

WALTHERS CORNERSTONE SERIES HO SCALE FREIGHT HOUSE  
BUILT BY  
MIKE ASHEY

This kit was built out of the box and painted with Folquill and Testors enamel paints. Paint weathering was achieved using lighter and darker colors of the red and gray, Folquill concrete and weathered concrete. I then lightly rubbed the brick and concrete surfaces with 0000 steel wool to give them a two tone appearance. The roof streaking, the dirty doors and windows and the worn and dirty concrete appearance was achieved using pencil pastel dust applied with a flat brush and sealed with Folquill clear flat.
