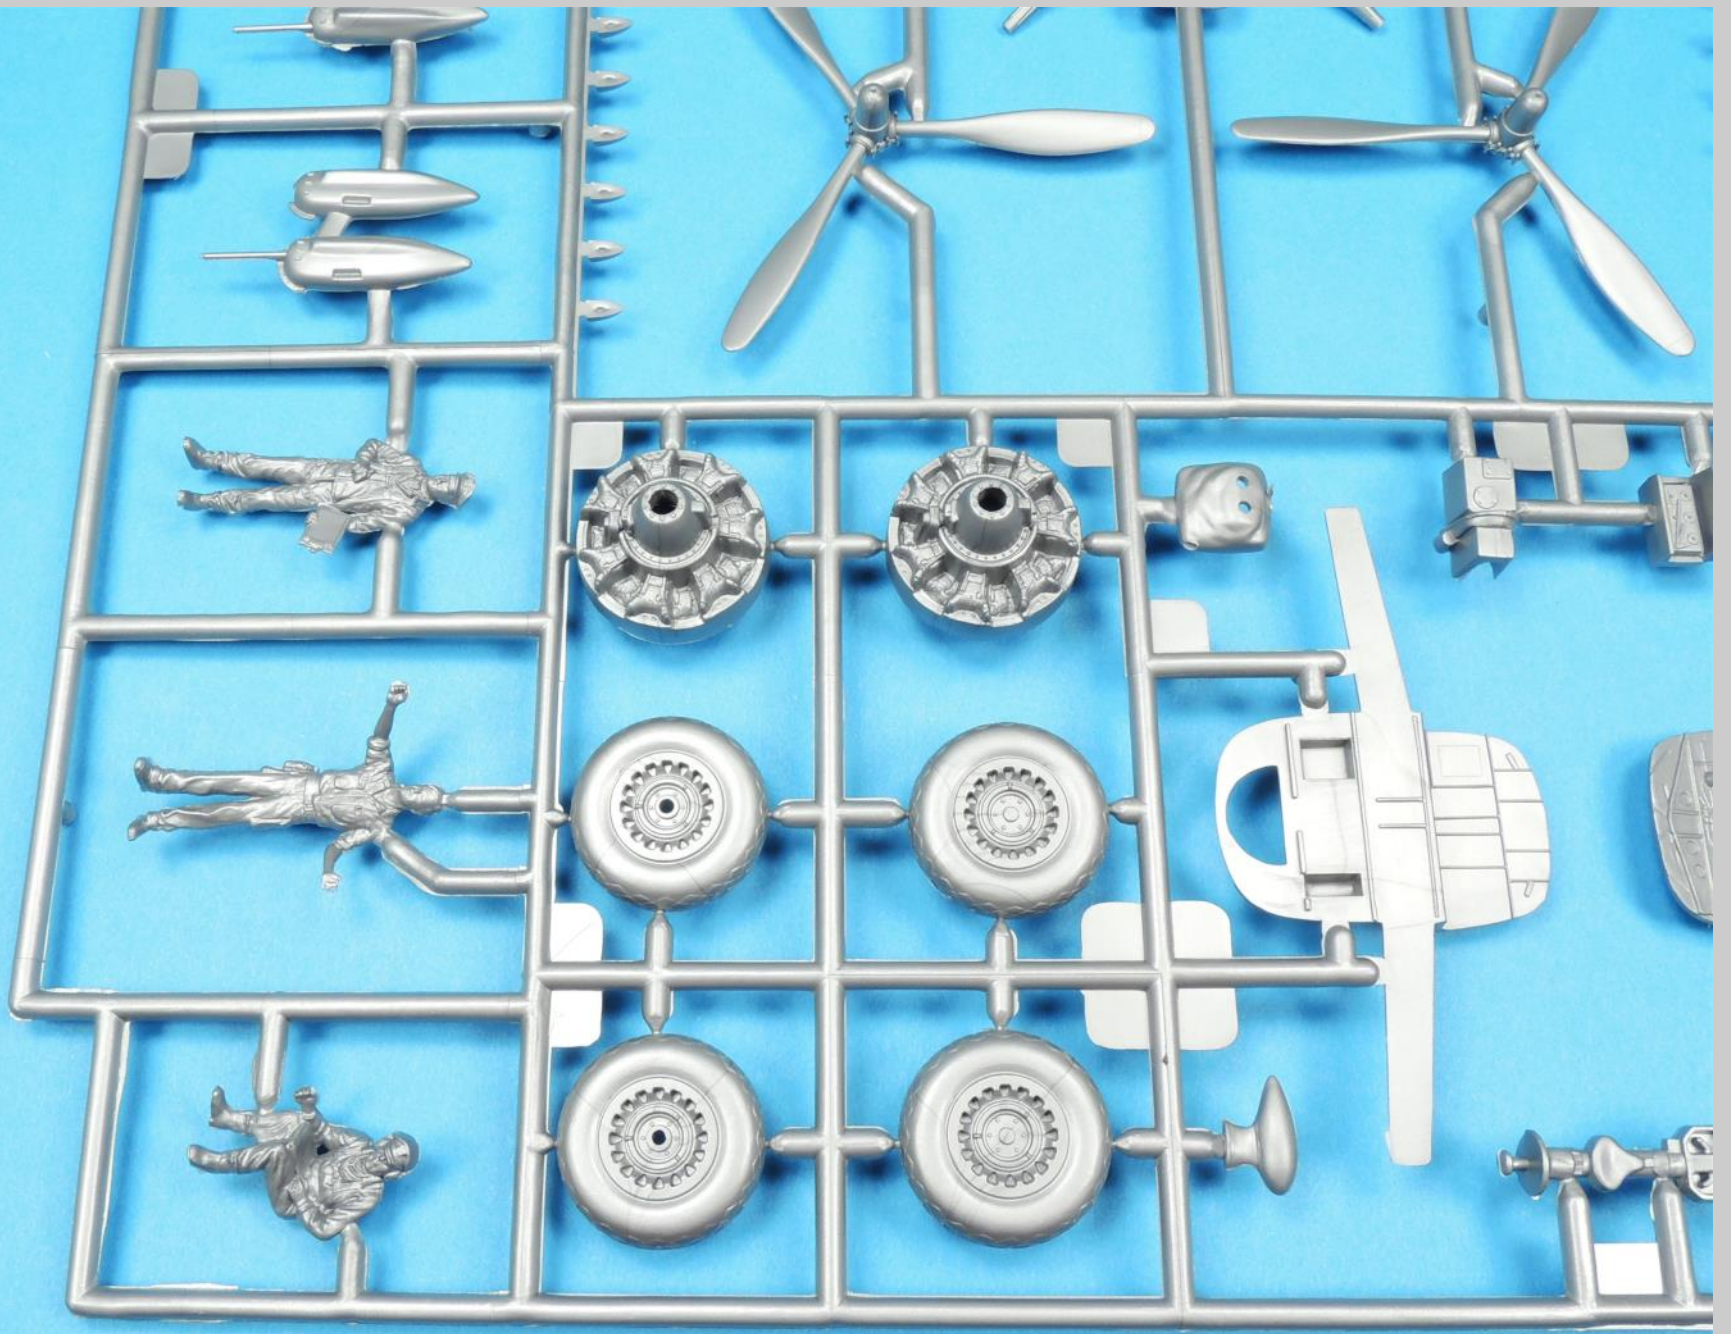

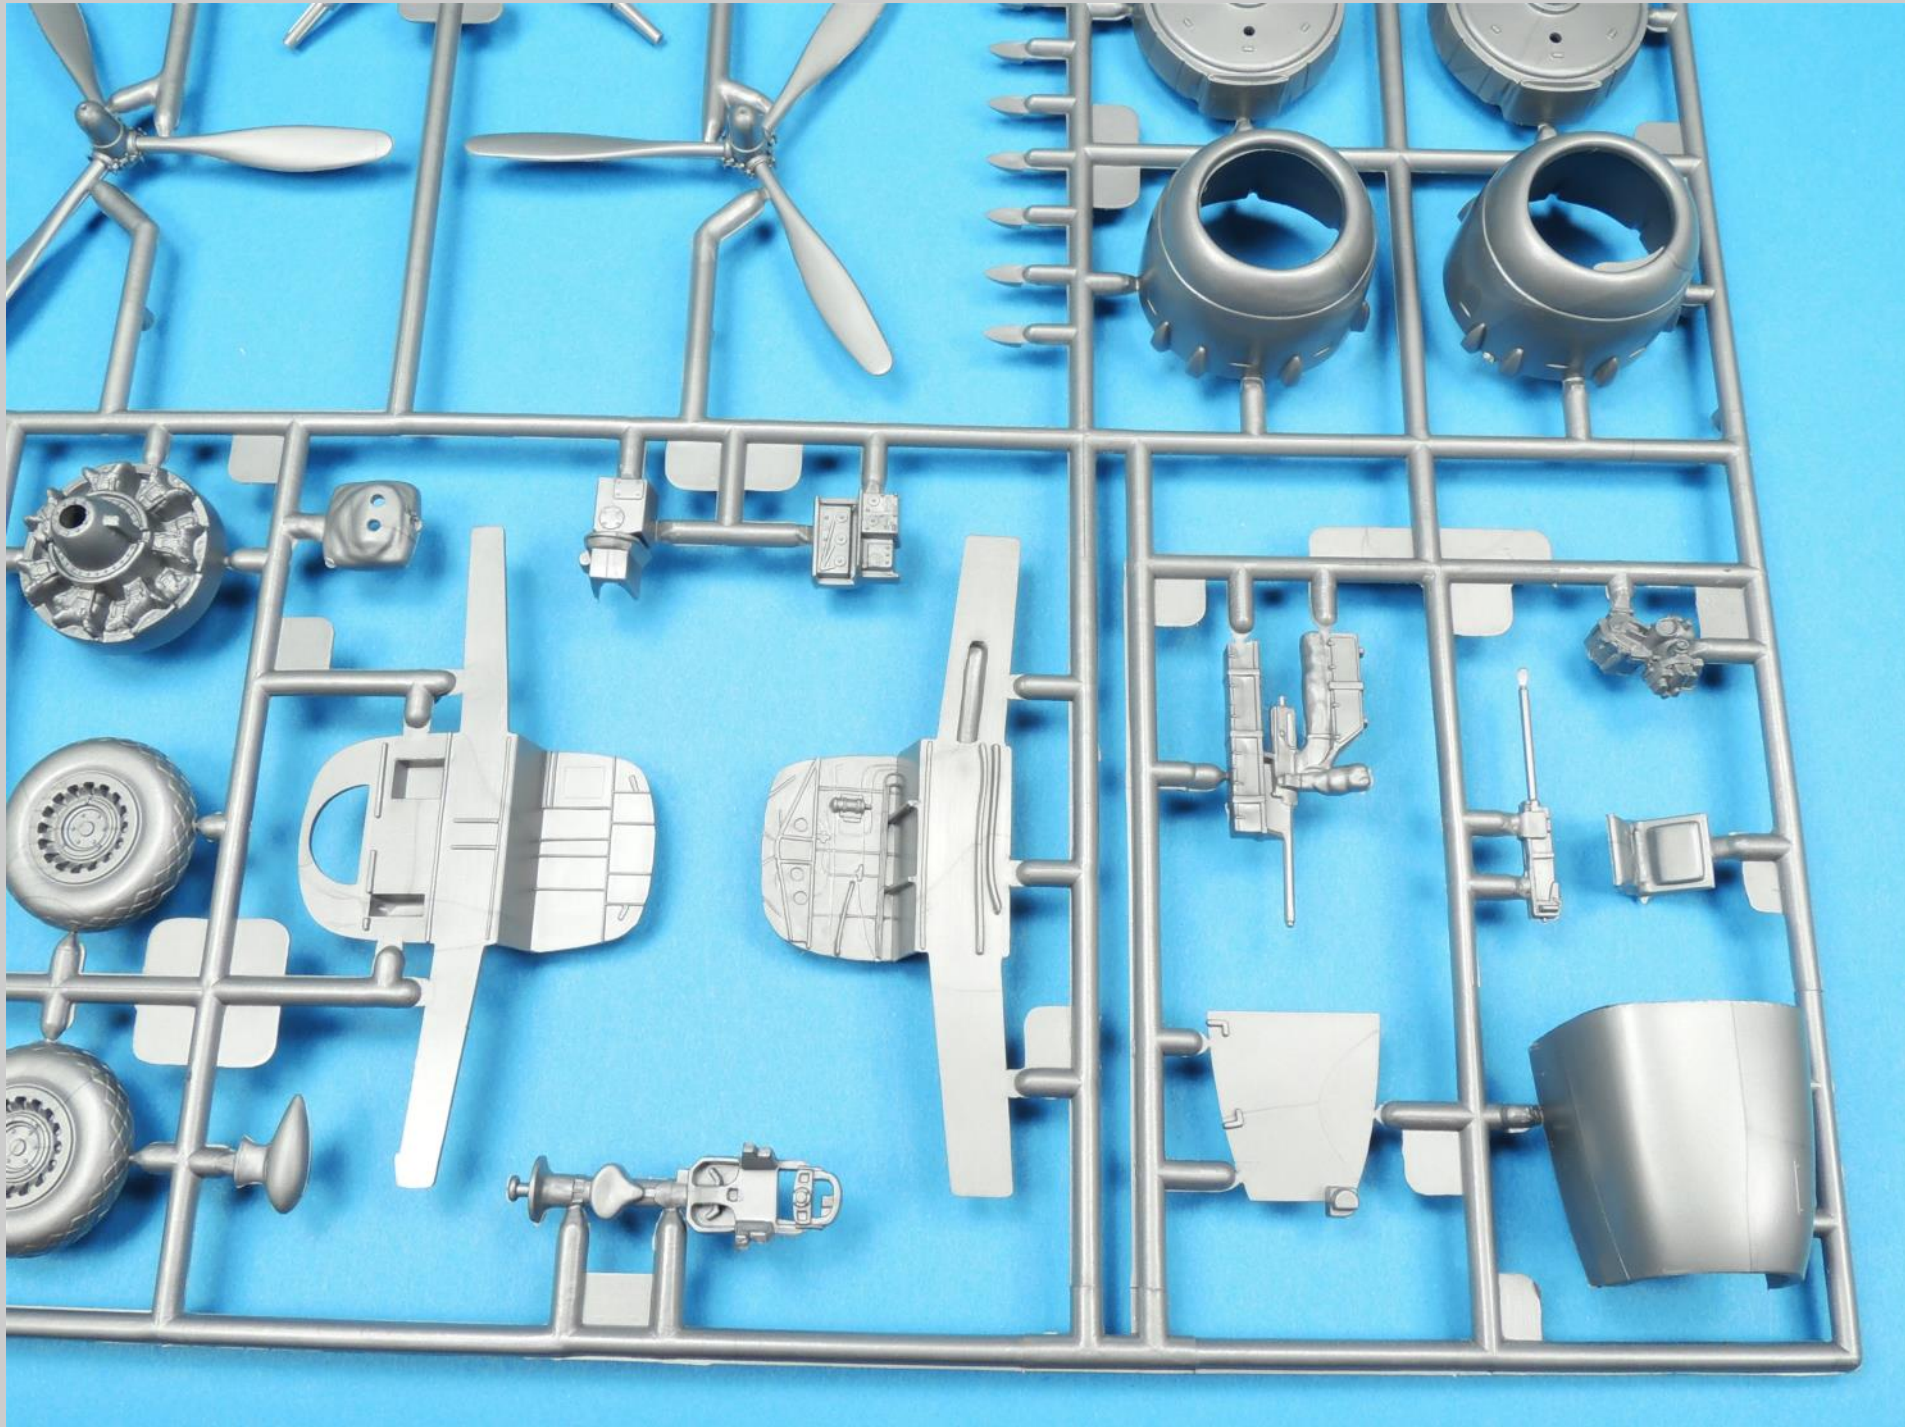

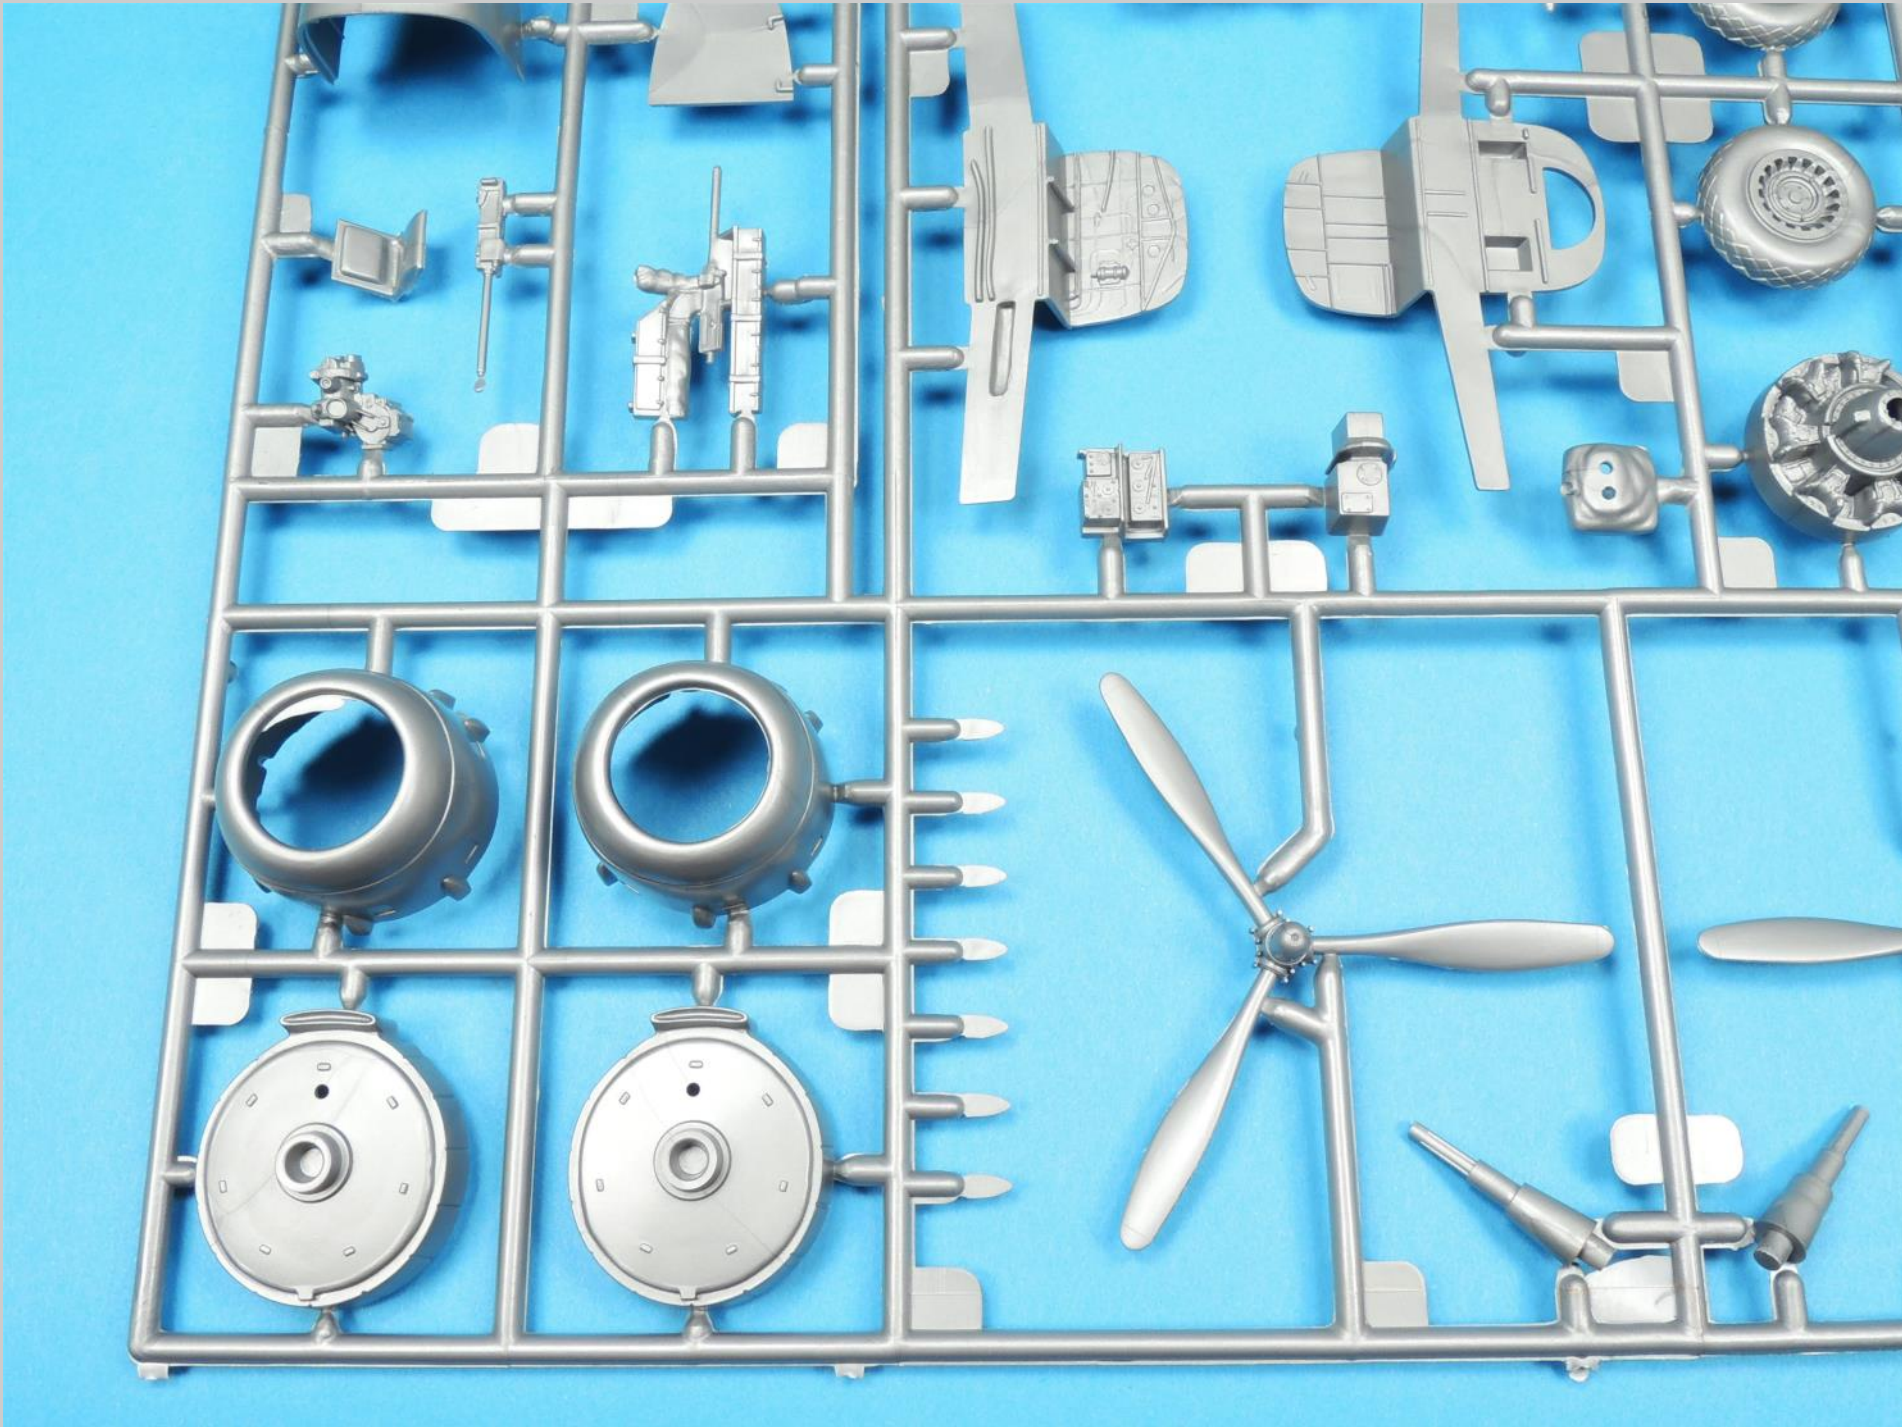

