**1/350 SCALE USS GEARING DD-710  
MANUFACTURER : YANKEE MODELWORKS  
MODEL BUILT BY : MIKE ASHEY**

**KIT DESCRIPTION  
AND  
BUILDING NOTES**

This model is a resin, white metal and brass photoetch kit. The kit was easy to build and it's well cast and engineered. Testors model master enamel paints were mixed to achieve the navy blue and deck blue colors. Rigging was achieved using nylon sewing thread colored with a black indelible marker.
