**1/700 SCALE USS HORNET
MANUFACTURER : HASEGAWA
MODEL BUILT BY : MIKE ASHEY**

**KIT DESCRIPTION
AND
BUILDING NOTES**

This 1/700 scale Hasegawa kit was built many years ago and improved with the addition of a Skywave Detail Set and a Gold Medal Models photoetch detail set. Testors model master enamel paints were used for all the surface colors. The water was made from acrylic gel medium applied with a brush. The acrylic gel was painted and highlighted with water base paints.