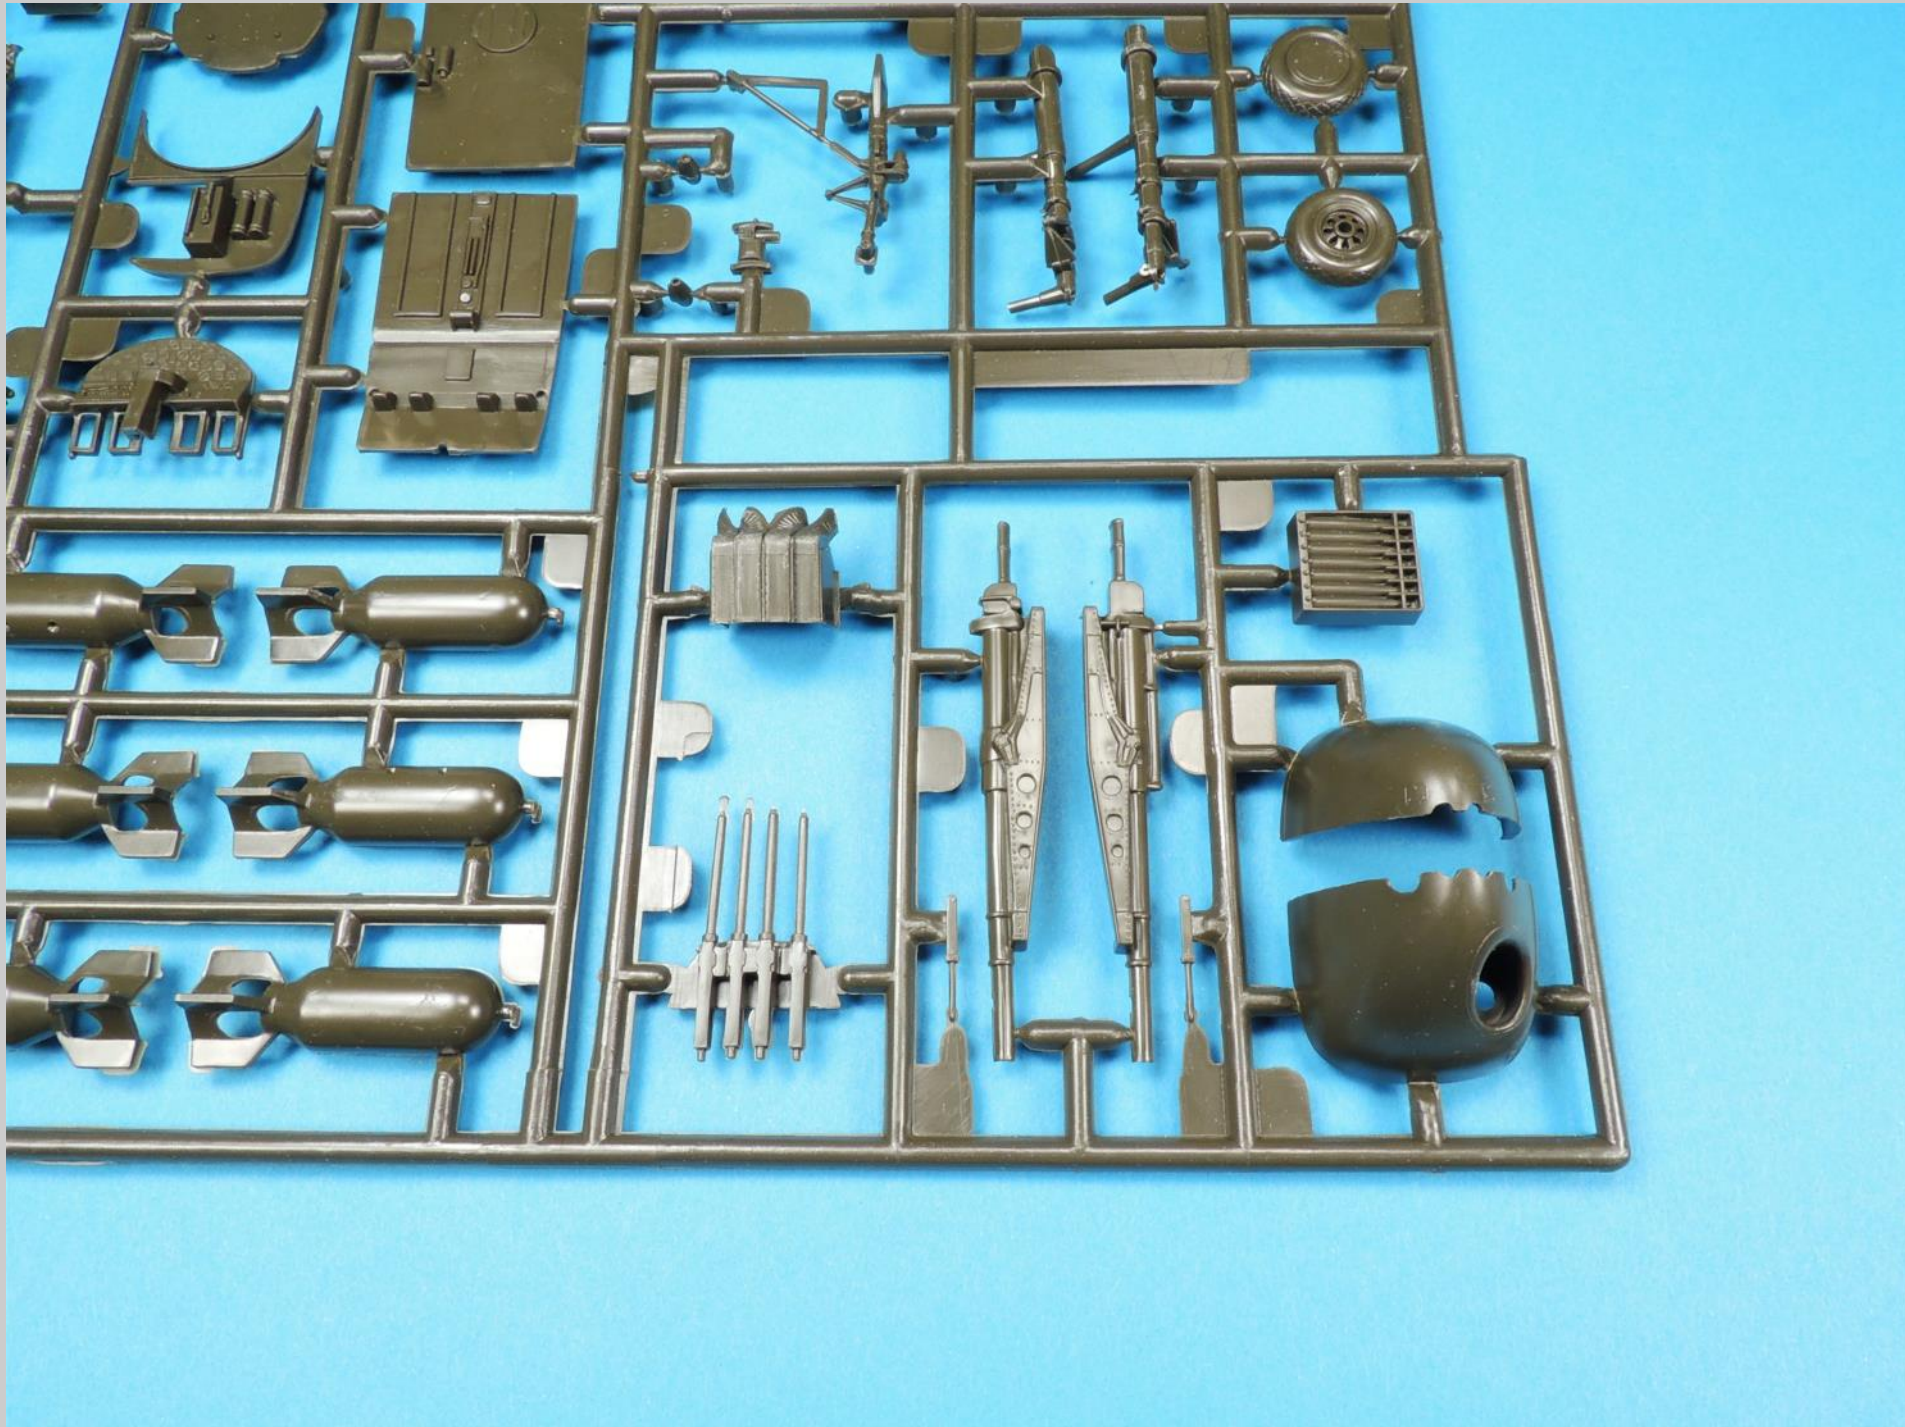

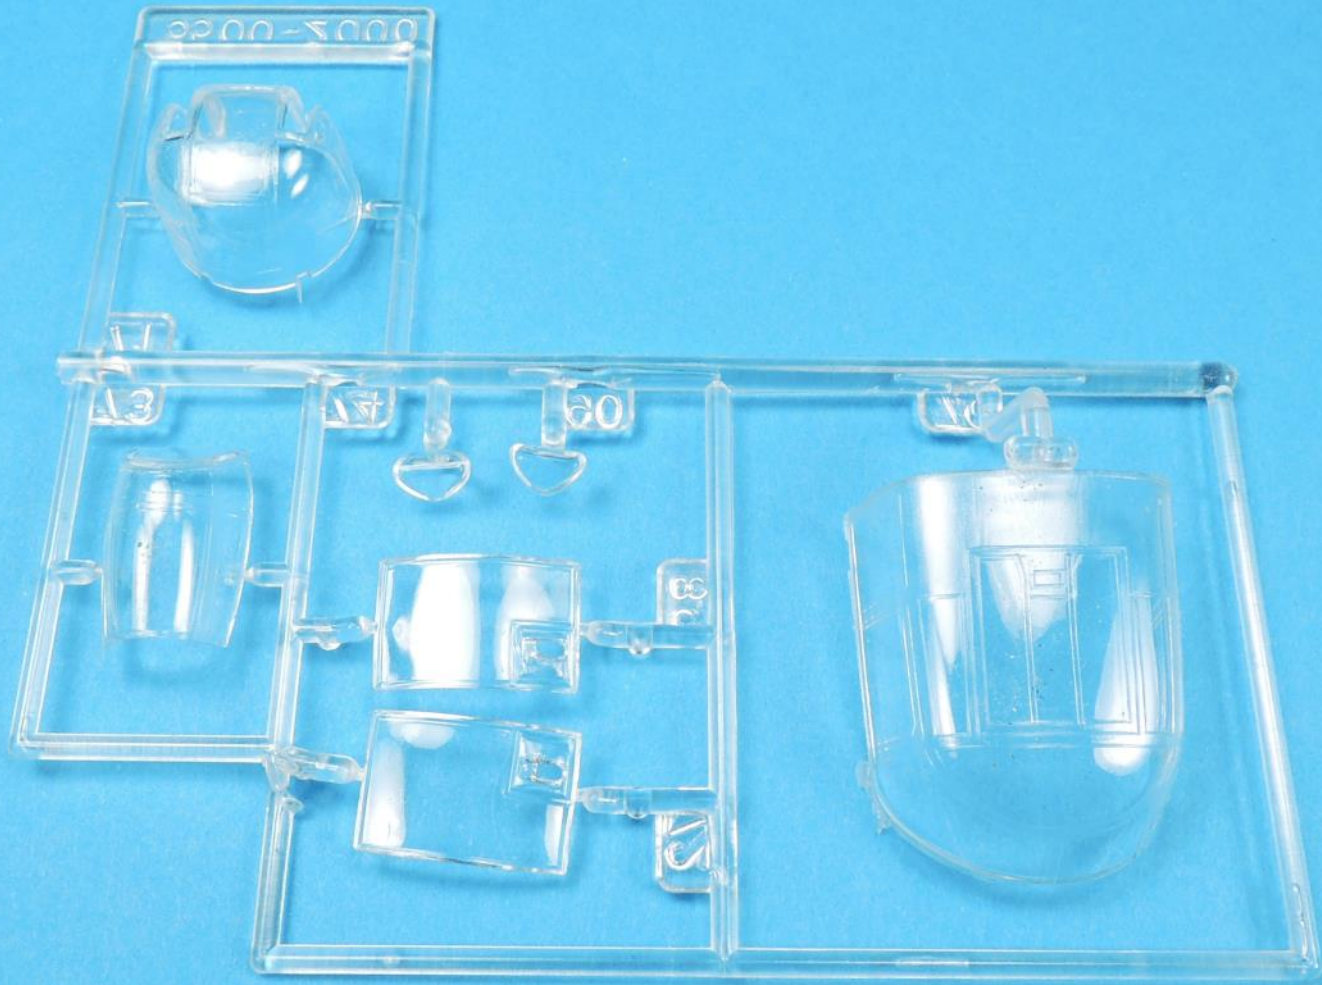

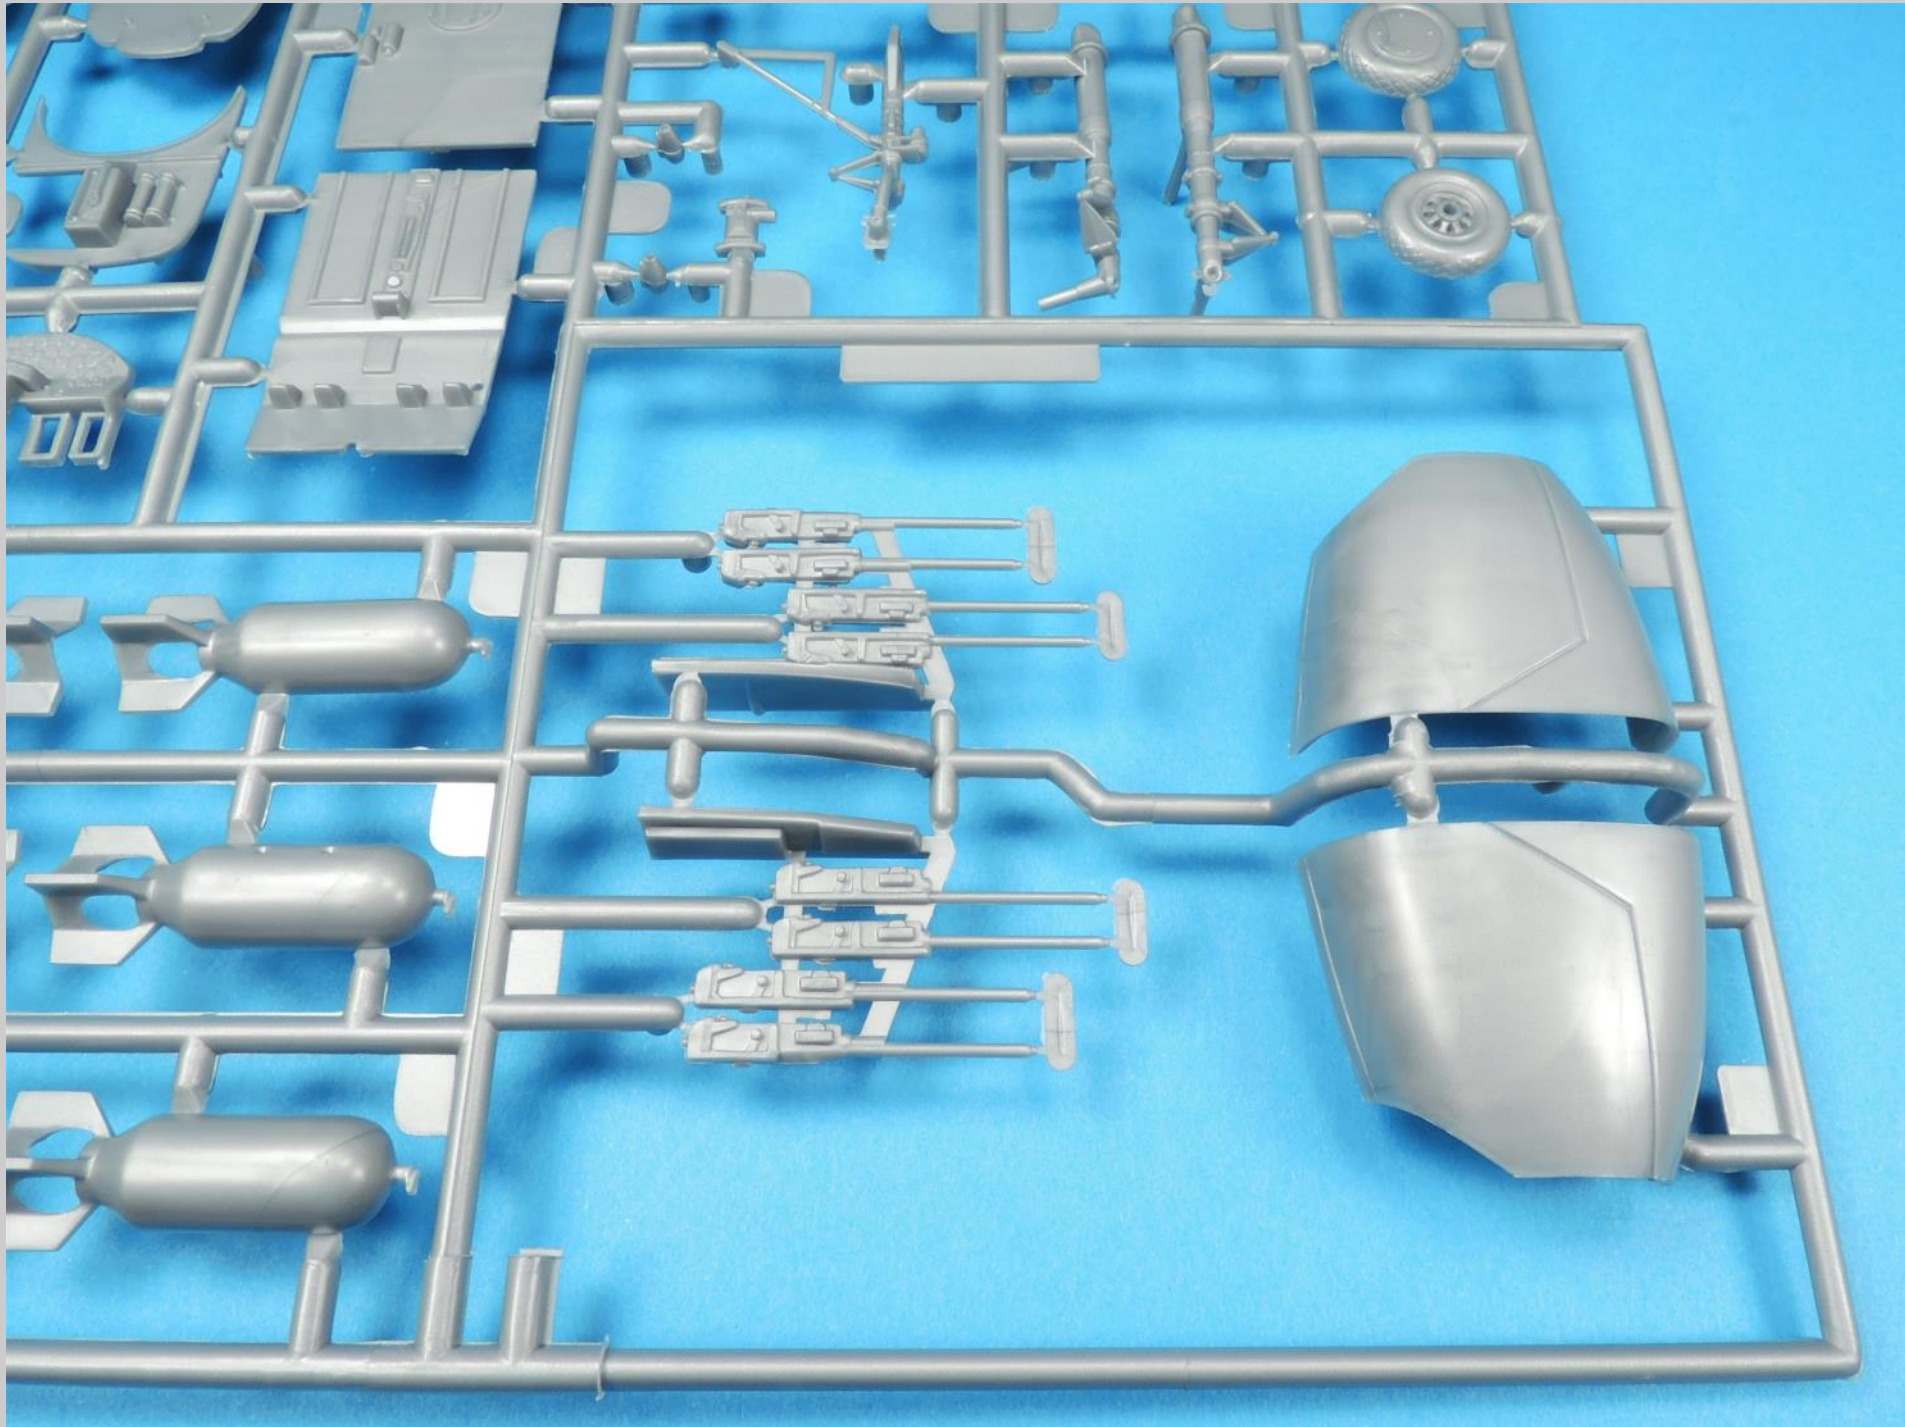

