

# **MIKE ASHEY PRODUCTIONS**

**1/350 SCALE GERMAN WW-I BATTLESHIP KONIG  
MANUFACTURER : ICM  
MODEL BUILT BY : MIKE ASHEY**

## **KIT DESCRIPTION AND BUILDING NOTES**

The model was essentially built out of the box. The Gold Medal Models photoetch detail set for the Konig was used for all railings, hatches and small details. The model was painted using Testors model master enamel paints. The horizontal kit supplied masts as well as the upper masts were replaced with stiff brass wire to make rigging the model easier. Nylon sewing thread was used for the rigging and painted with a gray indelible marker pen.
