

This BT-13A Valiant is located at the South Dakota Air & Space Museum at the entrance to Ellsworth Air Force Base just outside of Rapid City, South Dakota.

The "Mustang" was the most common single-engine fighter used by the United States Army Air Corps (USAAC) during World War II. It represented the zenith of design and performance for a single-engine fighter, a combination of speed, altitude, and maneuverability that was unmatched. The P-51's most notable contribution was its exceptional range. The P-51's most notable contribution was its exceptional range. The P-51's most notable contribution was its exceptional range.