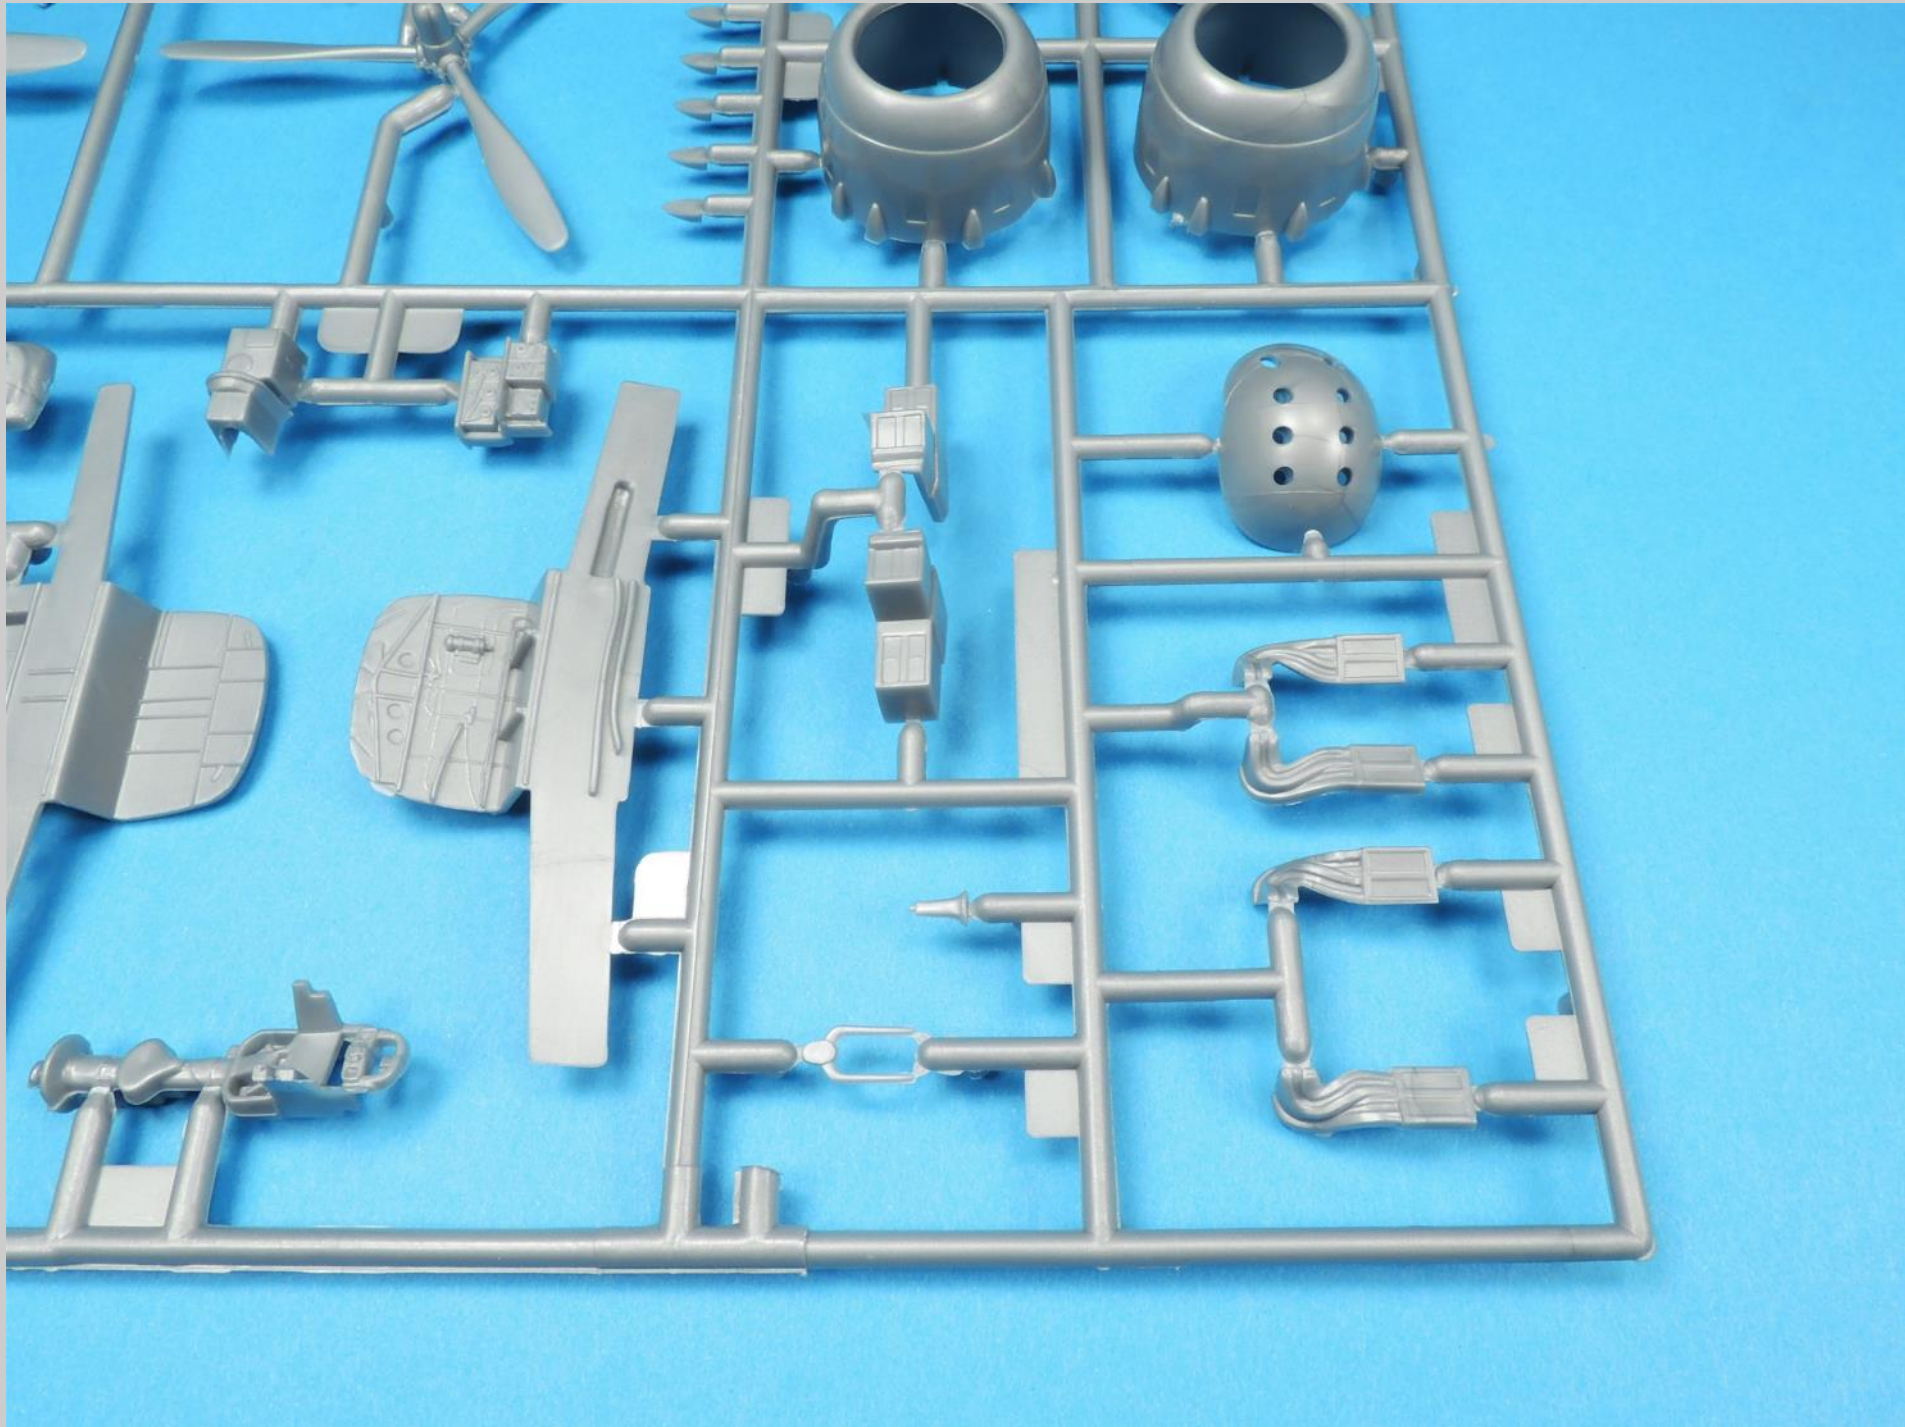

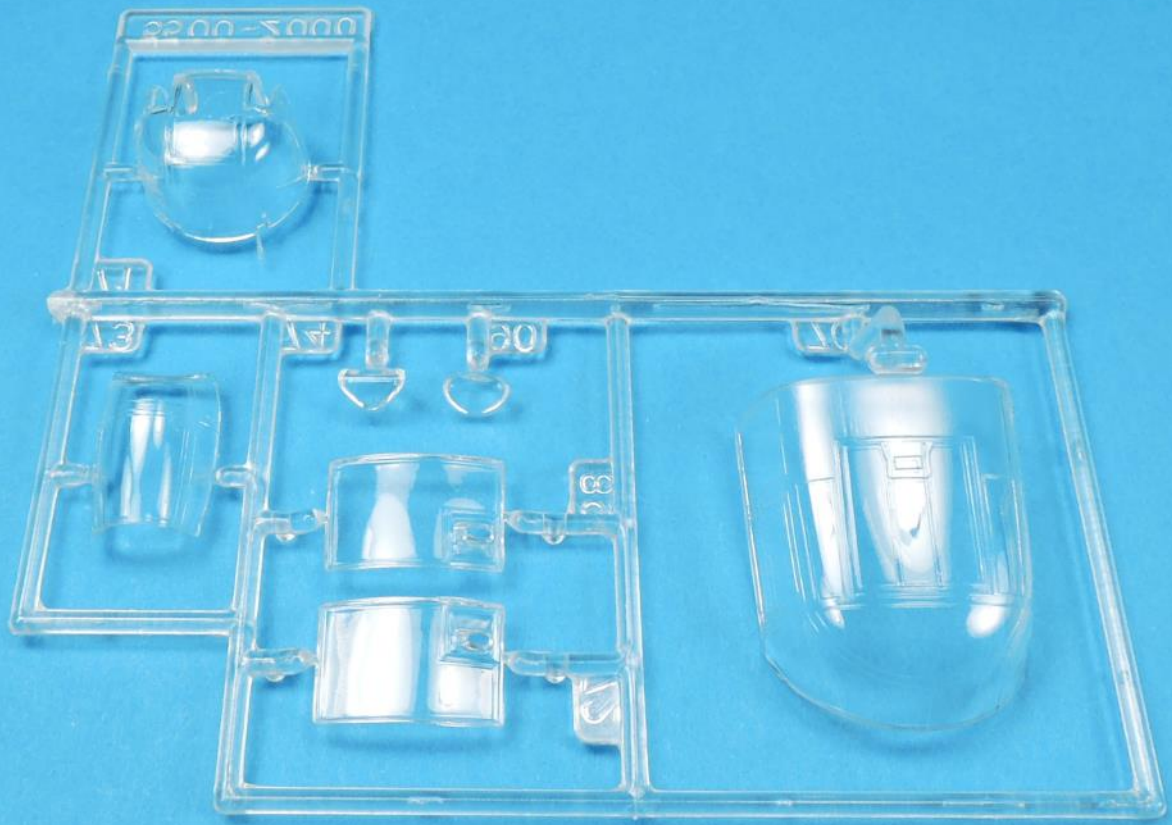

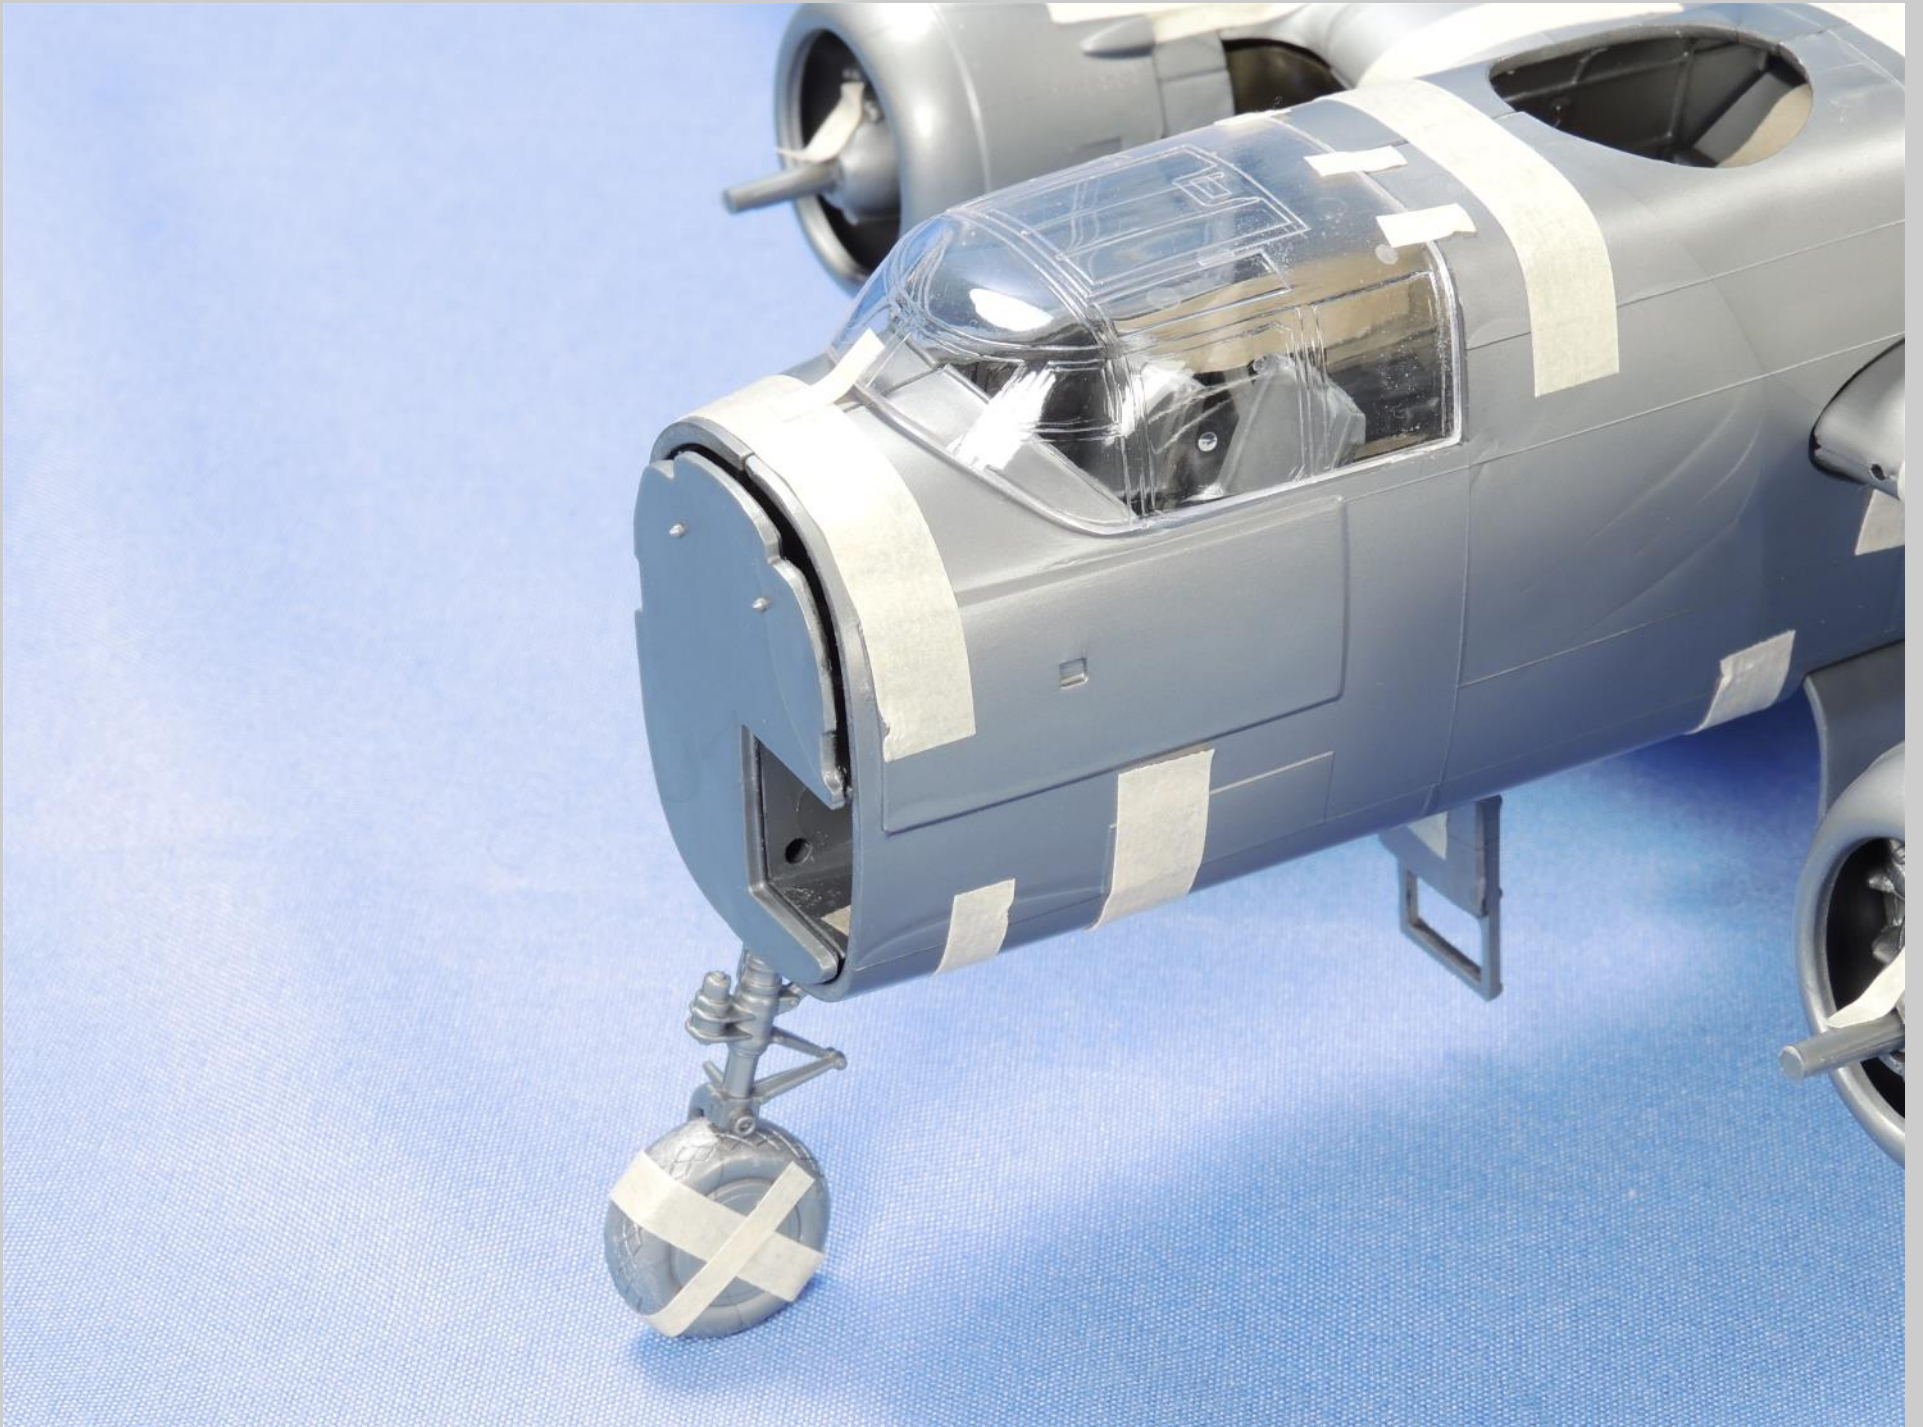

