MANUFACTURER : VERLINDEN PRODUCTIONS  
MODEL BUILT BY : MIKE ASHEY**

**KIT DESCRIPTION  
AND  
BUILDING NOTES**

This model is a simple resin kit. The model was easy to build and well cast. Testors model master enamel paints were mixed to achieve the light shade of olive drab. Silver paint was dry brushed onto the edges of the armored car and on the grab handles to highlight the model. The antennas are stiff brass wire painted black.