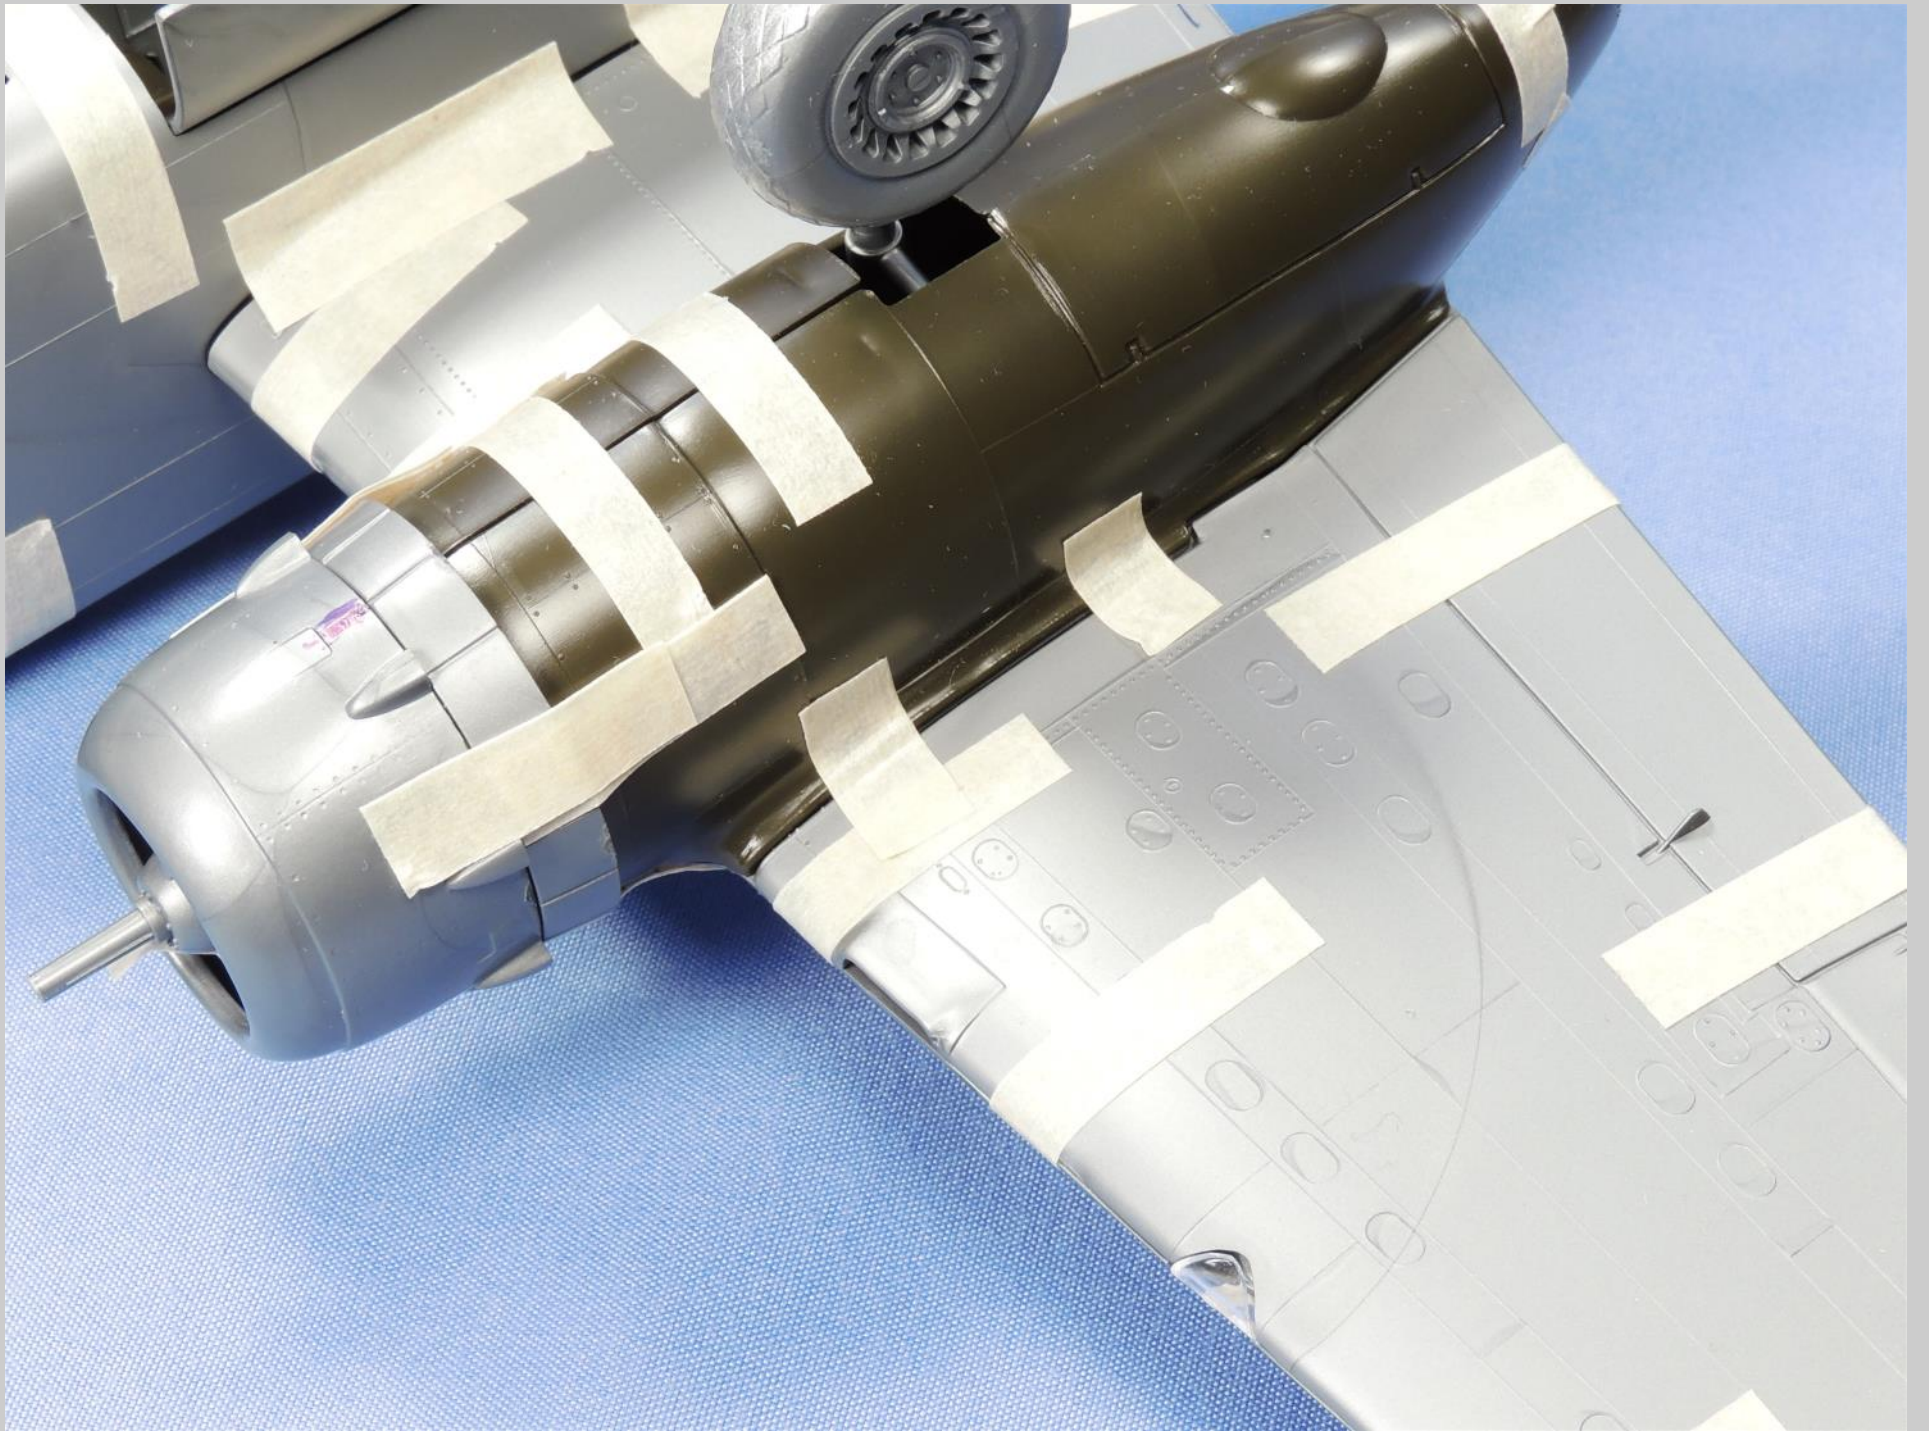

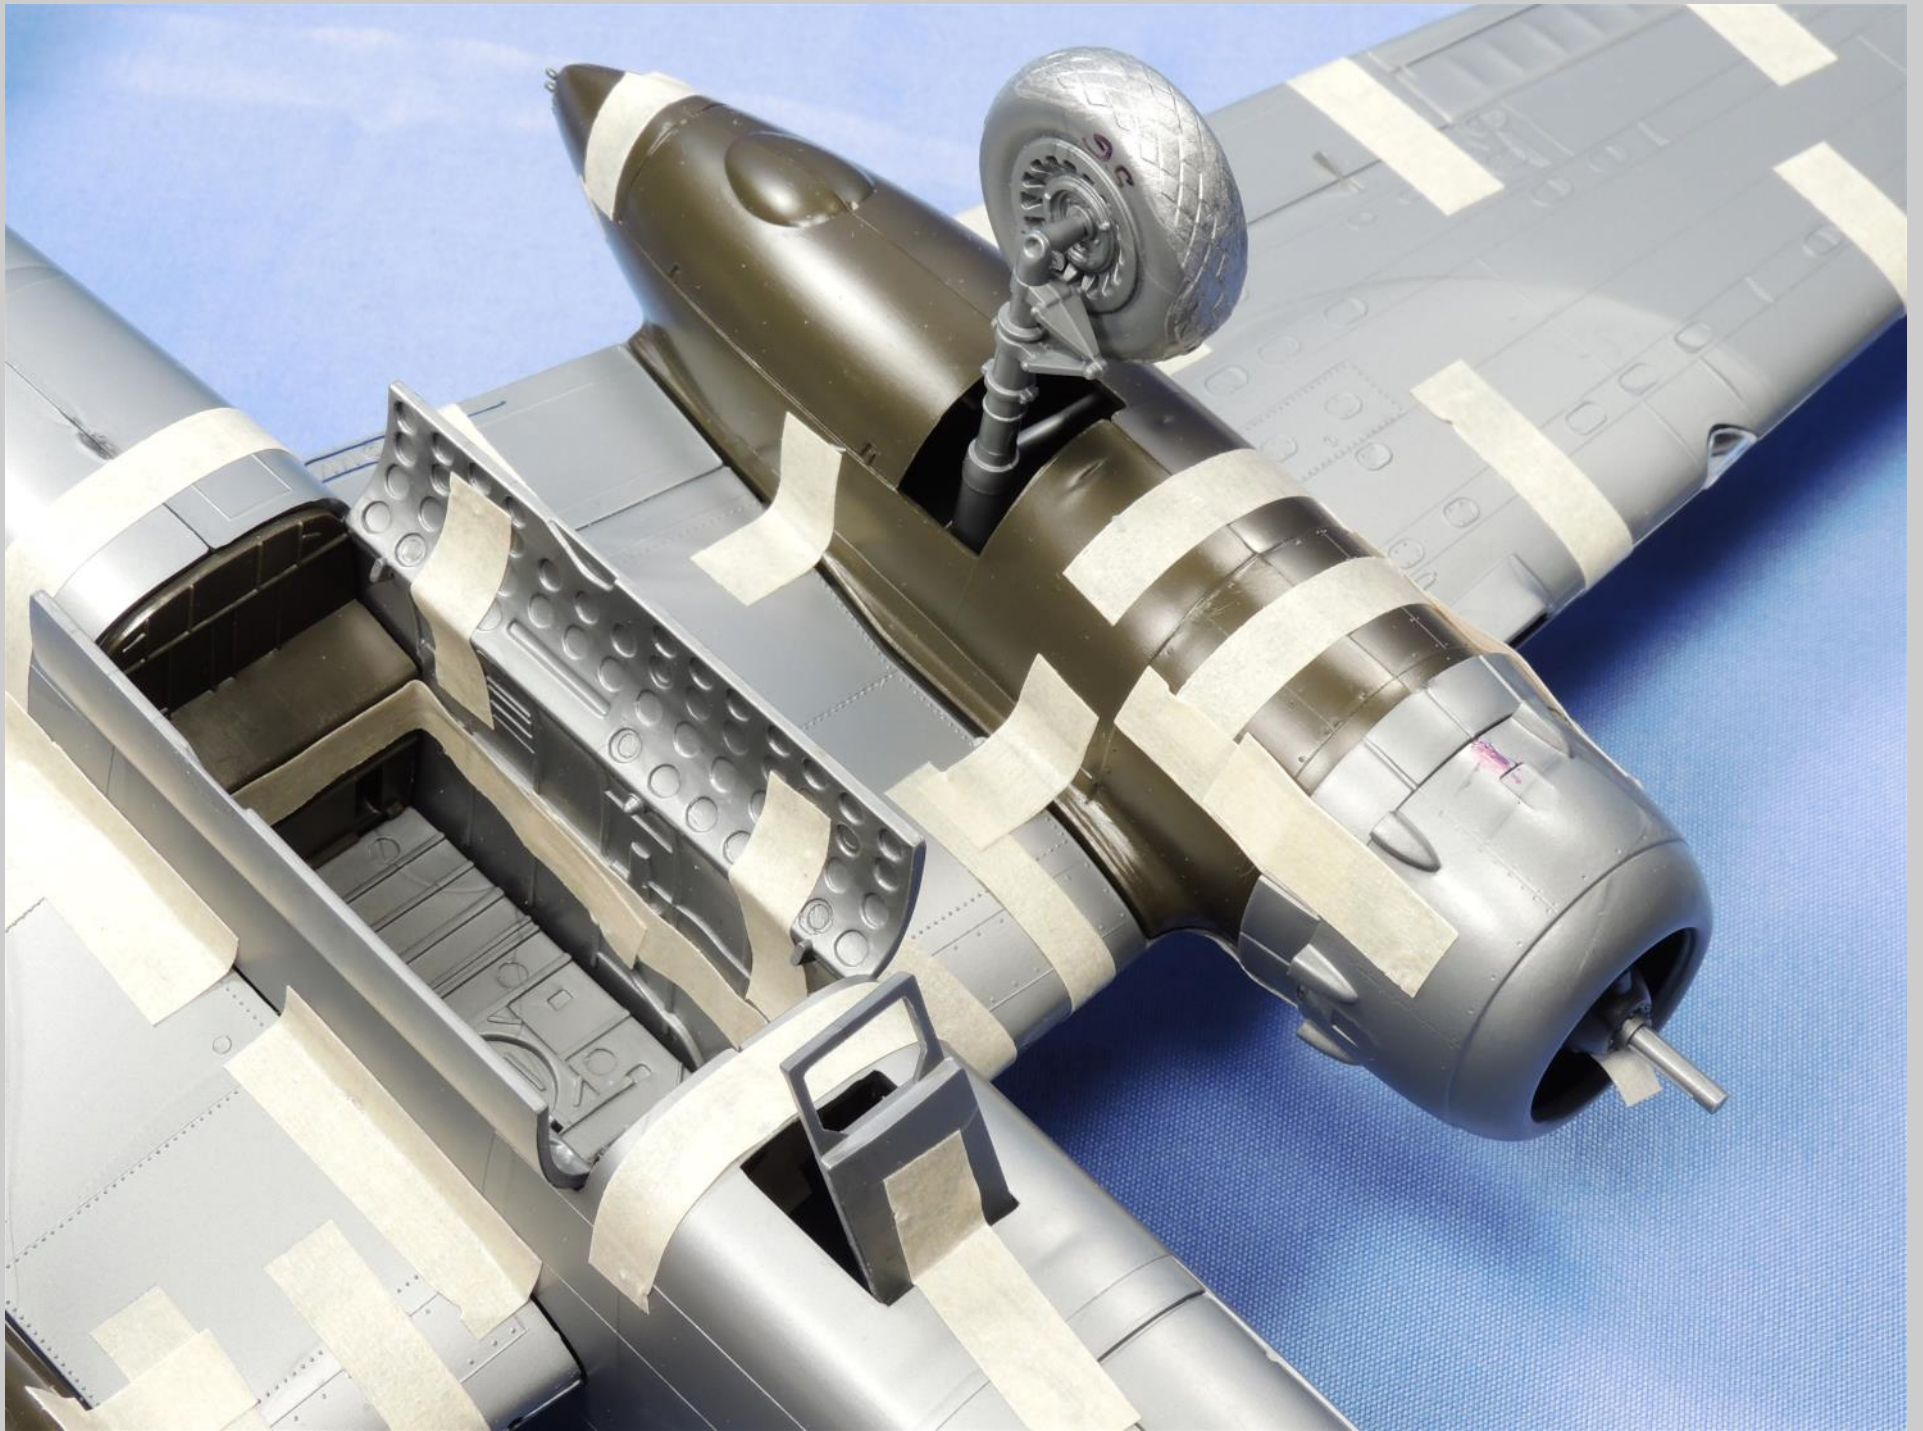

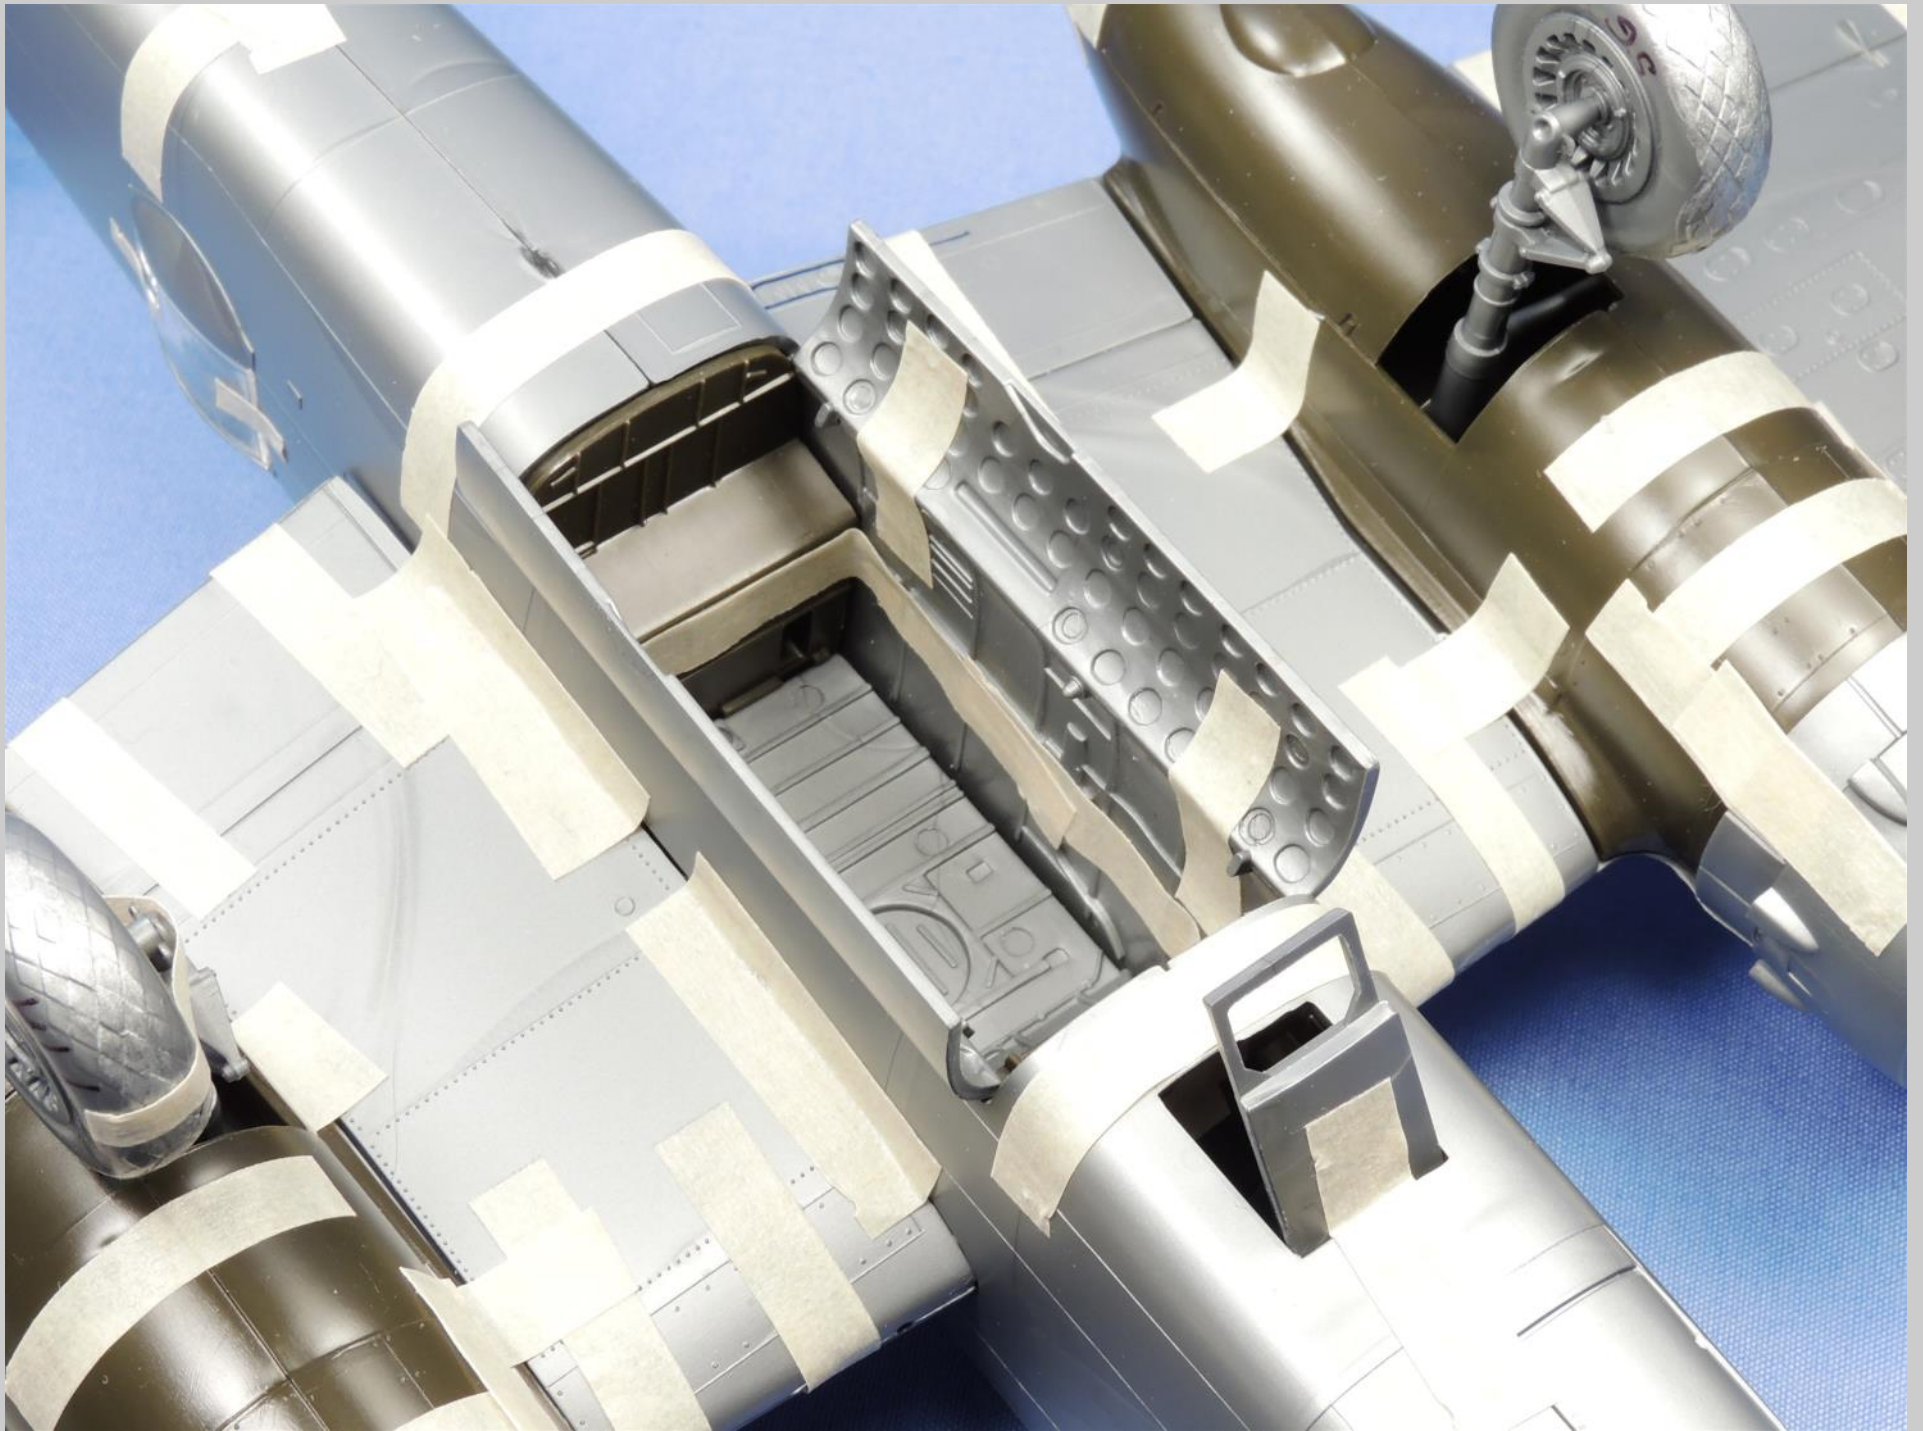

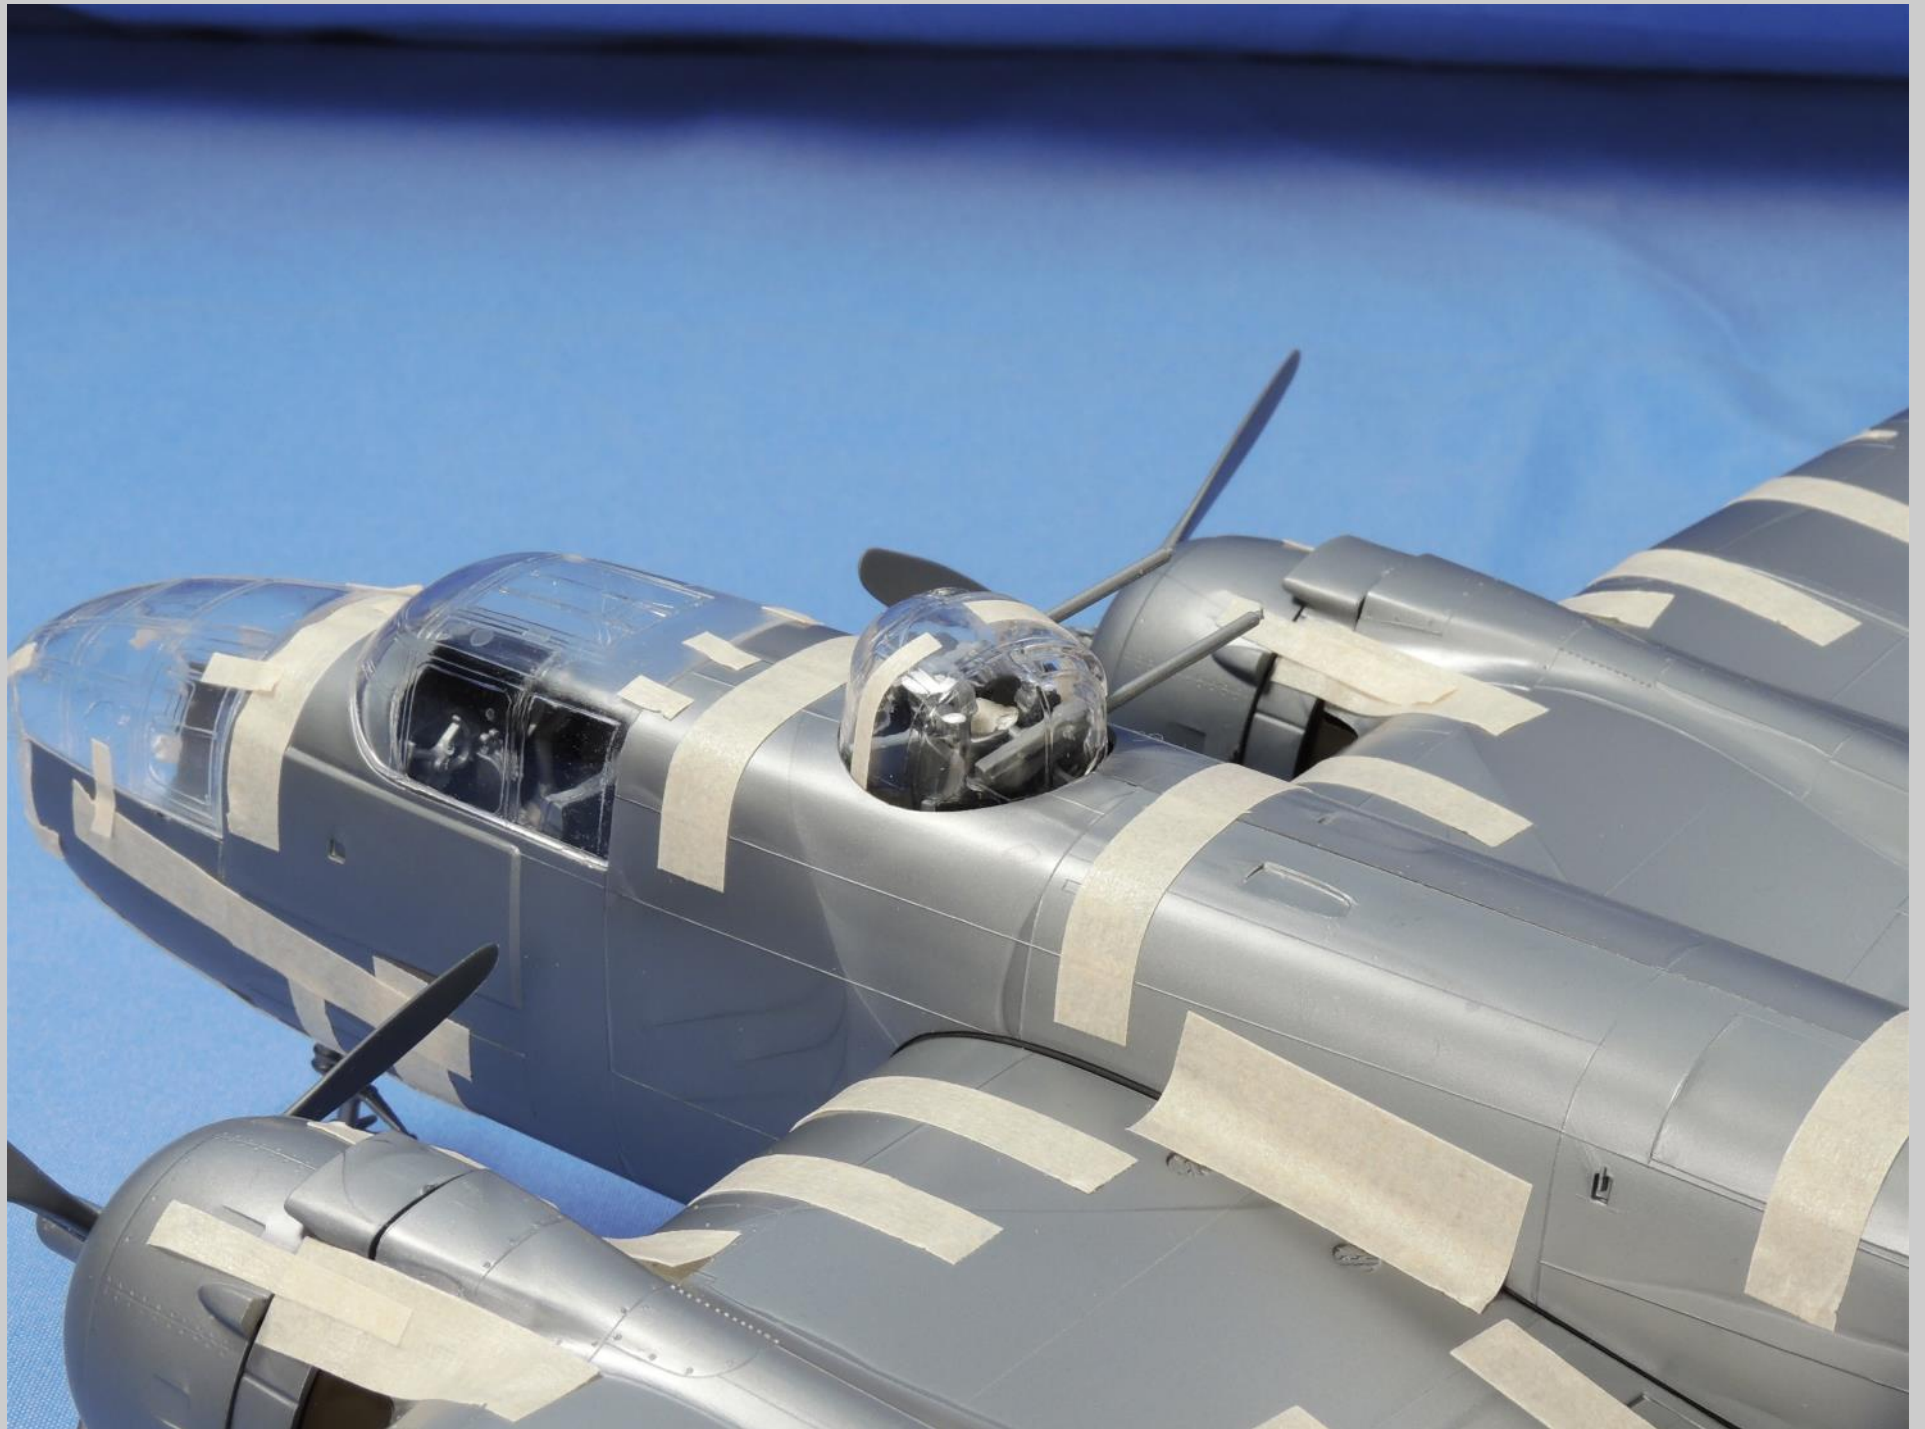

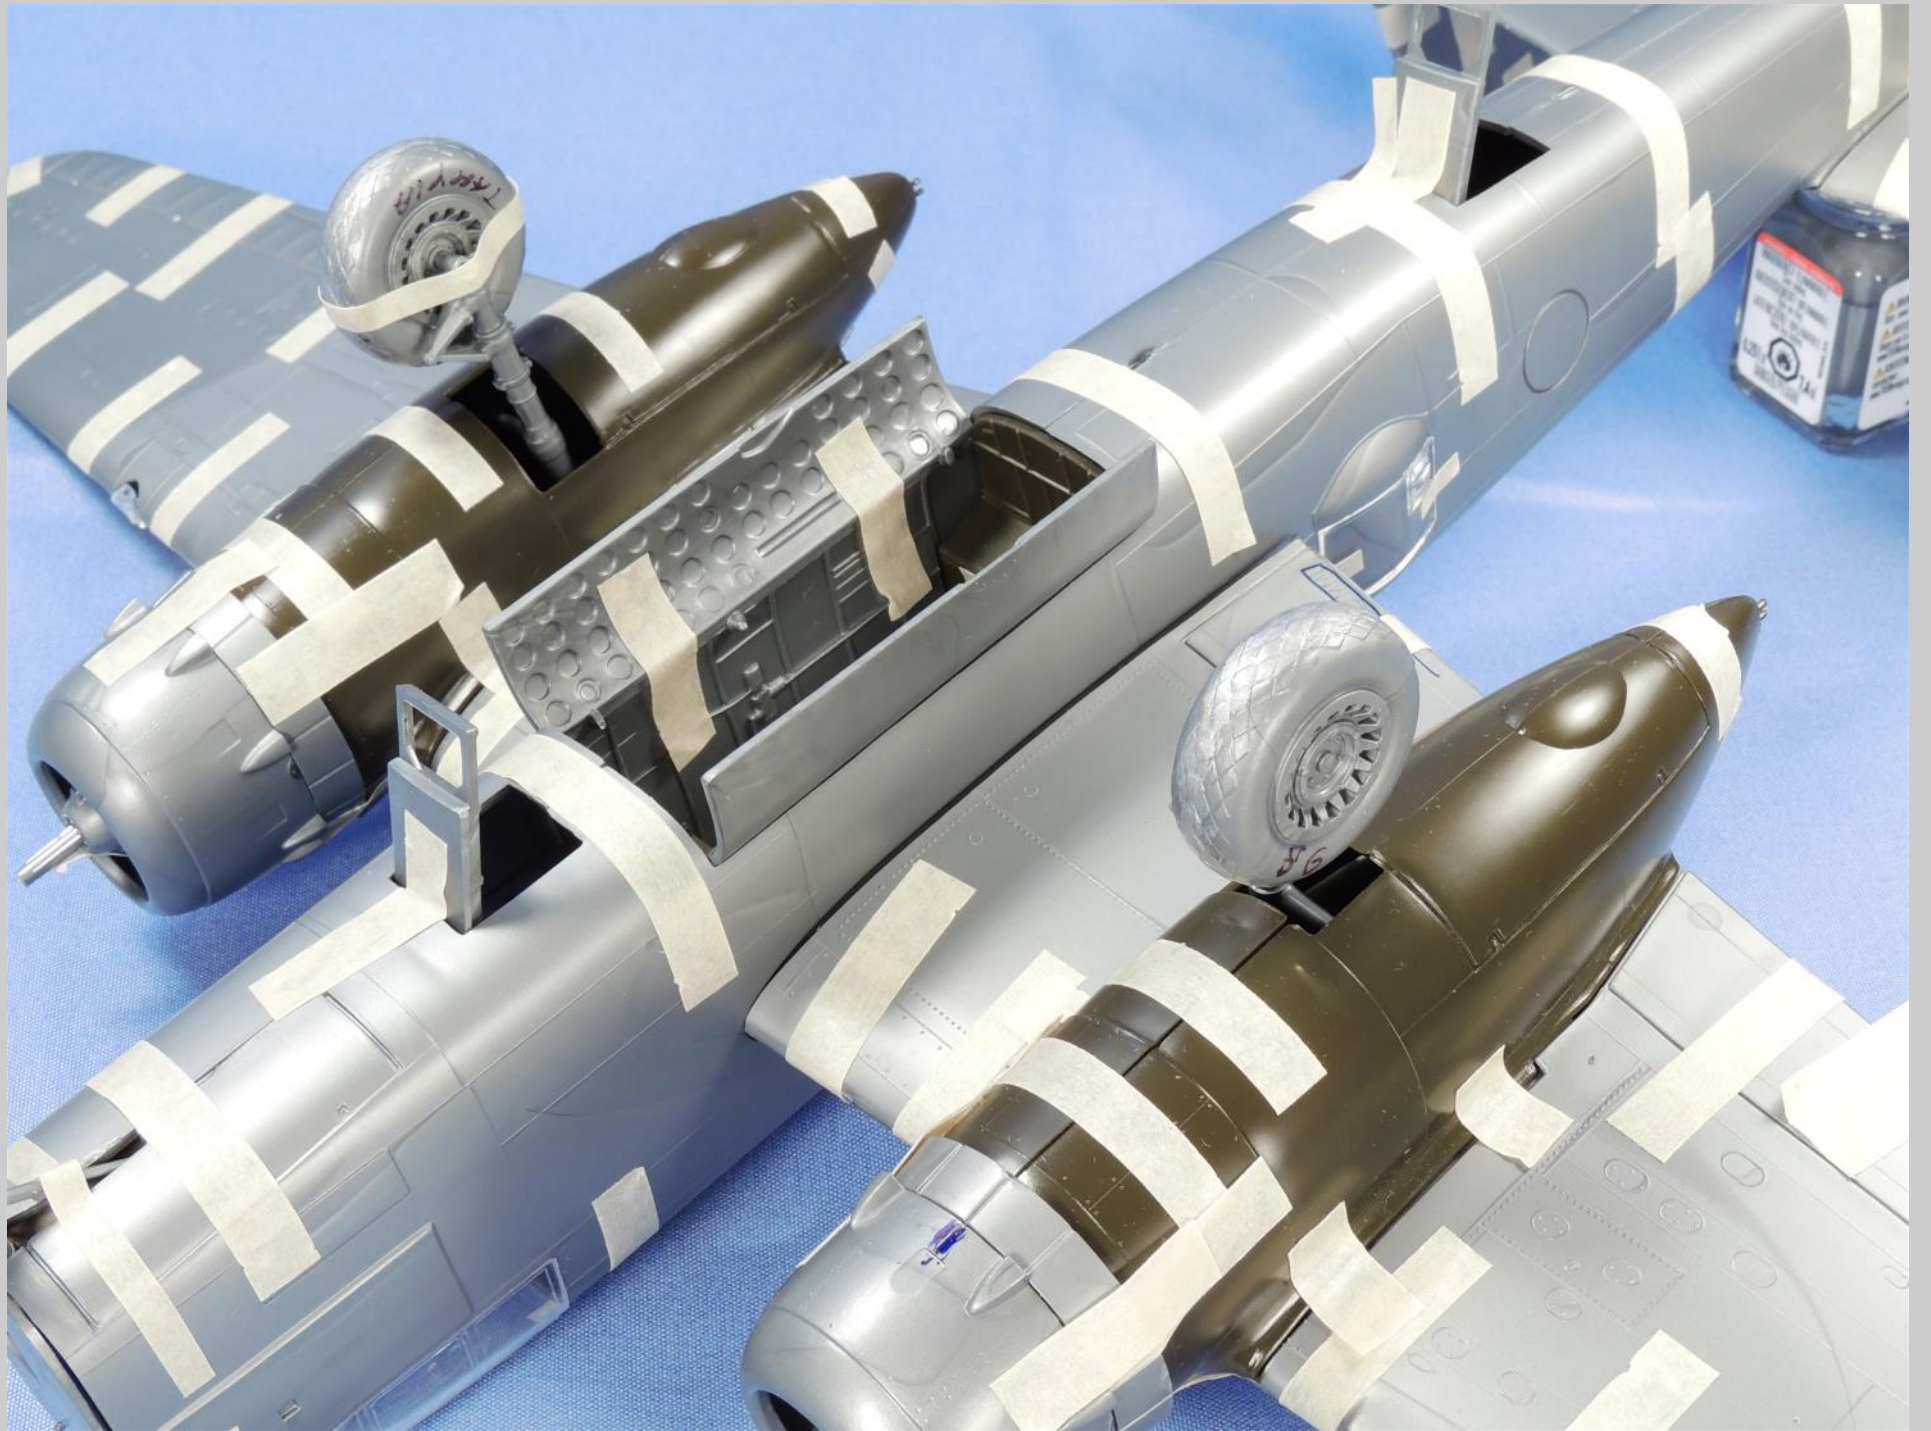

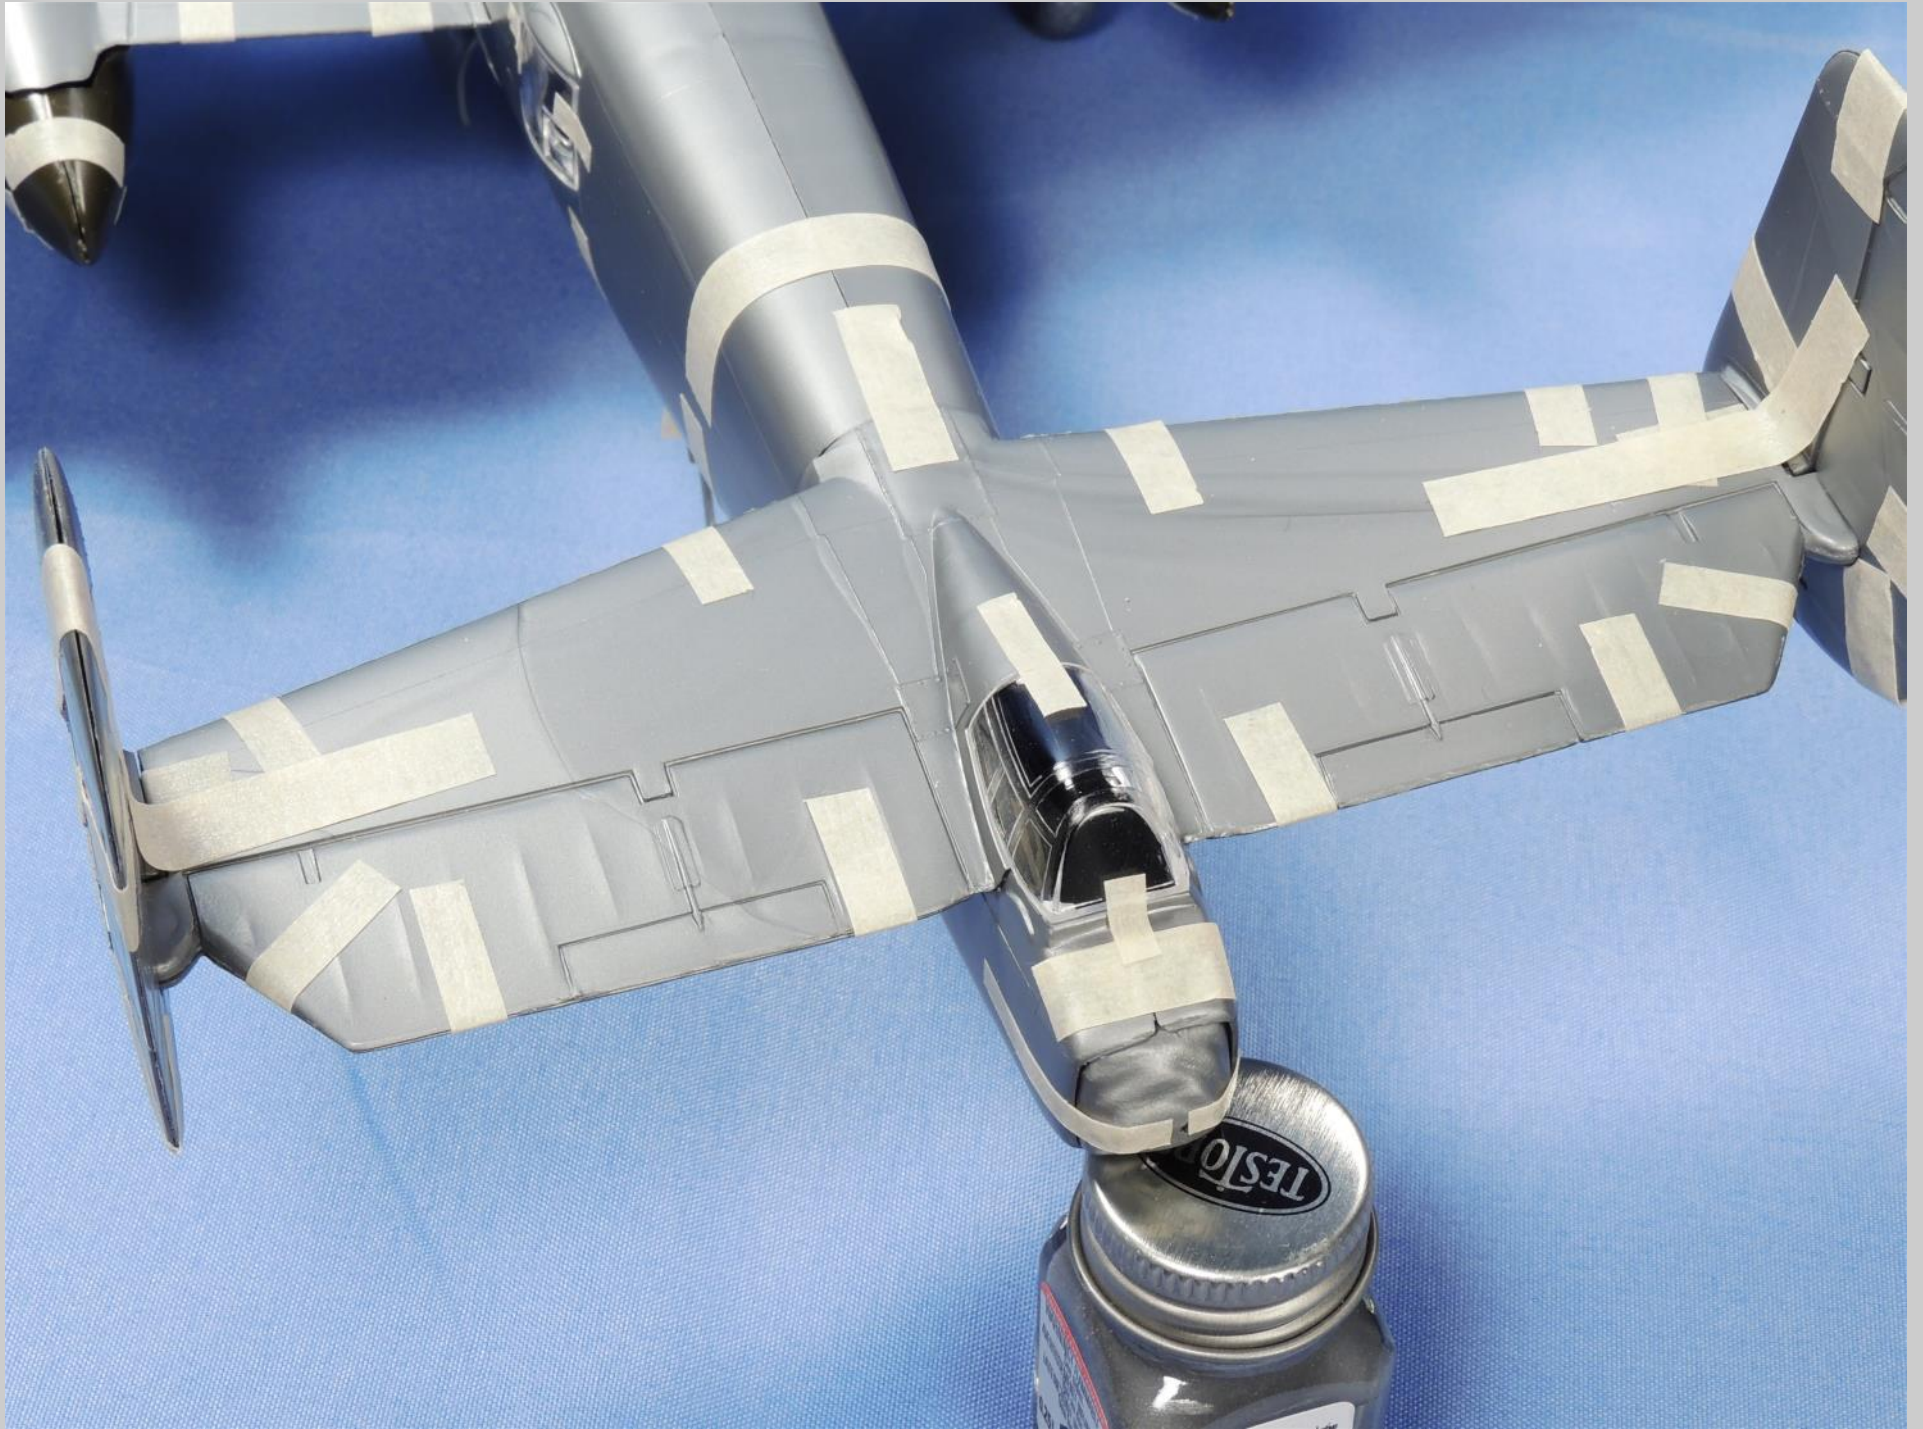

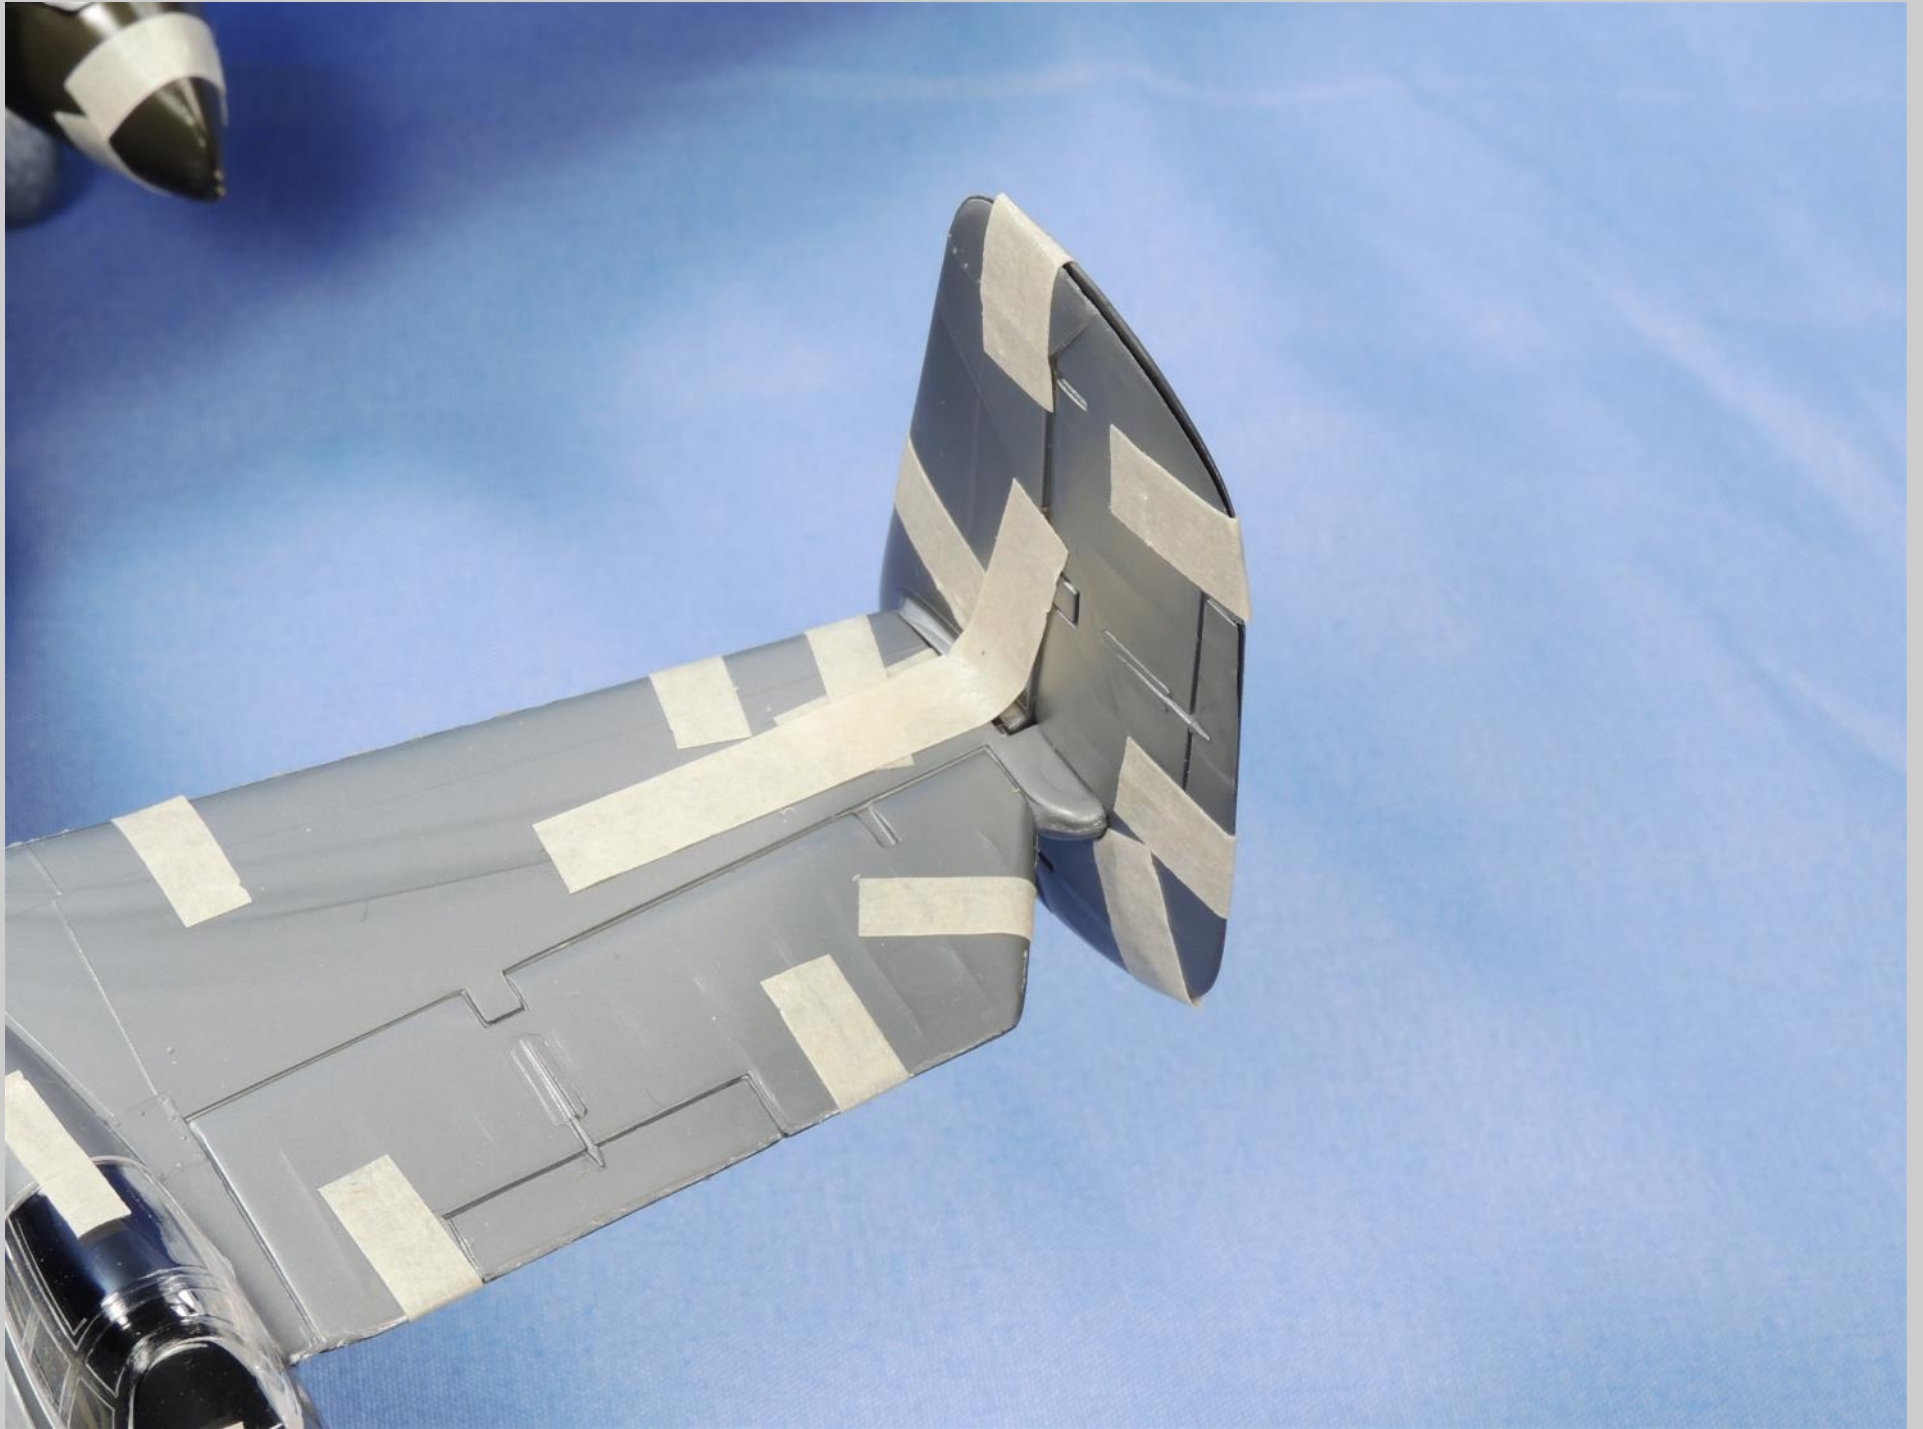

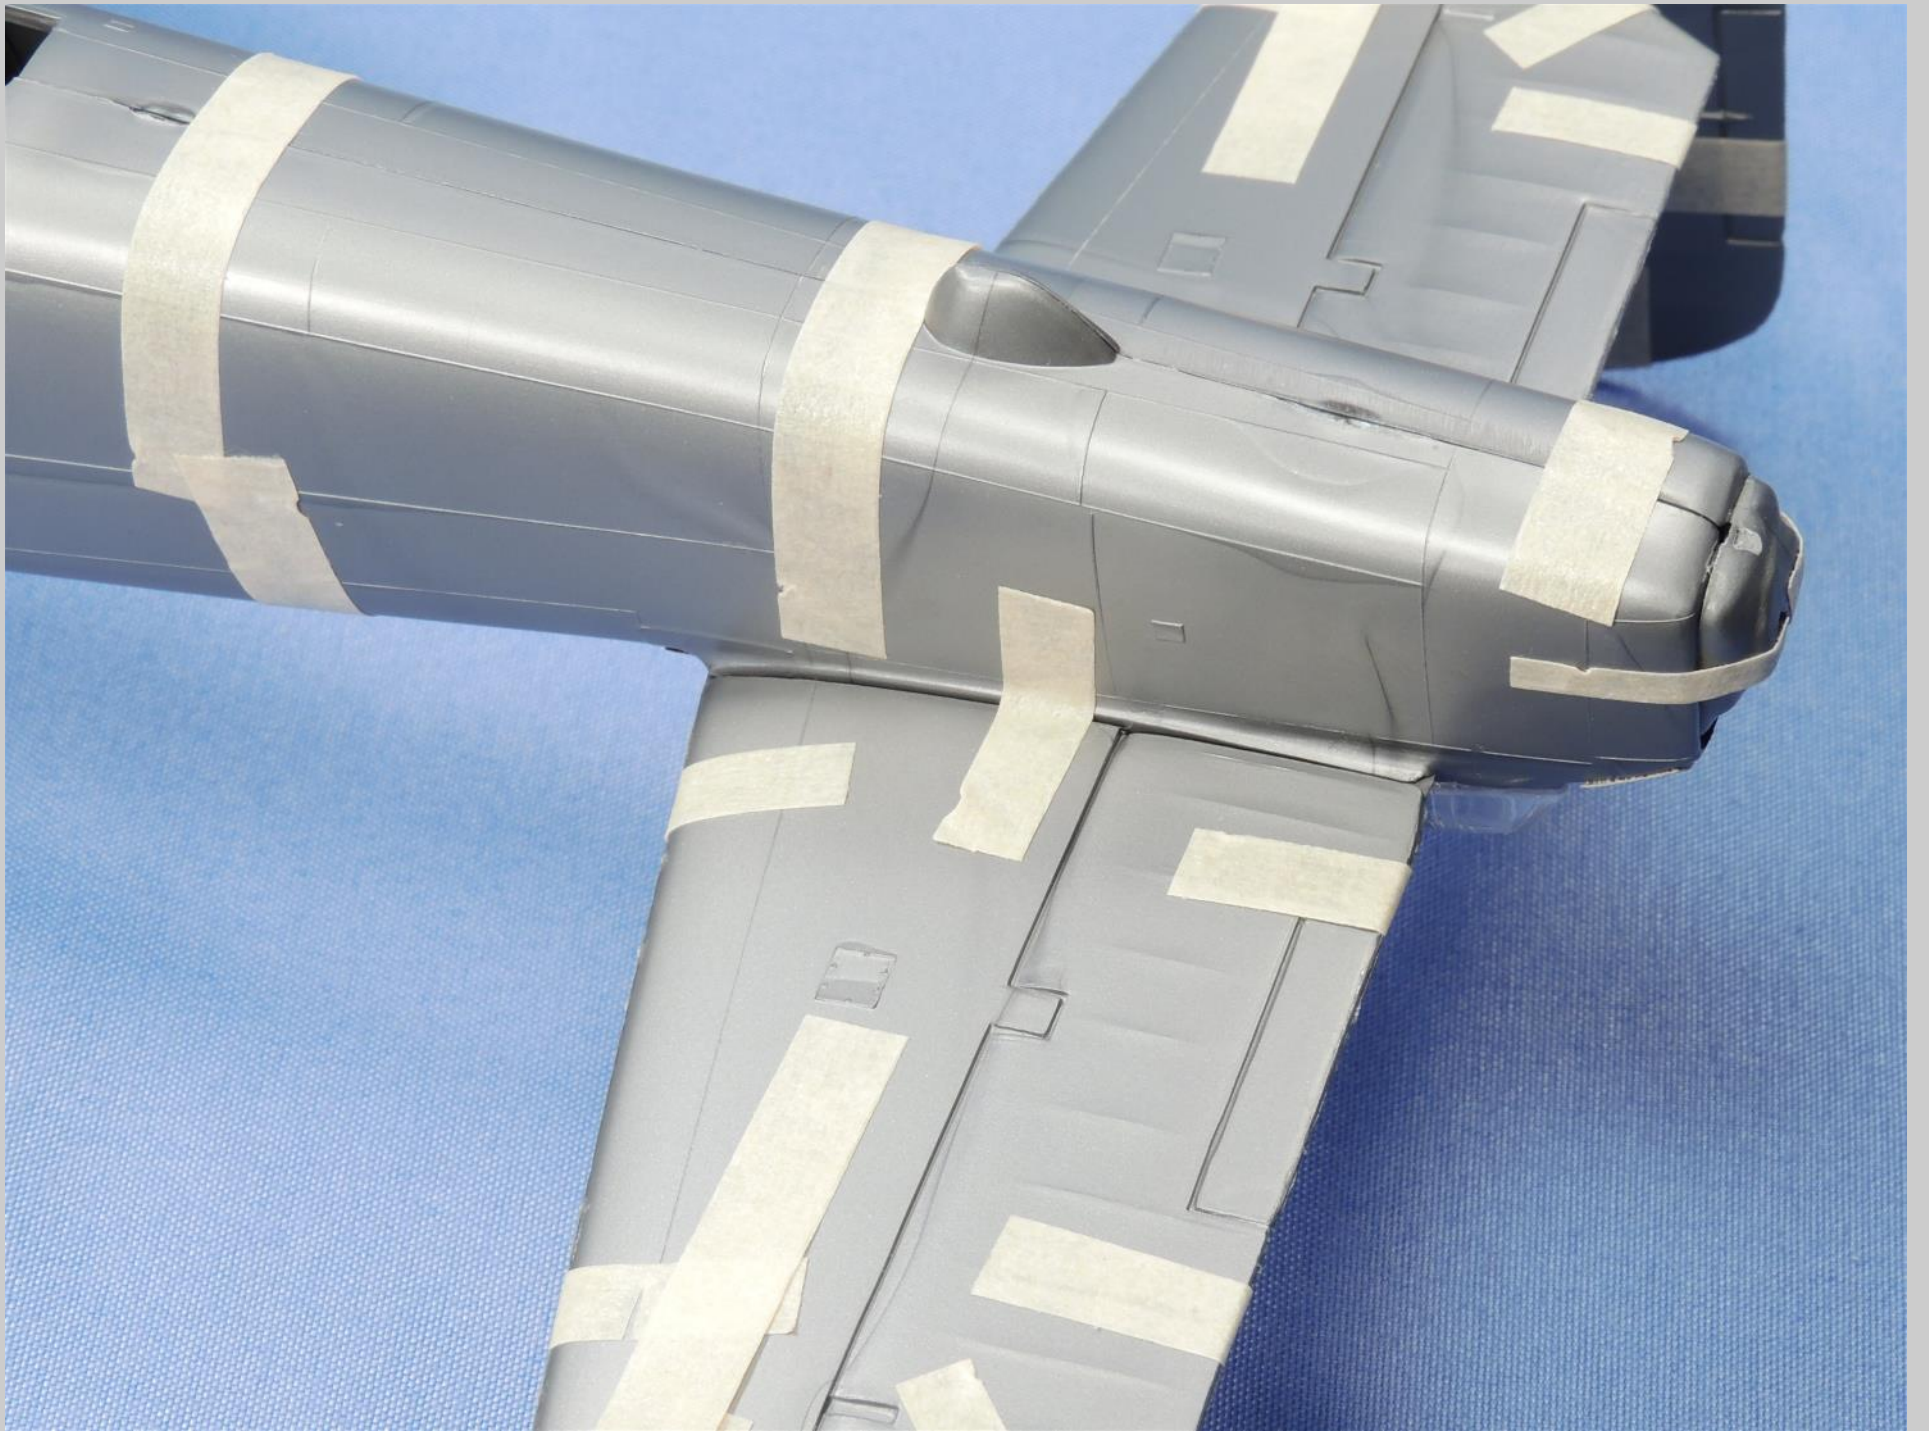

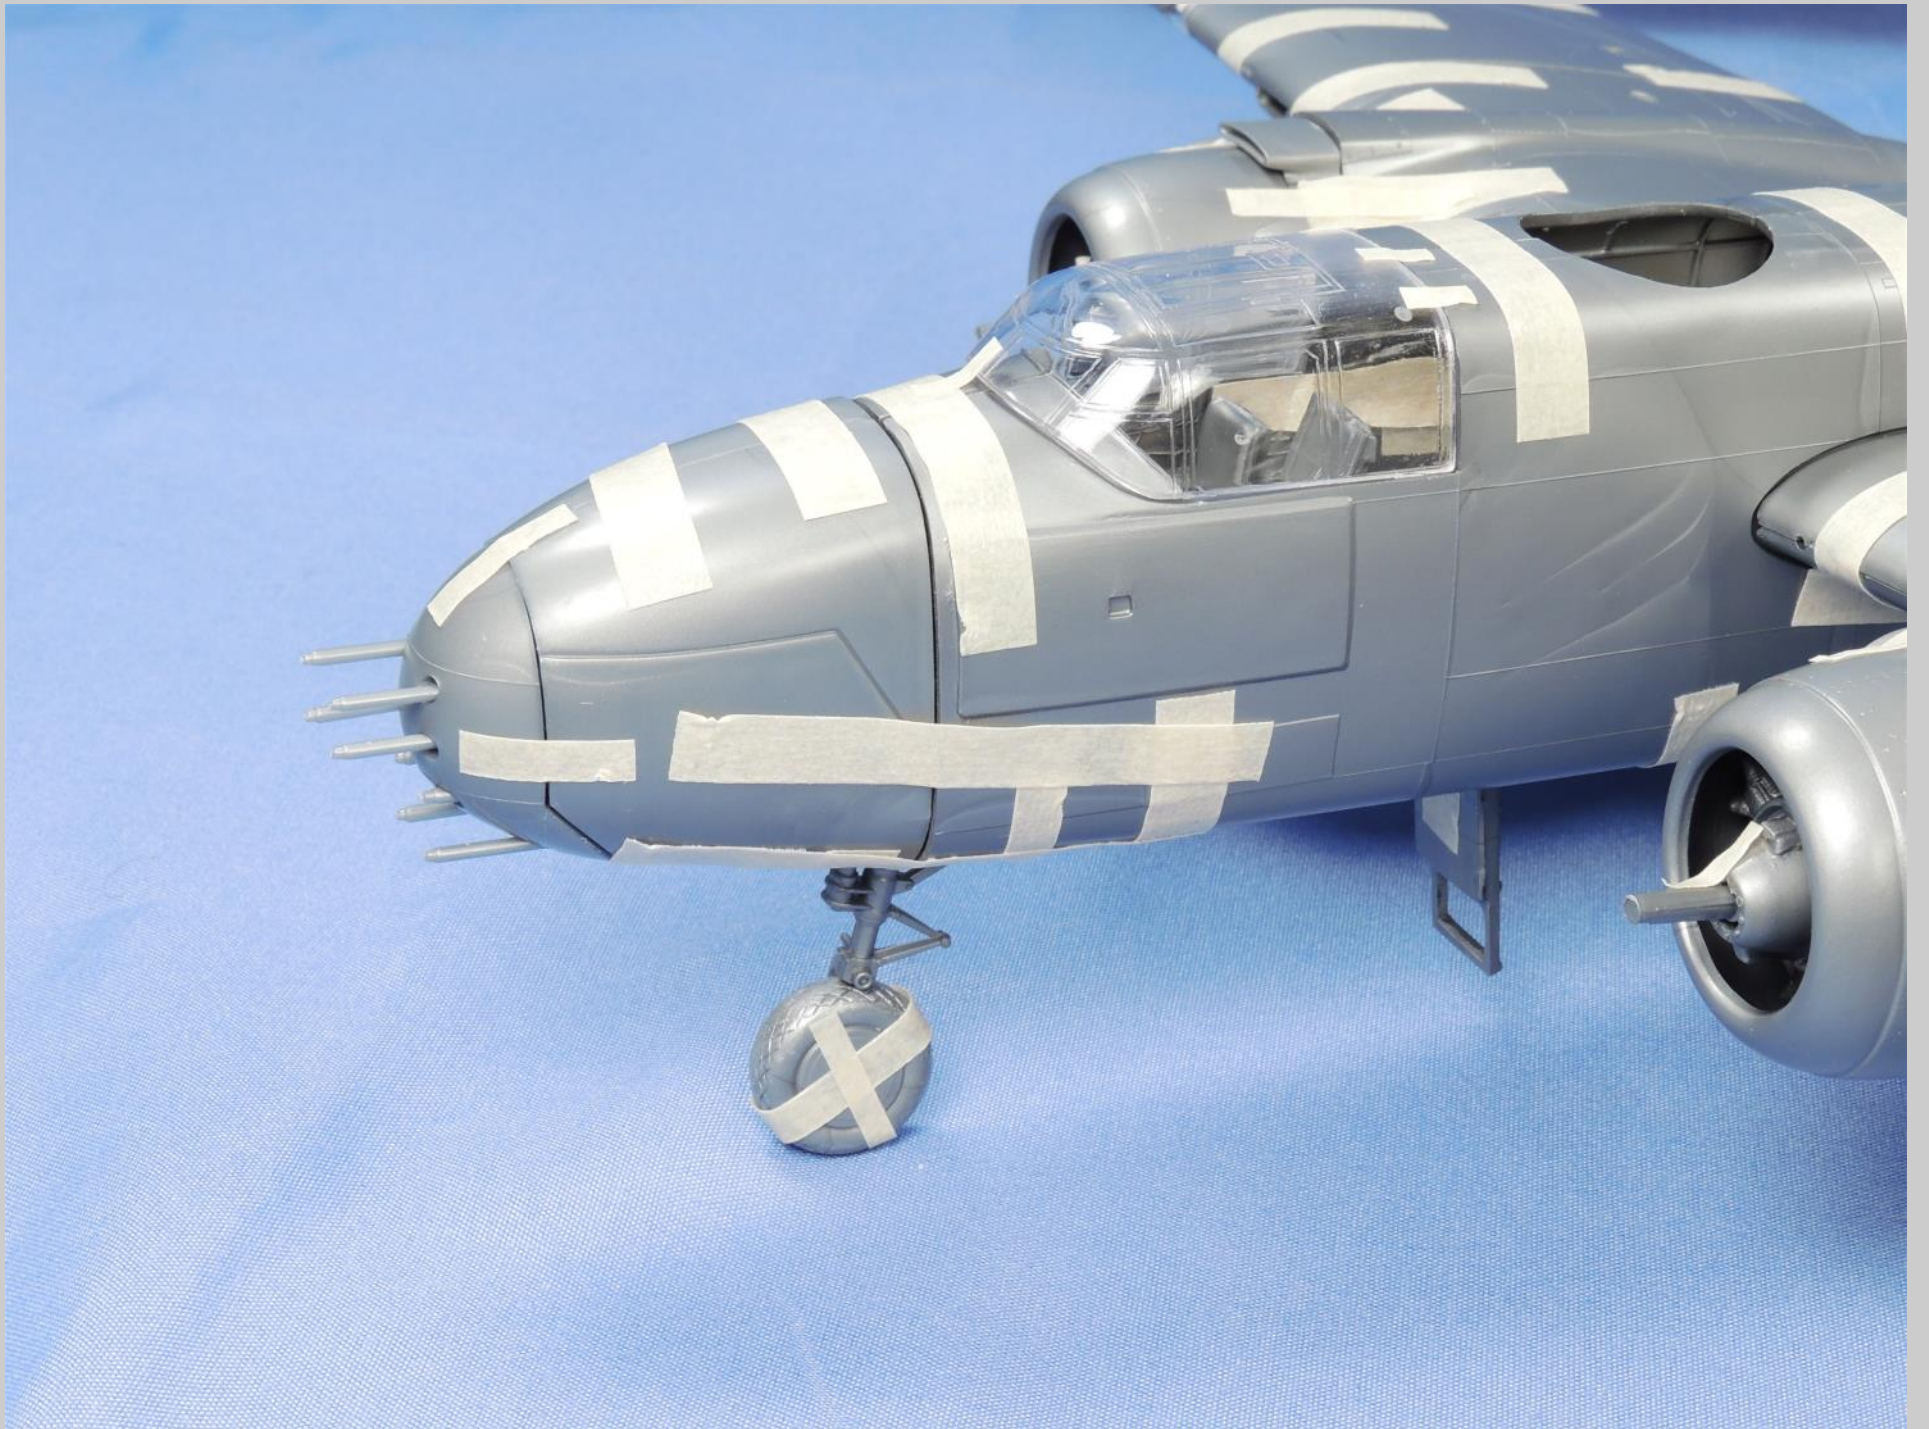

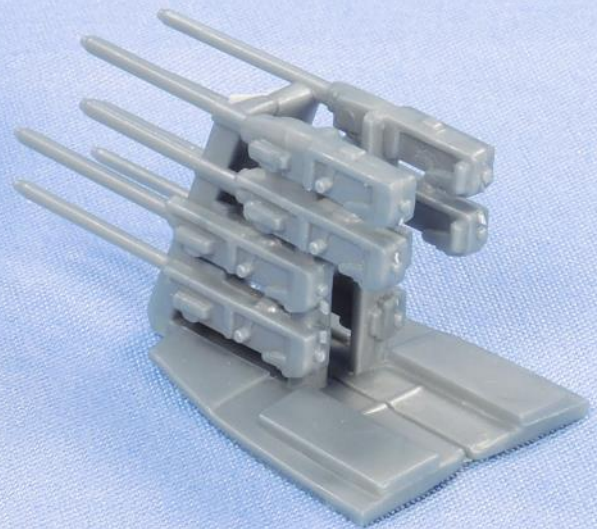

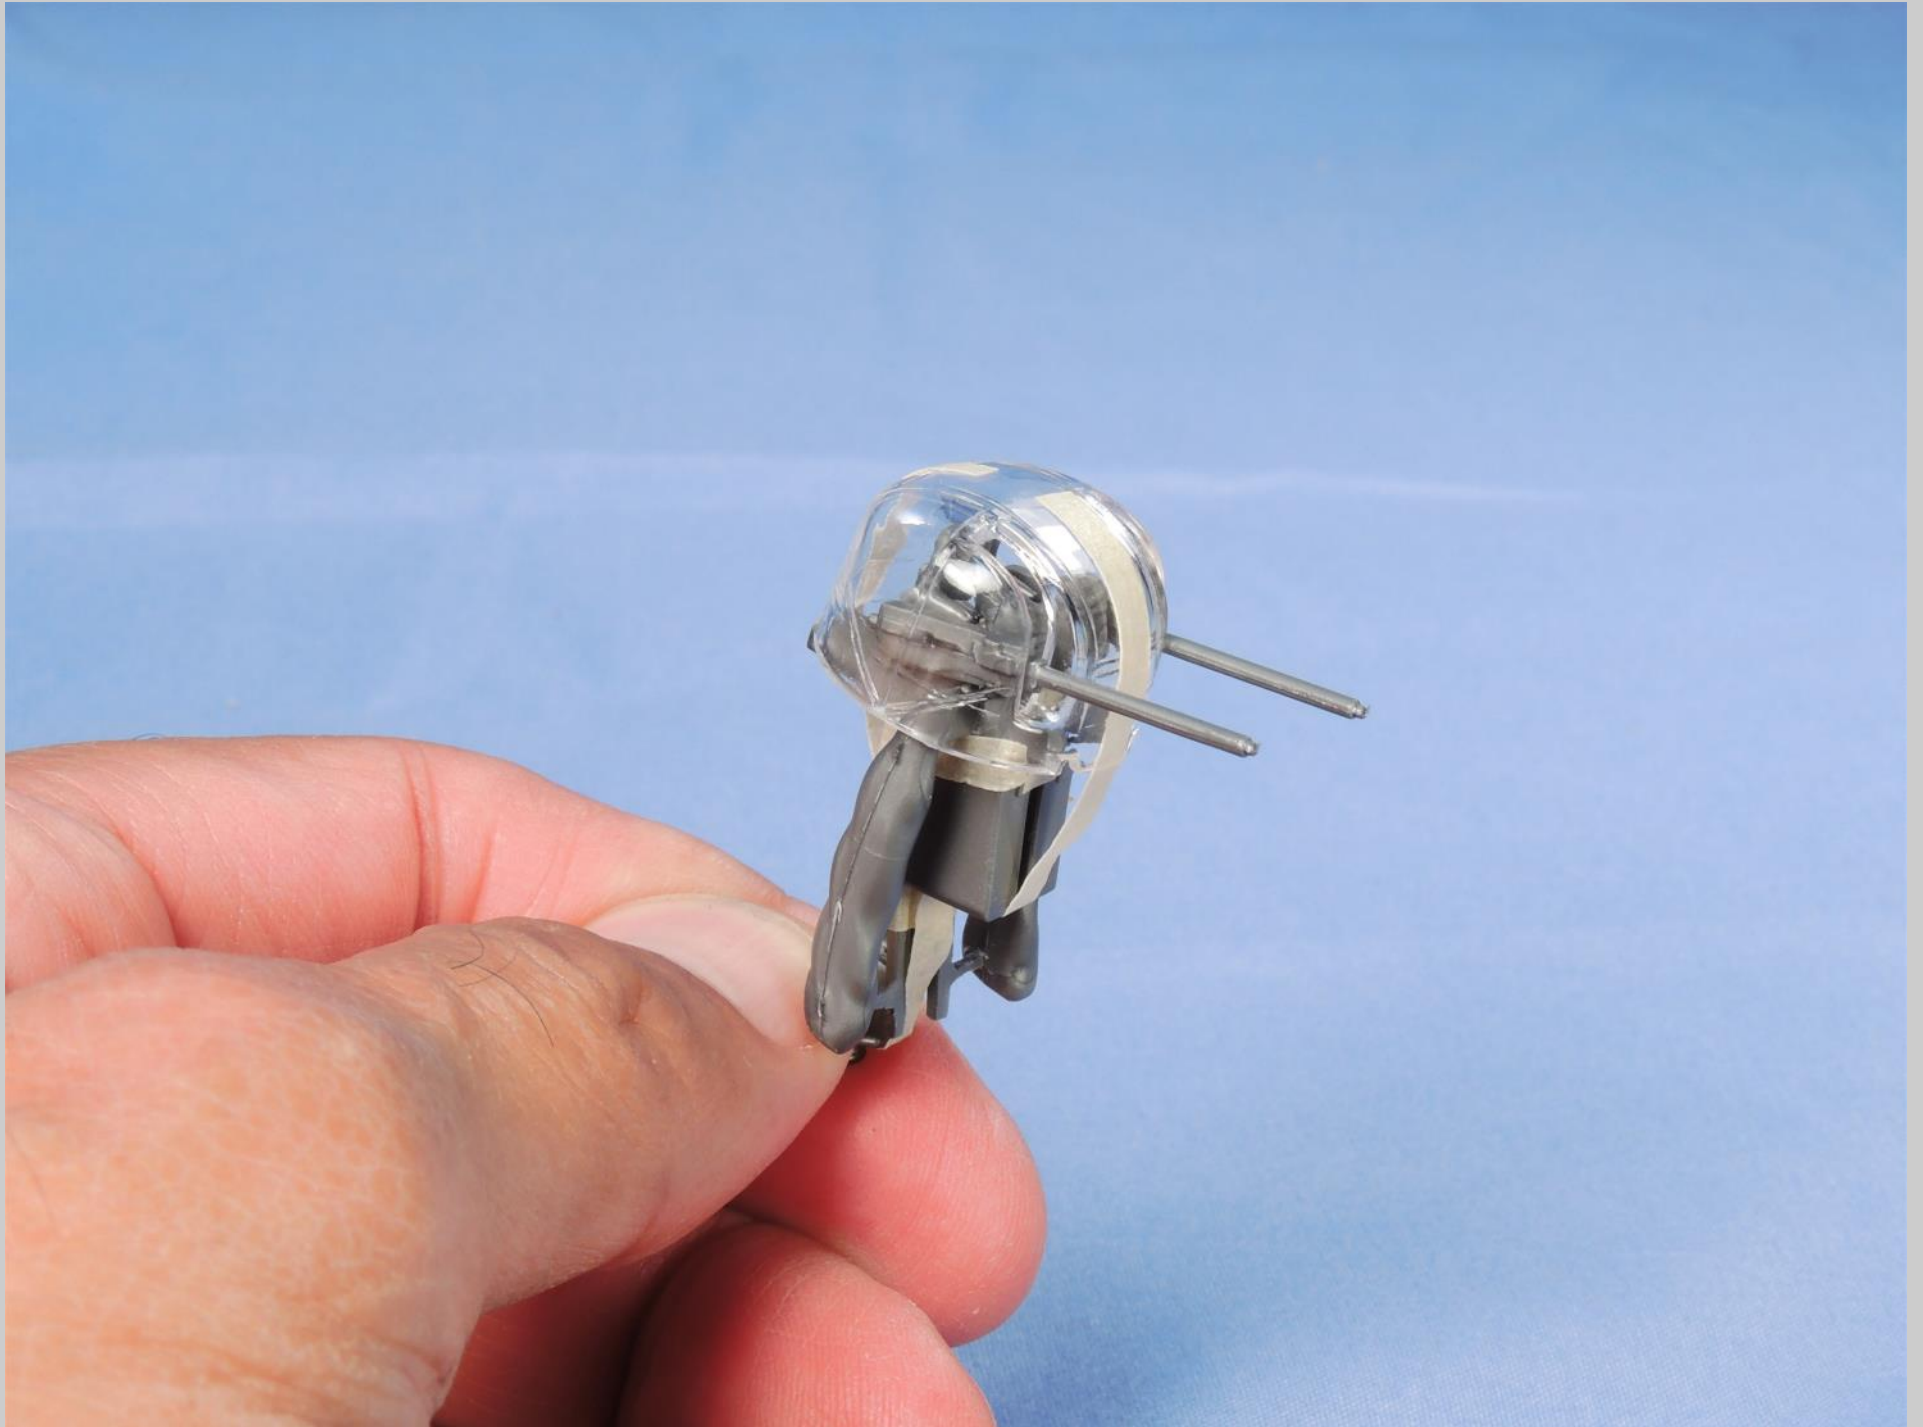

UWAGA! Produkt nie jest przeznaczony dla dzieci poniżej 14 roku życia!
WARNING! This set not recommended for children under 14 years of age!
